

# STEAMER HELD UP BY REBEL BANDITS

## Deeds of Jesse James Outdone by Russians on the Black Sea.

### OFFICERS AS HOSTAGES

#### Stop Firing by Passengers by Threat to Kill Captain, Mates and Four Sailors—Compel Captives to Land Them.

PODI, Trans-Caucasia, Oct. 3.—Twenty-five men armed with rifles and revolvers, who boarded the Black Sea steamer "Czaritch," George at various points between Sukkukun-Kale, a seaport on the Black Sea, and Novorossisk, on the east coast of the Black Sea, succeeded in abstracting and getting away with \$6000 from the mail and the ship's treasury during the night of October 1.

Firing their weapons and shouting to the steamer passengers not to move, the robbers drove the crew into the steerage and occupied the approaches to this part of the ship, threatening the passengers and crew with death if they resisted. The first-class passengers fired some shots at the robbers, who, however, compelled the captain to order the immediate cessation of the firing, threatening to shoot the captain, the two mates and four sailors whom they had retained as hostages if the firing was continued.

### ABANDON VIBORG MANIFESTO

#### Democrats Decide to Return to Constitutional Methods.

ST. PETERSBURG, Oct. 3.—The denunciation of the Viborg manifesto, with its appeal for the non-payment of taxes and the refusal to perform military service, as a campaign document in the coming elections and the adoption of a more constitutional campaign, appears to be the order of the day of the congress of Constitutional Democrats which will open at Helsinki next Sunday. A majority of the central committee is convinced that it would be inexpedient to enter the battle under such an openly revolutionary standard.

The proposed platform, a plank of which, it is understood, has been drafted by Professor Mikulok, will declare that, while the Viborg manifesto was a correct measure at the time of its adoption, it would now be inopportune to press its recommendations. The belligerents, and among them is Prince Dolgoroukof, of Moscow, are inclined to fight for a flat reaffirmation of the manifesto, but the conservatives are content of carrying the day.

The convention will be held behind closed doors, and the press will be excluded in deference to the Finns, who do not desire that the convention be given great prominence on account of their friendly relations with the government, and also to prevent advertising.

### LIKE REIGN OF GUILLOTINE

#### Executions by Court-Martial Accompanying Robberies.

ST. PETERSBURG, Oct. 3.—The vigor with which courts-martial have been employed in the repression of the recent carnival of violent crime is shown by the number of executions. In addition to the record of 11 executions of yesterday, already reported, 19 more are mentioned in this evening's dispatches—seven at Kherzon, four at Warsaw, three at Kielce, three at Mitau and one each at Kalisz, Batoum and Baku. The execution at Baku was for robbery and pillage committed during the revolutionary disorders.

All the other were for murder. It began the trial of an epidemic today of attacks on government cashiers and officials similar to the St. Petersburg incident, it being paydays for government employes. There were four such attacks close to Tiflis.

Both Germany and Sweden are concerned in the murder yesterday of M. Hager, the Swedish vice-consul at Batoum, Hager was a German subject. The Foreign Office has expressed its regret for the murder of Hager, and declares that the utmost endeavors will be made to apprehend and punish the murderers.

The court-martial at Cronstadt today began the trial of three ringleaders of the mutiny on board the torpedo gunboat Kazanetz, August 2. Next week the court will begin trying 25 members of the crew of the battleship Alexander, who refused to obey Captain Petroff's orders to enter the ship's boats and assist in suppressing the mutiny at Cronstadt. A court-martial at Batoum has found 23 sailors of the transport Riga guilty of mutiny and has sentenced them to various terms of imprisonment at hard labor. The seriousness of the August mutiny was revealed at the courts-martial since held at Cronstadt, Helsinki, Revel, Riga, Libau and practically every Baltic port, showing that the whole fleet was honeycombed with sedition.

An unreported mutiny of the Twenty-first East Siberian regiment, which distinguished itself in several battles in Manchuria, has been decided by the verdict of a court-martial held at Blagovieshchensk, Asiatic Russia, which has sentenced six of the ringleaders to death, three others to hard labor and 19 to serve various terms in disciplinary battalions.

Yesterday's record of executions as the result of the sentences of drumhead courts-martial includes four anarchists put to death at Kiev, and seven bandits executed at Ekshmut. The latter were shot owing to the inability of the authorities to procure a hangman.

ST. PETERSBURG, Oct. 3.—The police today searched the students' laboratory of the Engineering Institute, which is attached to the department of railways and communications. Forty bombs and 70 pounds of dynamite left in the laboratory by a student named Finick were discovered. The exami-

nation showed that the laboratory was completely fitted out for the preparation of bombs.

Finick's living rooms were subsequently searched and a further large quantity of explosives found. The police also unearthed a store of arms in the room of the son of the janitor of the institute. Finick and a number of others were arrested.

### ATTEMPT TO ROB CUSTOMS

#### Fusillade Subdues Them.

ST. PETERSBURG, Oct. 3.—A bold attempt made by a number of revolutionists this afternoon on the cashier of the branch office of the Volga district, was frustrated by the quick action of the police, who captured several of the attacking party after a fusillade, during which one man is reported to have been killed. The firing occurred at the west end of the Palace bridge, one of the most frequented thoroughfares of the city, situated hardly 100 yards from the Winter Palace and the Admiralty. The affair caused great excitement among the operators on the Bourse.

The cashier was returning in a carriage from the treasury with over \$10,000 for the payment of the salaries of the customs employes, when two men armed with revolvers sprang at the horses' heads and surrounded the vehicle and covered the cashier with their revolvers. The police apparently had advance information of the plot, for they immediately surrounded and opened fire on the revolutionists, who answered the fire and attempted to flee, but ran into the arms of a squad of plain clothes policemen.

### MILLIONS STARVE ON VOLGA

#### Rioting Natural Sequence of General Disease and Hunger.

BERLIN, Oct. 3.—The Kattowitz Zeitung says that as the result of an investigation made in the Volga district the fact has been established that fearful misery and starvation exists there. Several millions of persons, the paper says, are in a state of semi-starvation and have no means of procuring food; diseases such as typhus fever are widespread, and peasant disorders have occurred in many districts.

### STATISTICS OF POLISH TERROR

#### Government Kills Four Citizens to One of Police and Troops.

WARSAW, Oct. 3.—According to an official report of the city ambulance department, the number of police and soldiers killed during the past four months is 23 and the wounded 107. One hundred and thirty-two citizens were killed and 39 were wounded during the same length of time.

### Bomb Factories Captured.

KHARKOV, Oct. 3.—The police have discovered a bomb factory in the outskirts of the city. They took possession of two filled and 60 unfilled bombs and a quantity of other explosives, and secured information leading to the discovery of other laboratories, where four more bombs were seized. Two arrests were made. One of the prisoners is a Sevastopol sailor, who escaped from prison, where he was being held on the charge of participation in the recent mutiny.

### French Girl Becomes Terrorist.

TOULON, France, Oct. 3.—A girl arrested here on the charge of throwing a bomb at the Governor of Ekaterinoslav, and who claimed to be a Russian, turns out to be French. Her name is Jeanne Tilly.

### Weird Evidence of Slaughter.

NEW YORK, Oct. 3.—A special cable to the Times from St. Petersburg says that nine corpses, with sacks over their heads and bullets in their breasts, have floated ashore near the palace of Peterhof. They are presumably those of sailors recently executed at Kronstadt.

### RAISE FUNDS FOR IRELAND

#### League in America Votes Cash With Great Enthusiasm.

PHILADELPHIA, Oct. 3.—In anticipation of hearing a speech by T. P. O'Connor, M. P., the Irish leader, the hall in which the National convention of the United Irish League of America is being held was crowded early today.

Mr. O'Connor reviewed the work being done in the British Parliament in the cause of Irish home rule, and predicted that Ireland would soon emerge from British rule and have its own home government.

Colonel John F. Finerty, of Chicago, president of the league, has announced that he will not accept a renomination, but it is said, however, that he probably will be re-elected without opposition.

Secretary O'Callahan, in making a report as chairman of the ways and means committee, suggested that \$50,000 be pledged by the league during the next two years to aid the cause of Ireland's freedom and that \$10,000 be pledged within ten days to be sent by the National treasurer to the treasurer of the ways and means committee of Ireland. Both suggestions were pit-

SET 4—Linen Cloth, 2 1/2 yards long, with 1 dozen 22-inch napkins to match; complete set for only **\$3.50**

in the form of motions and unanimously carried amid great enthusiasm.

During the afternoon a number of resolutions were adopted, among which was one reaffirming the well-known principles of the league toward home rule in Ireland, and pledging its members to continue to strive as they have in the past to bring about better conditions in that country.

The following officers were elected: President, Michael J. Ryan, Philadelphia; vice-presidents, Patrick Egan, New York, Michael J. Redding, Boston.

## Scrofula

Is very often acquired, though generally inherited. Bad hygiene, foul air, impure water, are among its causes. It is called "the soil for tubercles," and where it is allowed to remain tuberculosis or consumption is pretty sure to take root.

### Hood's Sarsaparilla

### Will Write Opera on America.

NEW YORK, Oct. 3.—With a new march called "Viva America," in his portmanteau, composed in honor of his visit to this country, Ruggiero Leoncavallo, the composer of "I Pagliacci," "I Medici," and other operas, arrived late yesterday afternoon on the Kaiser Wilhelm der Grosse.

Speaking of his visit, he said: "My visit to America has more significance to me than a mere tour. It is my purpose while here to get the material for at least one opera based on American life. I want to go to the theaters, to see the people and meet and talk with them, to learn their ideas and ideals, and see if I can write them into words and music. I have not studied so much of the American literature as I could wish, but believe after all that it will be better for me to learn at first hand by meeting the people."

### Joe Wheeler's Daughter Weds.

DECATUR, Ala., Oct. 2.—The marriage of Miss Carrie Peyton Wheeler, youngest daughter of the late General Joseph Wheeler, to Gordon Montgomery Buck, of New York, took place yesterday at the old Wheeler home, near here.
