while many or the reports that have gone out from this state are that the Oregon hope are sporty. When a representative line of samples is at the disposal of the Eastern hopmen they will very seen find that there are identy of good hope to be had in this state.

With the marker so uncontain, speculative buyers refrained from taking hold, believing that still lower prices would result from the inactivity. The lack of general demand will doubtless, if it continues, cause many growers to try to sell, but there are others who believe that a benithy reaction is bound to come later and they cannot be frightened into parting with their goods at present prices.

Character of Trading Continues to Be Spotty-Rise in Bank of England Discount Rate Does Not Affect Money Market.

NEW YORK, Oct. II .- The day's atock market had abundant evidence of strength, and while there was no actual rising tendency prices held firm until the drive against the market in the last hour. The character of the tradius was not much changed and was still spotty. The buying was spasmodle and came in large orders and gave the impression of coming from identical sources. The offective demand converged also on a few stocks.

The sterling rate at Paris jumped to the gold export point and it is that point that is looked upon as likely to come to the relief of Lemion's need for replenished reserves. The Emglish bank's \$12,527,950 decrease in builton. English bank's \$12,27,950 decrease in cumon brought its proportion of reserve to liabilities down to 35,45 per cent from 38,50 per cent inst week. Last year in this week the proportion was increased from 35% per cent to 41%. The bank sent another \$1,000,000 bullion to Egypt today. There was a general respinse in foreign discount to this action by the Bank of Engined.
