London Corporation Owns Stock of Own Standard Company.

## SELLS OIL TO STANDARD

President of Manhattan Oil Company Shields Light on Scheme to Hide Monopoly's Hand.

**FINDLAY, Oct. 11.**—Evidence was brought out by the state today in the trial of the Standard Oil Company of Ohio for conspiracy against trade, showing the ownership of the Manhattan Oil Company of Ohio by the Federal Industrial Development Company, Limited, of London, England, also that the Manhattan, which buys and ships crude oil, does not compete with Standard, but does compete with independent companies.

These facts were brought out in the testimony of F. W. Cutbert, president of the Manhattan, a similar criminal suit to that on trial is pending against his company, and he testified under the order of the court, which renders him immune from future criminal prosecution.

### He Votes Nearly All Stock.

The witness had been summoned and ordered to bring the books of his company showing the record of stockholders' meetings. The books were produced. The record of the last annual meeting showed that Mr. Cutbert had been elected president by voting under power of attorney 198 shares of stock owned by the English holding company, that this comprised the entire stock of the company with the exception of 12 shares, of which one each is held by the president and directors of the company, who are all residents of Lima, Ohio, the home of the company. Mr. Cutbert said he had been president since 1903 and he had held the same power of attorney since that time. He knew nothing about the English company, had never seen any one connected with it, but had corresponded with J. W. Francis, its secretary, and W. W. Johnson, its managing director, whose addresses were London. He remits money to them.

### Sells Oil to Standard.

Explaining the nature of the business done by the Manhattan, Mr. Cutbert said that before he became its president the company did a general oil business, that it owned producing properties, pipe lines and a refinery at Galata, O. It had disposed of all but its pipe line to the Ohio Oil Company, but he did not know who was now operating the refinery at Galata. The Manhattan Company now does exclusively a pipe line business. In doing it it buys the oil of the producer, transports it to storage stations and sells it to S. P. Traher, purchasing agent for the Standard, who also buys oil from Joseph Zeph, treasurer of the Buckeye Pipe Line Company.

### Loses Money in Competition.

To protect our pipe lines from the encroachment of competitors, "Who are your competitors?" asked Sine's Attorney Phelps. "The National Refining Company of Findlay and the Paragon Oil Company of Toledo."

### Evidence of Trust Admitted.

When the trial was resumed this morning, counsel for defense resumed their fight against the admission of the certificate showing the charter of the Standard Oil Company organization in New Jersey. The certificate is a transcript of the record of the Secretary of State's office of New Jersey, and shows that in 1892 the company increased its board of directors from three to nine. This, it was claimed by the prosecution, was done that Mr. Rockefeller and his two colleagues on the board of directors in the Standard Oil Trust might be elected on the New Jersey board.

### OLD GIRARD SLAVE PEN

Discovery Made by Subway Workmen at Depth of 100 Feet.

**PHILADELPHIA, Oct. 11.**—Subway workmen digging beneath Water street for the new terminal station, uncovered at the depth of 100 feet what is clearly an old slave pen. The pen is composed of narrow cells in three tiers with three-foot corridors between heavy walls. The cells in each tier were made in a row. The old pen is within half a square of the Delaware, and secret access by water would be easy. Girard believed in slavery, owned slaves and many Louisiana sugar plantations.
