

ADVISES NEGROES TO REMAIN CALM

Booker Washington Urges His Race to Have Patience Under Great Wrong.

GET RID OF THE LOAFERS

Leader of Colored Race Condemns Wild Schemes of Migration and Finds Good and Bad in Both Races.

NEW YORK, Oct. 11.—The annual session of the National Afro-American Council, which has been in progress here, was brought to a close tonight with services in Zion Church. Booker T. Washington made the principal address. He said in part:

In this season of disturbance and excitement, if others yield to the temptation of losing control of their judgment and give way to passion and prejudice, let us, as a race, reach the world that we have learned the great lesson of patience and self-control, and that we are determined to be governed by reason rather than by feeling. Our victories in the past have come to us through our ability to be calm and patient, often while enduring great wrong. If others would break the law and trample it under foot, let us keep and respect it and teach our children to follow our example.

Get Rid of Negro Loafers.

In this connection I repeat what I have uttered on a recent occasion: every lot of influence that we possess should be used to get rid of the criminal and loafing element of our people and to make decent, law-abiding citizens.

To the members of my race who reside in the Northern states, let me utter the warning that in your enthusiastic desire to be of service to brethren in the South, you do not make their path more thorny or difficult by rash utterances. Before giving advice to the negro in the South, the negro in the North should be very sure what he advises is that which he himself would be willing to take into the heart of the South and put into practice. Be careful not to assist in lighting a fire which you will have no ability to put out.

Moving North No Solution.

Many think that the problem with which we are grappling will be better solved by inducing millions of our people to leave the South for residence in the North, but I warn you that, instead of this being a solution, it will but add to the complexity of the situation.

The indiscriminate condemnation of all white people on the part of any member of our race is a suicidal and dangerous policy. We must learn to discriminate. We have strong friends both in the South and in the North, and we should emphasize and magnify the efforts of our friends more than that of those who wish us evil.

Two Kinds of Negroes.

The country must also learn to differentiate between black people. It is a mistake to place all in the same class when referring to labor, morality or general conduct. There is a vicious class that disgraces us; there is also a worthy class which should always receive commendation. Further, we must frankly face the fact that the great body of our people are to dwell in the South, and any policy that does not seek to harmonize the two races and cement them is unwise and dangerous.

Creation—construction in the material, civic, educational, moral and religious world—is what makes races great. Any child can cry and fret, but it requires a full-grown man to create—to construct.

Throws Off Shackles of Trust.

LISBON, Oct. 11.—The Chamber of Deputies today adopted a bill providing for the removal of the tobacco monopoly.
