

LAD IN THE EARTH BESIDE HUSBAND

All Old Confederacy Pays Last Honors to Mrs. Jefferson Davis.

EVERY STATE IS IN LINE

Simple Services in Old Church at Richmond Followed by Military Procession to Cemetery.

Where Salute Is Fired.

RICHMOND, Va., Oct. 18.—Mrs. Jefferson Davis, widow of the President of the Confederacy, was today laid at rest in Holywood cemetery, where rests the body of her distinguished husband.

The train bearing the body of Mrs. Davis arrived this morning and was met at Elba, an uptown station, by Lieutenant-Governor J. Taylor Ellison. The members of the Davis family present were Mr. and Mrs. J. Addison Hayes, Jefferson Hayes Davis, Miss Hayes and Dr. and Mrs. Webb. A detail from the New York camp of Confederate Veterans acted as an honorary guard.

From Byrd street, details from the local camp of Confederate Veterans escorted the body to St. Paul's Episcopal church. There the casket was placed in the basement of the auditorium amid flowers.

Service in the Church. At 3 o'clock the casket was taken into the body of the church, which was packed with people. The funeral services were conducted by Rev. Robert W. Forsyth, rector of the church, assisted by Rev. Dr. J. William Jones, chaplain general of the Confederate Veterans; Rev. Dr. James Fowler Smith, who was Rector of the Episcopal church in Richmond; and Rev. Dr. N. A. Seagle, rector of the Episcopal church in Petersburg.

At the head of the casket stood General Stephen D. Lee, of Mississippi, in civilian garb, a chief marshal of the parade. He stood almost constantly. The whole work of the procession was lined with people who stood under umbrellas.

Salute Fired Over Grave. At the cemetery there was another large gathering of people. The brief services were conducted by Rev. Mr. Forsyth and Rev. Dr. Seagle. The casket was fired an artillery salute and two companies of the infantry fired three volleys over the grave.

Compassionate among the magnificent floral offerings at the funeral was one from President Roosevelt. This at the cemetery was placed at the base of the casket. Mrs. Davis' resting place is next to that of her husband.

Tape were sounded by Bugler Cowardin, of the Richmond post, who was in uniform. A similar service for President Davis and Miss Winnie Davis.

DOES NOT FEAR HEARST

(Continued From Page 1.)

meetings are "frosts" and declares that on this occasion or that there "was a lack of Hearst's usual vigor." The paper has begun to pose as a martyr, hounded by the decent papers of his own city. And yet it is but another instance of Hearst's doing the very thing that he contemns in others.

Democrats Fight Him Hardest. It is a striking thing that the Democratic papers of New York are waging a much more vigorous fight against Hearst than are the papers of opposite political faith. The Republican press is playing up the exposure of the yellow editor and candidate and is editorially supporting the Republican ticket, but in a different way from the Democratic papers. It is true, most of the papers look upon Hearst as a defeated candidate, though the World still sees a possibility of his election. But even those Democratic papers that see defeat awaiting the so-called Democratic ticket are loud in their denunciation of the Democratic candidate for they all agree that his nomination and the manner in which he carried the recent Democratic convention has done more to destroy the democracy in New York than anything that has happened in all previous history of New York politics.

"Hearst is not a Democratic candidate," says the Times and adds that the paper's editorial policy is to support the party which has repudiated him and will vote for Hughes. This paper declares that the only weak point in the Hughes campaign is the lack of activity and effectiveness in the work of the Republican campaign committee, and it fears that Republican farmers may be fooled by Hearst's plausible deceptions unless the Republican committee gets busy. If the Republicans will hold their rural votes in line, the Times declares the Democrats will take care of the cities. Concluding its editorial, the Times says:

Make It 500,000 Majority. The whole Union looks to the Empire state to make an end of the offensive pretender on November 6, to remove him from American politics and to destroy his poisonous influence. No ordinary majority will suffice. Let us make it 500,000. That would be exemplary. Surely in the greatest state in the Union, against the unwelcome nominee that ever ran for Governor in any state, the great state majority ever known ought to be recorded. The 500,000 mark can be reached if the Republicans will give their candidate the hearty, energetic and unanimous support of which, by his character, his record and his ability, he is in every way worthy.

Will Enter Jail Monday. Ex-Senator Burton's Wife to Accompany Him to Ironton, Mo.

ABILENE, Kan., Oct. 18.—Joseph Ralph Burton, ex-United States Senator from Kansas, will begin serving his six months' sentence for the crime of bigamy at Ironton, Mo., on Monday next.

He will be accompanied to Ironton by Mrs. Burton, who will remain in that city until her husband's release. Burton, at his home here this afternoon, received a telegram from F. H. Lehman, his attorney at St. Louis, announcing that the latter had made arrangements for the ex-Senator to be in court in that city on Monday morning next, when the mandate of the United States Supreme Court upon his sentence will be formally presented and Mr. Burton given into the charge of the court officials.

FOREIGNERS ARE SHUT OUT Japanese Are Entering Upon an Era of Frenzied Finance.

LONDON, Oct. 18.—In a dispatch from Tokyo the correspondent of the Daily Telegraph says there exists an almost complete deadlock between foreign capitalists and the Japanese. Many foreign promoters are visiting Japan, but few of their schemes show any prospect of success. There is much negotiation, but little real business.

On the other hand, the Japanese themselves are floating innumerable companies, which are always over-subscribed. The stock market is in a ridiculously inflated condition, the correspondent avers, and some persons predict a serious financial crash.

Body Found Hanging to Tree. MISSOULA, Mont., Oct. 18.—A Milwaukee surveying party discovered the body of Jens P. Knudsen hanging by the neck to a tree one mile from Clifton today. Identification was made by letters found in the dead man's pockets. He was formerly with the Second Cavalry at Fort Bowie, Arizona. He had a ticket for Portland from Missoula, in his pocket, dated June 4, 1906, which was doubtless the date of his death. The remains were brought to this city.

May Extend to Atlantic. It is known that Mr. Harriman now owns at least \$30,000,000 of the Chicago & Alton stock, probably more. If report be true, the control of the Baltimore &

OHIO, which the Pennsylvania has recently voluntarily surrendered, will shortly show up in the Harriman column. Should this prove true, it would carry with it the practical domination of the Reading system by the Harriman interests, including the Philadelphia & Reading Coal & Iron Co., and the New Jersey Central lines and coal properties.

Value Would Be \$2,765,000,000. The magnitude of this project is seen when it is stated that the capitalization of the roads involved is \$2,550,000,000, of which fully \$2,000,000,000 is outstanding and the market value of which is fully \$2,765,000,000. These roads now have more than 300,000 cars and engines and enjoy a gross income of fully \$420,000,000, and a net of nearly \$200,000,000. It is well known that Mr. Harriman is a director in the Erie and the Delaware & Hudson and has a powerful voice in other great railway systems.

His ability to carry through such a vast scheme is undoubted, for he has back of him the richest sources of bankers in the world, who can and would at any time raise untold millions to carry through any plan which Mr. Harriman might have and which appealed to them as reasonable and as offering a fair reward.

SAYS FISH BROKE AGREEMENT Harriman Adheres to Cromwell's Version of Dispute.

NEW YORK, Oct. 19.—In answer to inquiries from the press, the Central election E. H. Harriman today said: "There was no agreement or understanding concerning the Illinois Central question between Messrs. Fish, Peabody and myself other than that embodied in our signed agreement. It was just because Mr. Fish and ourselves could not agree upon a successor to Mr. Grinnett that we mutually and squarely agreed to leave the selection of that successor to the majority of the directors and that all provision controlled by all or any of us should be voted for the person so selected. That selection was made by a majority of the board of directors pursuant to that agreement, but Mr. Fish instead selected his own nominee."

"It passes the bounds of credulity to suppose that we would give Mr. Fish the right to nullify the very agreement we were signing and to veto the selection to be made by a majority of the directors."

UTES HEAD FOR MONTANA Break Camp in Wyoming on Learning Troops Are Coming.

DENVER, Oct. 18.—A Republican special from Gillette, Wyo., says that the band of Ute Indians, whose threatening attitude toward the settlers in the neighborhood of Gillette caused the Government troops to be ordered to the spot, pulled stakes late this afternoon and started in a body in the direction of Montana. The Indians heard of the order of the Government and immediately began preparations for leaving.

WASHINGTON, Oct. 18.—Upon the application of Governor Brooks of Wyoming, Secretary Taft, by direction of the President, has instructed Major-General Greeley to dispatch a troop of cavalry to Wyoming to round up and return to their reservations the Ute Indians who are now causing a disturbance in that state.

General Greeley is supposed to be in Omaha. The selection of the troop is left to his discretion, but it is believed it will be ordered from Fort Meade, N. D., about 200 miles from the scene of trouble.

OMAHA, Neb., Oct. 18.—Late tonight Major C. R. Noyes, military secretary of the Department of the Missouri, stated that orders had been sent to Fort Robinson for the dispatch of two troops of the Tenth Cavalry to the scene of the Ute Indian depredations in Wyoming. They will be under the command of Colonel Jacob A. Augur, commanding the regiment. They will start tomorrow morning over the Burlington Railroad.

DESTRUCTION AT HAVANA Twenty Lives Lost, Buildings and Ships Wrecked, Crops Ruined.

HAVANA, Oct. 18.—A cyclone of unprecedented severity, accompanied by a terrific downpour of rain, swept over the Province of Havana and Pinar del Rio Wednesday night and resulted in 20 deaths in this city and the serious injury of a dozen or more persons. The damage is estimated at fully \$2,000,000. The dead are all Cubans of the poorer class.

The United States cruiser Brooklyn dragged her anchor until her stern grounded in the mud off La Regia. She got off this morning without injury. The storm caused great havoc and confusion in the shipping in the harbor. Many buildings were badly damaged, and nearly all the trees in the city and suburbs were uprooted.

Brooklyn Aground and Off Again. The storm caused the greatest damage in the harbor. The Brooklyn drifted further than any other warship, and finally brought up off La Regia with her stern in the mud. She got off this morning under her own steam and has sustained no injury. The cruiser Denver, the cruiser Massachusetts, the battleship Texas, the auxiliary cruiser Prairie and the supply ship Celtic all dragged their anchors more or less, but prompt seamanship averted collisions. These ships were all made fast to permanently anchored buoys, which never before were known to have dragged. The damage sustained by the squadron amounts to little.

Two coasting schooners were driven high on the rocks at the Malenco. The crew of one managed to get ashore, but the crew of the other, four men, was drowned. The chartered Army transport Cubana, from Newport News with horses and mules and a few teamsters, arrived here this morning, after a terrific struggle with the gale off the Florida coast. One hundred mules and 20 horses were swept overboard, and many other animals were injured.

The total number of lighters sunk in the harbor is estimated at 40. Many of them were loaded with sugar and other merchandise, upon which the loss will be great. Owing to the lack of lighters, steamers are now discharging alongside the wharves.

The harbor has been searched for dead, and it is now believed that all the bodies have been found.

House Falls on Occupants. In Havana City, about 50 houses were more or less damaged, but, owing to the massive construction of roofs and walls, the damage is serious in only a few instances. A partition wall in the American Legation was blown down. The office furniture was ruined and the books and records of the legation were wet through. The structures over the sea baths at Vedado were wrecked. The great unoccupied brick building covering the old United Railroad wharf near La Regia was totally demolished.

The principal loss of life occurred in a tenement-house on Inquisidor street, occupied by many poor families. The projecting upper portion of the building collapsed first and then the three floors gave way and fell. Eight of the inhabitants were killed and five were injured. The other fatalities resulted from falling signs and cornices, contact with live wires in the city or by drowning.

During the height of the storm there was great alarm among the guests of the Inglaterra and other hotels. Doors, windows and skylights were blown in and the fierce rain flooded the rooms.

Trees in Prado Uprooted. The destruction of trees by the cyclone was a most remarkable feature. Throughout the length of the Prado scarcely one tree remains standing; they were nearly all uprooted. Havana has thus lost one of its chief beauties. The parks also were devastated.

The streets in the lower part of the city were flooded to a depth of a foot or more, and the lower floors of buildings were inundated. The electric power service was put out of commission, and consequently no newspaper could be published this morning. Reports received here from Pinar del Rio City declare that the damage to buildings there was very great. The injury to the sugar crop is not serious. The rivers of Havana and Pinar del Rio provinces have overflowed in the lowlands, and horses, cattle and pigs by the hundreds have been drowned.

The storm began at an early hour in the evening and increased in severity at night, when the wind reached a maximum velocity of 80 miles an hour. The weather observer of the Belen College informed the Associated Press that the barometric pressure varied from 27.70 to 28.06. The rainfall in 24 hours reached 4.72 inches. The center of the cyclone appears to have crossed from the Caribbean, sweeping through both provinces. It passed to the north of Havana and crossed Florida, going northeast.

Schooner Perched on Rocks. One of the wrecked schooners is now perched on the rocks in front of the Santa Clara battery, 100 feet from the water, while the other is crushed and battered against the seawall at the foot of the Prado.

Cable communication with the outside world came suddenly to an end Wednesday, and was not restored until this evening, the break being in the land line between Havana and Callian.

Gangs of hundreds of men of the Public Works Department, under the direction of Lieutenant-Colonel William M. Black, of the engineers, U. S. A., are active in different quarters of the city today in replanting uprooted trees, cutting off injured branches and generally cleaning up the parks and streets.

Train service with the East was resumed tonight with the departure of the Santiago express.

TIDE SWAMPS CONEY ISLAND Covers Roads and Railroad—Backs Up in Hudson River.

NEW YORK, Oct. 19.—In this city and vicinity the precursors of the hurricane were abnormally high tides at Coney Island and along the shore of the Hudson River in Manhattan, a fresh breeze all yesterday and last night, and a foot deep, Hudson River experts say this is the highest tide in 30 years.

Coney Island had one of the highest tides ever seen on the island. It pounded the great bulkhead at the foot of Ocean Park way. Waves rolled over it with a boom and inundated the roadways, bicycle paths, tracks of the Brighton Beach Railroad and the grounds of the Hotel Riccadou.

STORM IS OUT ON ATLANTIC Rages With Full Force Off Middle Atlantic States. WASHINGTON, Oct. 19.—The tropical hurricane, which swept from Cuba to the Bahamas, now appears to be raging with full force about 200 miles out in the Atlantic, its only shore effect tonight being a falling barometer and a 3-mile wind blowing off the South Carolina coast.

It is still hazardous for coasting craft along the Middle and South Atlantic Coasts. The hurricane, according to Forecaster Henry, of the Weather Bureau, seems to have been temporarily checked in its northward movement and has not advanced in the past 12 hours, nor do the indications point to any change in the next 24 hours.

Another storm is developing in Colorado.

Going Home for Christmas. NEW YORK, Oct. 19.—There began yesterday, with the sailing of the Republic, of the White Star Line, the annual exo-

APPEAL ON HERESY

Episcopal Court of Review Hears Crapsey Case.

VITAL DOCTRINES AT STAKE Crapsey's Lawyers Plead for Broadening of Church and Predict That Many Will Follow if Crapsey Is Excluded.

NEW YORK, Oct. 19.—Decision was reserved on a motion to dismiss the appeal of Dr. A. S. Crapsey, rector of St. Andrew's Church, Rochester, convicted of heresy, when the appeal came up today for hearing before the Episcopal Court of Review for the second department. It was agreed to withhold decision until the case had been heard in full.

The members of the court are: Bishop Scarborough, of New Jersey, Rev. W. R. Huntington, of this city; Dr. A. E. Baker, Dr. John B. Moses, Charles Andrews, Frederick Adams and James Parker, the last three named being lay members.

It was found at the Rochester trial that Dr. Crapsey had denied the virgin birth of Jesus and impugned the doctrines of the Episcopal Church. As a result of the findings he was suspended. John Lord O'Brien, of Buffalo, acted as church advocate and Edward M. Shephard and Representative J. B. Perkins, of Rochester, appeared for Dr. Crapsey. The day was taken up with arguments which will be continued tomorrow.

Says Church Must Broaden. Mr. O'Brien, in his arguments, protested against admitting as evidence a statement of Dr. Crapsey's included in a brief by Mr. Perkins, and touching upon the propriety of certain doctrines of the Episcopal Church, in which he claimed the court had no jurisdiction. However, it was finally decided to admit all the evidence.

Mr. Perkins, in his argument, reviewed the history of the trial before the diocesan court at Rochester and argued that the diocesan court, under a proper construction of canonical law, had no jurisdiction, of doctrine, faith and worship. In closing, Mr. Perkins said:

Our church must broaden out, if it is to take in all men. Its limits must not be restricted. Christ did not ask what was a man's belief. He laid down the rule that those of his kingdom should be those of mankind, he laid the sick care for the lame, the dumb and blind, that he should be great in these works. This court sits as court of the Episcopal Church, and we are signing and to veto the selection to be made by a majority of the directors."

Others Will Follow Crapsey. Mr. Shephard in his argument for Dr. Crapsey called attention to the fact that this was the first case ever heard by a court of review of the Episcopal Church, and he declared that the result would affect the confidence of the church and of all others. Mr. Shephard closed with a tribute to Dr. Crapsey's his energy, his genius and his work. He declared that, if Dr. Crapsey were to be driven out of the church, there was a very great company of clergy and laity over the breadth of the land who ought to be driven out with him.

Mr. O'Brien presented a brief argument. He held that there was no jurisdiction to determine questions of policy or expediency, but to administer the law of the church.

Twenty lives lost, buildings and ships wrecked, crops ruined. Havana, Oct. 18.—A cyclone of unprecedented severity, accompanied by a terrific downpour of rain, swept over the Province of Havana and Pinar del Rio Wednesday night and resulted in 20 deaths in this city and the serious injury of a dozen or more persons. The damage is estimated at fully \$2,000,000. The dead are all Cubans of the poorer class.

The United States cruiser Brooklyn dragged her anchor until her stern grounded in the mud off La Regia. She got off this morning without injury. The storm caused great havoc and confusion in the shipping in the harbor. Many buildings were badly damaged, and nearly all the trees in the city and suburbs were uprooted.

Brooklyn Aground and Off Again. The storm caused the greatest damage in the harbor. The Brooklyn drifted further than any other warship, and finally brought up off La Regia with her stern in the mud. She got off this morning under her own steam and has sustained no injury. The cruiser Denver, the cruiser Massachusetts, the battleship Texas, the auxiliary cruiser Prairie and the supply ship Celtic all dragged their anchors more or less, but prompt seamanship averted collisions. These ships were all made fast to permanently anchored buoys, which never before were known to have dragged. The damage sustained by the squadron amounts to little.
