One of the most remarkable dramas of the day, "The New Partner," will be performed at the Lyric matinee this afternoon for the first time on the Pacific Coast. It is credited to a report made especially for the Oregonian by Weather Forecaster Beals, there has been lots of October sunshine in Oregon in the past.

SUNSHINE IS SEASONABLE. October Fair Weather Not Exceptional, Says Forecaster Beals. Show your visiting friend chance to remark: "This is unusual weather, isn't it?" Just tell the truth and say it's nothing unusual. The friend may not believe it, but all that is necessary is to show him the report of the Weather Bureau. Cloudless, sunny days in October in Portland may even surprise some of the old-timers, yet if they are surprised it is because they have forgotten, for, according to a report made especially for the Oregonian by Weather Forecaster Beals, there has been lots of October sunshine in Oregon in the past.

Saturday papers were served upon Mrs. Snyder summoning her to appear before Circuit Judge McBride at Hillsboro. Saturday night she stated that she would leave at once for the East, as she was tired of waiting for the authorities to take decisive steps in unraveling the mystery. She declared that Mr. Allen was attempting to make her swear to a statement which was not true, and that she was sick and disgusted with the whole proceedings. She said that notwithstanding the summons she was determined to leave the Hotel Portland and watched yesterday morning when the buses departed carrying passengers to the morning train. But Mrs. Snyder did not attempt to leave. She had been warned that if she did she would be arrested.

MAN WITH BROKEN NECK WEARS HIS HEAD IN A PLASTER CAST. Adolph Aschoff, Forester, Fractures Ligaments and Vertebra in Performing Feat of Strength. Yet Lives.

DOLPH ASCHOFF of Marmot, who was superintendent of the Cascade forest reserve rangers for a number of years, and one of the most accomplished and skillful forest rangers on the Coast, demonstrated a few months ago that he could lift a man weighing 300 pounds by the strength of his neck, without using his hands, and technically speaking, has been going around with a broken neck ever since, which is a most uncomfortable and inconvenient situation for a man to be in. It is always been supposed that, when a man's neck was broken, that was the end of him, but this case of Mr. Aschoff is an exception to the rule, and it is one of the most remarkable cases known to surgery. Mr. Aschoff keeps the Aschoff Hotel at Marmot, on the road to Mount Hood.

Mr. Aschoff, although not a large man, was a man of great physical power and endurance. It is related of him that he could easily hold a sack of flour in either hand with arm extended. His long experience in the mountains and forest reserve developed most extraordinary powers of endurance. The accident occurred last July. Mr. Aschoff wanted to demonstrate that he could lift a man with his neck without touching his hands to him. So he placed his head between the legs of a man weighing over 300 pounds and did raise him with apparent ease, but shortly afterwards he found that his head dropped forward on his breast, and that he could neither raise it nor move it. He could raise his head with his hands, but it would drop back on his breast again. The spinal cord was not injured, or in-

stant death would have resulted. He was brought to a Portland hospital, where it was found that the backpart of his neck had been broken and his tendon torn by the terrible strain of lifting the man. His neck and head were put into a sort of plaster cast, very much as is done with a broken leg, to enable him to hold his head in place. He cannot move his head, and whatever position he happens to be in at night he remains in unless moved by somebody.

Whether Mr. Aschoff will recover is not known. He has had a remarkable career. When superintendent of the forest rangers in the Cascade mountains, he was moved, he was in love with the mountains and lived in them. Less than two years ago he met with a terrible accident while on his horse in the forests of the Cascade, where he had gone alone with two horses, one of which he rode, the other carrying his outfit. After camping at night, he saddled and mounted his horse, when the animal rose on his hind legs and fell backward, the horn of the saddle, penetrating Mr. Aschoff's groin, making a terrible wound, besides injuring him on the head. In spite of his terrible condition, he took the saddle off the horse and put it on the pack animal, traveled as far as his strength would permit, and then spent the night alone, remaining his trip in the morning and reaching home two days after the accident, fainting many times on the trip. He was brought to St. Vincent's Hospital, where he remained for several months. While in the hospital his wife, driving in to see him, was nearly killed by her horse running away. These accidents all happened in the last two years.

AT THE THEATERS. Obeys Court Order. Mrs. Carey M. Snyder Decides Not to Leave the State. Fearing to place herself in contempt of the court, Mrs. Midge Snyder, widow of Carey M. Snyder, of Glencoe, Washington County, did not leave Portland yesterday.
