

FISH SELLS OUT; GRAMMER GOES IN

Gives Up Illinois Central With Safeguard Against Wall Street.

HARRIMAN BUYS STOCK.

Rival Interests Agree on Purely Business Management Secure From Speculators—Fish Gets \$10,000,000 for Stock.

CHICAGO, Oct. 24.—(Special.)—For a consideration of \$10,000,000, and assurance that control of the line will pass to an administration that has never been identified with the speculative interests in Wall street, Snyvesman Fish has agreed to retire as president of the Illinois Central Railroad, in favor of a successor to be selected by stockholders representing equally himself and Mr. Harriman.

At a meeting in New York this afternoon the last chapter in the bitter fight waged for control of the Illinois Central between Mr. Fish and Mr. Harriman was completed, and by a vote of all concerned, it was decided to offer to Captain George J. Grammer, vice-president of the New York Central lines, the post of president of the Illinois Central at a salary of \$100,000 annually on a ten-year contract. The action taken at the New York meeting was ratified today at a meeting here of stockholders friendly to the Fish administration.

One of the conferees, a prominent Chicago banker, voiced the opinion that the capital aggregating \$10,000,000 as an advance on the continuance of the policy promulgated by Mr. Fish. This informant did not conceal his regret that Mr. Fish had consented to retire from the presidency, but the chief objection of Mr. Fish to the selection of his successor, who, according to the speaker, would be acceptable to all the warring interests. The final objection of Mr. Fish to the selection of the successor of the railroad had been founded upon the belief that the system would eventually pass to the control of Wall street gamblers, who would handle it for speculative purposes, and not for the interests of the many stockholders.

Grammer Suits All Interests. Admitting that release of control was of vital interest to the stockholders, the banker expressed the opinion that the earnings of the system as a dividend-paying investment would not suffer at the hands of Captain Grammer, who, he said, was distinguished as a railroad expert and not an agent of Wall street. It is said the selection of Captain Grammer was made after the opposing interests had taken careful measure of each other's strength and realized that the very best man must be chosen. His intimate knowledge of the Western situation and his record as president of the Union Pacific, great and small, in fields where competition is keenest, and the absence of any Wall street taint, influenced the two magnates to first offer the place to him. Captain Grammer left Chicago this afternoon for the East.

There is already considerable speculation as to the time when the new president in the event Captain Grammer accepts the position. It might mean many important transfers on both the New York Central and the Illinois Central lines.

Harriman's Offer Repeated. A stockholder who attended the New York conference and was present prior to the annual Illinois Central meeting in this city Mr. Harriman had made an offer of \$10,000,000, partly in cash, the remainder in common stock, to the Union Pacific to surrender control. After the annual meeting, when Mr. Fish sacrificed a victory in favor of his constituents, it is said, the offer was repeated and Mr. Fish then accepted with the proviso that he was to have an equal voice with Mr. Harriman in selecting his successor.

Harriman Buys B. & O. Stock. NEW YORK, Oct. 24.—The Baltimore & Ohio stock purchased some time ago from the Pennsylvania Railroad by Kuhn, Loeb & Co., has, the Times says today, been taken over in the interest of the Union Pacific. It is stated, by no means represents a controlling interest in the Baltimore & Ohio, but is sufficient to give the interests identified with the Union Pacific an important voice in the management of the Baltimore & Ohio.

DEDICATE NEW CATHEDRAL

Prominent Churchmen Conduct Services in St. Paul's at Pittsburg.

PITTSBURG, Oct. 24.—St. Paul's Roman Catholic Cathedral, said to be the most beautiful in the state, representing a cost of \$1,000,000, and over three years' work of artisans, skilled craftsmen and laborers, was dedicated today by Monsignor Domeda Falconio, Papsal delegate to America, assisted by Cardinal James Gibbons of the Baltimore Archdiocese of Baltimore, of New York; Archbishop Parley of Philadelphia, and a score of other high dignitaries of the church.

Ideal weather conditions brought a crowd, which even the big cathedral would not hold. Following the solemn ceremonies of last night, the ritualistic vigil, today, was a religious and after daybreak. Promptly at 6 o'clock Monsignors Falconio, with a number of assistants took up the march about the building, consecrating the outer walls, following which the entry into the building was made. The services concluded, the clergyman, accompanied by other dignitaries arrayed in all the rich vestments and impressive pomp of the Catholic Church, a feature of the music was a boy choir of voices, which sang the professional recitations and the responses, while the priests chanted the movable parts of the service. The return of the Monsignors Nekes in honor of St. Nicholas, never before presented in this country.

Following the mass a banquet was served in the Duquesne Garden, opposite the cathedral. Tonight another impressive procession was held, when Archbishop Moeller officiated at vespers, which closed the consecration services.

Strange Plague Ravages Town.

NEW YORK, Oct. 24.—The World says that an epidemic of disease, which doctors have confessed themselves unable to diagnose and which has assumed threatening proportions in the town of Mariner's Harbor, on Staten Island, and has thrown residents of that place into a panic. Hundreds of persons have sold or closed their houses and moved to other parts of the island. The disease already has brought two victims to the grave and

there are at present under treatment over 300 cases. The victims are first attacked by fever and soon red blotches cover their bodies. At its inception the deadly confided itself to the ranks of Austrian laborers, nearly 5,000 of whom have been brought to the town from Buffalo, N. Y., recently, to construct new factory buildings. Within the past week, however, the disease has spread to the townspeople.

WIDOW DEMANDS A HALF

Mrs. Oelrichs Pleads California Statute in Will Contest.

NEW YORK, Oct. 24.—Mrs. Hermann Oelrichs, of this city, today filed an objection in court to the probate of the will of her late husband, Hermann Oelrichs. Her objection is based on the ground that Mr. Oelrichs was not a resident of New York, but of San Francisco.

Mrs. Oelrichs left her husband, Hermann Oelrichs, Jr., through his guardian, Paul L. Kiernan, also filed an objection to the probate of the will on the same grounds.

Mrs. Oelrichs says that in September she was appointed special administratrix of the estate by the courts of California, and quotes the laws of California to show that upon the death of a husband one-half of the community property should inure to the surviving widow, who cannot be deprived of such interest by testamentary disposition.

In an affidavit filed by Mrs. Oelrichs she declares that at the time of her husband's death he did not have a residence in New York and she has no knowledge or information sufficient to form a belief as to whether he died leaving any property in the City of New York. Mrs. Oelrichs' residence at the time of his death was in San Francisco, the affidavit continues, and she has no knowledge of the time of his death in California, and she is now creditors of his estate and residing in that state.

WOMEN RIOTOUS IN COURT

English Suffragists Insist on Martyrdom and Get It.

LONDON, Oct. 24.—Ten women suffragists, who were arrested yesterday for rioting within the precincts of the House of Commons, were arraigned in Police Court today and bound over to keep the peace for six months. Such a common-law sentence has not been meted out since the views of the suffragists, who apparently desired to assume the role of martyrs by being committed to jail, and when the Magistrate announced his decision, uproar broke out in the courtroom and ultimately the women had to be removed by force. Some of them were literally struck out among the crowds waiting outside the building.

The women continued to make a demonstration outside the court until they were again arrested. Some who had been temporarily locked up in an ante-room by the police had a momentary revenge. They managed to secure a key and released themselves, but were again locked in by their jailer, who walked off with the key.

When the disturbances had somewhat subsided, the police reassembled the defendants, who were then informed by the Magistrate that they must immediately find sureties for their good behavior or be imprisoned for two months. The whole ten women refused to enter into recognizances and were conveyed to Holloway Jail.

LAWS TO PROTECT WOMEN

White Slave Congress Proposes Many to the Nations.

PARIS, Oct. 24.—The Congress for the Suppression of Traffic in Women today decided to adopt a telegraphic code for the transmission of warnings, and adopted a resolution to ask the authorities of all civilized countries to suppress lotteries, except for charitable purposes; to prohibit the delivery to minors of letters or of the general delivery of newspapers or magazines, unless they are accompanied by their parents; to suppress music halls and dives where vice flourishes; to prohibit the delivery of newspapers and magazines to minors; to prohibit proprietors of music halls from boarding and lodging performers and to prohibit "artistic posing" in theaters.

TWO KILLED BY A BLAST

Andrew Finn and E. H. Barrington Meet Death in Butte Mine.

BUTTE, Mont., Oct. 24.—Two men lost their lives in the J. I. C. Mine of the Amalgamated Copper Company through the bursting of a blast that went off prematurely. They are Andrew Finn, aged 45, who recently came here from Republic, Wash., and Edward H. Barrington, 42, a native of Butte. The men accidentally struck a priming cap, exploding the powder.

EATING HORSES AND DOGS

Prussian Statistics Show Great Increase in Slaughter.

BERLIN, Oct. 24.—The Statistical Correspondence Magazine, analyzing today the official returns of the slaughterhouses of Prussia for 1905, finds that the slaughtering of horses had increased 25 per cent, and that of horses 15 per cent, over the figures of 1904. The total number of dogs eaten in 1905 being 168, and the number of horses, 8,312.

Tried Behind Closed Doors.

PITTSBURG, Oct. 24.—Only those directly connected with the trial of Clifford Hoop, the former negro coachman of Augustus Hartie, who is charged with perjury in connection with alleged depositions reflecting on Mrs. Mary Scott Hartie, were permitted in the Criminal Court today when the case was called. It is said the commonwealth expects to prove by the testimony of Mrs. Hartie at home on the dates mentioned by Hoop in his deposition, and therefore the story he told in that statement could not be true.

Unveil General Gibbon's Statue.

TIFFIN, O., Oct. 24.—An heroic statue of General William Henry Gibson, famous as Colonel of the Forty-sixth Ohio Volunteer Infantry, and later widely known as a leading Republican campaign orator, was unveiled here today by his grandsons, Gibson and Shannon Braden, under the auspices of the State of Ohio.

Beware of Frequent Colds.

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid this disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended as a cure for colds. Mrs. M. White, of Hunter, Tenn., says: "I was soiled with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. I used it for some time and cured my cold. My throat and lungs are sound and well."

Big Haul of Lode Rebels.

LÖDZ, Oct. 24.—The police last night searched 143 houses here. Doctors, lawyers and business men to the number of 70 were arrested.

CASH OR GUARANTEE

Anonymous Writer Threatens to Wreck Train.

CHICAGO, Oct. 24.—Threatened by an anonymous letter-writer with the blowing up of one of its passenger trains unless it paid \$500, the Lake Shore Road tonight sent a dummy train filled with armed men out of Chicago and at a point in Indiana designated by the bandits the train was stopped, but no one was found in the neighborhood.

POSSIE SEARCHES FOR HIM

Demand on Lake Shore Road for \$5000 on Pain of Blowing Up Limited Train—Two Suspects Arrested.

CHICAGO, Oct. 24.—Threatened by an anonymous letter-writer with the blowing up of one of its passenger trains unless it paid \$500, the Lake Shore Road tonight sent a dummy train filled with armed men out of Chicago and at a point in Indiana designated by the bandits the train was stopped, but no one was found in the neighborhood.

As soon as the train slowed up, Superintendent Wilson with a score of United States Deputy Marshals and police detectives leaped from the coaches and began a hunt that is still in progress. Three posses are searching the Indiana marshes in the vicinity of Miller, and Aetna.

Two employees of the Aetna Powder Works have been arrested. Their arrest was caused by the finding in their room of a bottle of nitroglycerine.

The bandit in his letter instructed the railroad to carry the money to him on the limited express, which leaves Chicago at 5:30 in the evening.

"I will be at the side of the tracks," he wrote, "somewhere east or west of Pine. When the limited approaches me I will fire two shots from my revolver. Have the money in a bag and drop it off the hind end of the train. If you don't do this, I say your train will be blown to atoms with dynamite."

Three letters in all were received from the mysterious writer, and the railroad officials turned the matter over to the United States postal authorities, who planned the dummy train to trap the bandits.

MORE MARINES NEEDED

General Elliott Wants Barracks at Mare Island and Elsewhere.

WASHINGTON, Oct. 24.—In his annual report, Brigadier-General G. F. Elliott, commandant of the Marine Corps, calls attention to the necessity for an increase in the complement of the Marine reserves of the forces, and says the demands for both officers and men are daily increasing. He states that unless prompt action is taken in this matter by Congress, during its coming session, he will be unable to carry out the directions of the Secretary of the Navy with regard to details both ashore and afloat, and that the efficiency of the corps will suffer materially.

General Elliott says that the provisions of the general order of the Department, by which enlisted men of the army are entitled to campaign badges for service ashore in Cuba, Porto Rico and the Philippine Islands during certain periods and for service ashore with the Peleu reserves during the Boxer rebellion, he made applicable to the men of the Marine Corps, who were at that time serving with the army.

He says the barracks at Mare Island, Cal., are unsafe, inadequate and obsolete in design and construction. The sanitary condition is bad and he recommends \$200,000 for new barracks and \$60,000 for officers' quarters. The report also states that the accommodations for the marines at the Naval Station, Cavite, P. I., are not only unsanitary and inadequate, but conducive to discontent and dissatisfaction, as the ordinary comforts are not granted to the men. He reports the cost of \$25,000 for the improvement of the grounds and the building of barracks. An estimate of \$100,000 is suggested for the construction of barracks and officers' quarters at the Naval Yard at Charleston, S. C.

General Elliott urges the necessity for the immediate construction of proper barracks at the Naval Station, Cavite, P. I., to facilitate contentment and especially necessary for sanitary reasons. General Elliott says that all the public buildings of the Marine Corps are antiquated and recently constructed, can be replaced by new buildings at a cost of not more than \$1,500,000. General Elliott says he appreciates the justice of the recommendation made by the Secretary of the Navy last year, that the Commandant of the Marine Corps be given the rank of Major-General.

The report says that under the present methods and rate of recruiting, it is believed that the Marine Corps will be recruited to its full strength before the end of the present calendar year. General Elliott states that as soon as the condition of the corps will permit it is the intention to increase the present complement in the Philippines to a total of 1800 men, which is the number recommended by the general board of the navy and approved by the Department. There are 38 officers and 1200 enlisted men now in the islands.

MOODY FOR SUPREME BENCH

Roosevelt Will Appoint Him Despite Sectional Objection.

WASHINGTON, Oct. 24.—While no official statement is obtainable, unofficial advice confirm the report that the President will appoint the Attorney-General William H. Moody, of Massachusetts, to the vacancy in the Supreme Bench, made by the retirement of Associate Justice Henry B. Brown.

The announced intention of the President to appoint Mr. Moody came as a surprise, as it was generally understood that he intended to appoint a man of broad consideration from that connection because of the fact mainly that Massachusetts already had a representative on the bench in the person of Associate Justice Holmes.

Mr. Moody's nomination will be sent to the Senate when Congress convenes, but the general expectation is that he will not take his seat on the bench until about January 1, when, as previously announced, he expects to retire from the Attorney-Generalship.

Schiff Gratified at Choice of Straus for Cabinet.

NEW YORK, Oct. 24.—"President Roosevelt's proposed appointment of Mr. Straus to a place in his Cabinet is most gratifying," said Jacob H. Schiff today. It is a singular and very agreeable coincidence that the appointment comes almost simultaneously with that of the appointment of General Piquary, who championed Dreyfus, to the portfolio of war in the new French Cabinet.

"I take it that Mr. Straus' appointment is not only a well-deserved compliment to the man and his qualifications, but at the same time a desire on the part of the President to recognize the good citizenship of the Jew of the United States."
