Mr. Hiland sought to show that Mr. Shields was not favored above other shippers, but admitted that it was the polky of the road to consult and notify by wire large shippers of all raw material of changes in rates, though he thought the smaller shippers got the information about as quickly through the newspapers. Mr. Hiland testified that the change from leasing the Kanzas City elevator to the Simonds-Shields Grain Company, when they allowed the company by cents per 108 for handling grain, to employing Shields as manager was made at the instigation of the law department of the rate, which thought they would be more read, which thought they would be more read, which thought they would be more stigation of the law department of the road, which thought they would be more meanly conforming to the law, and that now the Simonos-Shields Grain Company ships (\$100 ftm 5 to 50 per cent of all grain going through the elevator.
