wheats has been conducted at the state ex-perimental station at the Washington State College at Pullman by Professor Elliott and Mr. Lawrence, with analitying results, says the East Gregorian. The series has myered several years of work. By the crossing of two varieties of wheat, a new variety has been produced which it is be-lieved in very well adapted to this country, states one report. It yielded 60 hushals per acre and stood up nicely, very little of

carefully sorting the varieties of wheat, and selecting for planting in a given plot, only a few of the best grains of a variety of pure winter which. The results of these last experiments have been very matisfactory

sent to farmers in various localities all the way from the British line to southern Idaho. Similar work has almost revolution-ized wheat raising in other states, and it is hoped that the efforts of the experiment

Bank Clearings.

Only a Few Stocks Attract Attention.

CLOSING TONE IS

Steel Trust Directors Expected to Act on the Quarterly Dividend Today-Reading in the Hands of a Pool.

NEW YORK, Oct. 29.—The active interest i icday's stock market was of the slender-stock outside of special movements in a hand-il of stocks. These special movements over in the way of accumplations and the suilling advances in the stocks concerned crived to hold the general list in sym-athy.

resulting advances in the stocks concerned served to hold the general list in sympathy.

The United States Steel directors are expected to act on the quarterly dividend tomorrow, and the Pennsylvania directors meet on Thursday. There were some heavy transactions in United States Steel early in the day, and assertions were made that the stock would be placed on a 4 percent dividend basis tomorrow. The price moved up in response and carried with it Chesapeake & Ohio. Reading was the mest complications stock in the day's movement, and its fluctuations were attributed to activity by a pool credited with the marker control of the stock.

There were no notable changes in the conditions which operated last week to restrain speculative activity. Large attention still centers in the struggle of the Bank of England to recuperate its forces. The fact that the \$5,000,000 of newly arrived South African gold went almost wholly into the bank at a decline in the price paid was accepted as a helpful factor. But special domestic requirements are to be met by the London money market this week, which are expected to make a drain of an amount to fully offset this gain.

The call money market was quiet, but the tens of time loans was reported again to be strong, especially for the 90-day period, carrying over the end of the year. Foreign exchange was weak.

Railroad traffic officials reported increasing difficulty in the growing shortage of cars and unchecked accumunitation of freight. The rise in Pennsylvania, which was the last to occur, was taken advantage of to sell other stocks, so that the gains were nearly all wiped suit, except that in Pennsylvania tiself. The closing tone was easy. Bonds were irregular. Total sales, par value, \$1,140,000. United States bonds were unchanced on call.

SAN FRANCISCO, Out. 20.—Silver bars, 70%;; Mexican dollars, 54%;. Drafts, sight, .07%; telegraph, 10. Sterling on London, 60 days, \$4.51%; sight, \$4.86%. Prices at Chicago Gain Late in the Day on the Foreign News. LONDON, Oct. 29.—The Bank of England today replenished its reserve by purchasing \$4,250,000 in gold out of \$5,000,000 available in the market. Receipts at Minneapolis Are Light.

CHICAGO, Oct. 28.—Unfavorable prospects for the seeding of wheat in Southern Russia, was the chief reason for a strong close today in the local wheat market. The builtish news from Russia came during the last hour of trading. The market opened firm as a result of small receipts in the Northwest, especially at Minneapolis, where arrivals today were only 304 chrs. against 605 cars one year ago. Wet weather in Minnesota and the Dakotas also aided in causing a moderate demand at the opening. Sentiment, however, soon became bearish, and after the first hour trading dragged and the market continued easy until the news from Russia was received. December wheat opened 4 to 14 % to higher at 73% 6 734, sold off to 73% and then advanced to 73% 674c. The close was strong. December closed \$5 to \$5 thigher, at 73% c.

Small local receipts, wet weather and the strength of wheat caused buillish sentiment in the corn market closed sendy. December opened a shade to 14 % to higher at 35% to 43 %c, sold off to 33 to and closed \$10 to 10 Sales and Prices Bid and Asked on the CHICAGO, Oct. 29.-Unfavorable pro Sales on the Stock Exchange yesterday were 2000 shares Tacoma Steel and 1000 shares International Coal.
