Views of Portland Democrats on Defeat of Hearst in New York.

Some Regret Hearst's Waterloo; Others Are Glad, While All Agree Nebraskan's Political Skies Are Made Brighter.

That the defeat of William Randolph That the defeat of William Randolph Hearst for Governor of New York makes William J. Bryan the undisputed candidate of his party for President in 1808 and does not materially affect the Democratic partyas a whole, one way or the other, appears to be the prevailing opinion among Portland Democrats. Of course, there are exceptions. Some believe that his defeat was almost a calamity; others that it was a rare visitation of good fortune, but the sober majority, while in the greater thus the sober majority is designe thus the sober majority. These a rare visitation of good fortune, but the sober majority, while in the greater number rather regretting it, declare that the passing of the editor need not seri-ously concern the destiny of the National

Democracy,
Nearly all agree that the political skies of the Nebraskan are clearer today, by far, than they were at noon yesterday, although such is the faith of some, that they have seen nothing in it but Mr. Bryan from the very start. Many come together on the proposition that the greatest benefit that can come from the squeiching of Mr. Hearst is his removal from Bryan's path thereby unactically squelching of Mr. Hearst is his removal from Bryan's path, thereby practically assuring him an undisputed right of way to the Presidential nomination two years bence. A canvass of well-known Demerats resulted in but one sacrilege against the big Nebraskan. That came from W. G. McPherson, who asserts that Mr. Bryan is neither the prophet nor the Moseg of the Democratic party and that the passing of Mr. Hearst cuts no swath on one side or the other, because there is no love lost betwixt Hearst and there is no love lost betwixt Hearst and

to see what the faithful think of Just to see what the faithful think of the fateful events of Tuesday and whether the undoing of Mr. Hearst means the concomitant passing of the whole party, inquiry was made last night of numerous recognized Democrats with the result summarized. To the question whether the defeat of Hearst was a good or a bad thing for the party; what the effect would be in general and how Bryan would fare by the result, some 25 Democrats answered as follows:

Say Party Is Not Affected.

Senator Gearin-My impression is that defeat of Hearst will have the effect making Bryan the logical candidate President in 1905. It removes the robability of Hearst being a candidate nd makes Bryan's candidacy almost cer-sin. It will not affect the Democratic party any, for it will go on as before and Mayor Lane-His defeat will have no ef-

District Attorney Manning—It won't change the situation with the party a particle. The defeat of Hearst was the defeat of an individual and not the party. It opens the way for Bryan, who will be the next President, without a doubt, General Killfeather—Since Larry Sullvan has joined the Democrats, there's only one thing for me to do and that's join the Republicans, and so I don't care join the Republicans, and so I don't care

Judge Thomas O'Day-I can't say it was either good or had. The fact is that those ideas Hearst represented, ought to have won. But for the reason that he came so near winning and the fact that those who did win admit that Hearst's ideas are right and ought to have won, makes it a Democratic victory. The New York election won't affect Bryan. He is, and all along has been, the party's candi-date and he will be elected. Deputy District Attorney Hansy-I don't

Deputy District Attorney Hancy—I don't think it will affect the party in the least. Hearst will support the radical wing of the party. Hearst's Ideas Would Sweep Country

Richard W. Montague-The effect on the Democratic party on the whole will be beneficial. The ideas Hearst pro-mulgated, if enforced by men like Bry-an and Folk, in whose sincerity every-body has confidence, would sweep the country. Hearst's manly offer of his services in the ranks ought to take away the ating of defeat from his most devoted followers.

John Van Zante-It won't hurt the party. . It means Bryan for Presiden in 1998. It will cement the splits in the party. Thomas Guinean-I look upon it as a misfortune. It has a disheartening effect on all progressive Democrats. To those who want to regulate and control the trusts, it's a damp sponge. As far as Bryan is concerned, the defeat of Hearst will destroy the confidence of the people in their ability to fight or ganized capital successfully, and make Bryan's fight the harder.

Francis Clarno-I think it's the best thing for the party under existing conditions. The defeat of those who,

in their determination to fight the trusts open-handed, made the fight they did, will increase their determina-tion to follow that line of battle. It will aid Bryan in his fight against organized wealth.

Attorney for Defense Says There Will Be No Appeal and Judge Will Soon Impose the Death Penalty.

VERDICT IN HOSE CASE. "We, the jury, in the above entitled cause find the defendant gullty as charged, (Signed) L. W. Watts, fore-man: C. F. Ruegg, J. H. Parker, A. Dilley, R. R. Carison, Joseph Bauer,

. H. Schram, John Hinterman, Fred

Macfariane, Al. Salmon, E. F. Molden-hauer and Louis Ebeling." The above verdict, returned yester-day afternoon in the case of Henry Hose, charged with the murder of Madge Wilson, alias Madge Doyle, on the morning of October 19, leaves than to inflict the death penalty.

After being out less than half an hour altogether, the jury in the case of Henry Hose, accused of the murder of Madge Wilson, alias Madge Doyle, returned a verdict at 4:53 yesterday afternoon, find-ing the defendant guilty of murder in the first degree. There was no recommenda-tion for mercy, hence Judge Gantenbeln before whom the defendant was tried, will have to affix the death penalty. Walde-

mar Seton, who defended Hose, declared last night that he thought there would be no appeal, and, if such proves to be the case, the murderer will explate his terrible crime on the gallows in almost record time, as he appears indifferent to his fate, and has neither money nor friends to prosecute his further defense. The defendant took the stand in his own behalf yesterday morning, and practically corroborated what he had already outlined in his confession to the District Atterney soon after the commission of the deed. He make no attempt whatever to justify his act, and, in fact, there was no apparent room for any excuse save the narrow loophele of jealousy. It was evident that his counsel had instructed him to make a clean breast of the whole thing on the witness stend. on the witness stand, and then trust to the lawyer's appeal to the sympathy of the jury to save his neck. There was no possible chance for him to escape pun-ishment, and his defense resolved itself into a desperate legal battle for life. That was his only hope, and upon this phase of the situation his attorney had staked all. It was a shrewd move, in a way, idering the utter hopelessness of the case, because there was the faintent glim-mer of a chance that some soft heart among the 12 men in the jury box might be touched by the cloquent argun sel and vote not to inflict the death

That the deductions of the lawyer were almost correct is evident from the fact that after being out about 15 minutes the jurymen filed into court for further inetructions. They wanted to know from Judge Gantenbein the exact definition of "premeditation," and how long it would have to be shown that malice existed in order to constitute premeditation. They were instructed that, under a decision of the Supreme Court, the expression could be classed under any reasonable length of time, and the body thereupon returned to their room and agreed quickly upon a

"I don't give a d— what becomes of ne," declared the murderer, as he was being led to his cell after the case had gone to the jury and District Attorney Manning had finished his scathing ar-raignment of the accused in his address to the jury. Hose received the verdict with complete indifference, and had nothing to say when led downstairs by Sheriff Stevens, Under-Sheriff Proebstel and Deputies Beatty and Bulger. Last night he fell asleep in his cell with a cigarette in his mouth as if the cares of existence were of minor importance.

NEW SERVICE INTO YOSEMITE

Southern Pacific Will Begin Operation of Trains March 1.

Commencing March 1, the Southern Pacific will operate its new service to the Yosemite Valley in connection with the Yosemite Valley Rallroad Company. The So-mile stage ride will be done away with. The new railway, which is just being completed, will extend from Merced Falls to the boundary of the Yosemite National Park, 12 miles from the center of the val-ley. Fifteen hundred men are now at work on this railroad, and the last rail

will be laid by February 15.
The Yosemite Valley Railroad is a standard-gauge, modern road of 70-pound steel rails, steel bridges, and will be rockballasted and dustless. The new railway not only makes the valley accessible, but will open up a rich mining and lumber region. The length of the road is 80 miles. From the boundary of the park, visitors will be conveyed to the hotela by automobiles or stages over a turnpike
