OREGON SITE AT SEATTLE FAIR.—Pre-liminary action tooking to a suitable Ore-gon exhibit and building at the coming Alaska-Yukon-Pacific Exposition at Scal-tle was taken, yesterday forenoon, by the provisional commission appointed by Gov-ernor Chamberlain. The commission is ernor Chamberiain. The commission is made up of E. W. Rowe, M. D. Wisdom and H. E. Reed of Portland, J. O. Booth of Grant's Pass and W. H. Wehrung of Hillsboro. Organization was effected with Mr. Wehrung as president. Mr. Rowe, vice-president and Mr. Wisdom secretary. It was decided to visit Seattle for the purpose of selecting an Oregon building site. While there are, no funds available for While there are no funds available for exhibit purposes at this time yet it is intended to secure one of the choice sites and depend upon the next Legislature to put up the necessary money. It will be argued that Washington participated on a large scale at the Portland exposition and that Oregon cannot afford to overlook a big showing in return. Details of the exhibit were not discussed. After deciding to journey to Seattle November 21 for the purpose of selecting the building of the adjournment was taken. ing site, adjournment was taken.

INTERSECTIONS ARE UNBAFR.—The Intersections of Grand avenue and East Mor-rison street and East Morrison and East First are pronounced unsafe by the street committee of the Business Man's Club. The committee says that the intersection at Grand avenue and East Morrison street in the evening is throughd with copie crossing and recrossing in front of he many cars which swing around this corner. Besides there is some building material on the south side of East Morrison street. It is suggested that a police man might be useful during the busy hours at this intersection in assisting women and children to avoid the street cars. At the crossing Dass First and Morrison streets the committee insists that a lagman chould be stationed to watch uthern Pacific trains and of the warning bell is not commidered suf-ncient protection to the public.

Connoisseurs Understand That There Is Nothing Better

ONE OF THE REASONS

A Chinese Foot Distorter

We abuse the Chinese for compressing the feet of their girl children, while we are guilty of an even greater absurdity. They lame only those who are forbidden by the custom of their country to walk, while we do all we can to cramp the feet of our pedestrians, soldiers, business men.

With us women have the best of it, for men's boots, being stronger, are less liable to distortion, and their feet more so.

The Gotzian Shoe is made to protect, not distort the foot. It is no broader than other fashionable shoes. But the pointing of the toe is effected entirely from the outer side, leaving the inner edge of the sole practically straight.

In this way we secure a foot form shoe which is anatomically correct and comfortable, and at the same time the most stylish.

Most first-class dealers handle Gotzian Shoes and will gladly prove this argument by fitting you with a pair.

An interesting and instructive booklet, "How Shoes Are Made." sent free on request. Also shows latest fall styles. #
