Paroled Convict Takes Vile Advantage of Liberty and Governor Hanley Condemns Him-His Victim Heart-Broken.

INDIANAPOLIS, Ind., Nov. 9 .- (Spe-INDIANAPOLIS, Ind., Nov. 2.—(Special.)—William E. Hinshaw, wife-murderer and home-wrecker, who II years ago was sentenced to the penitentiary for the murder of his wife, and two years ago released on parole by Governor Durbin for good behavior, will again be placed behind the bars of the Michigan City Penitentiary. This is the decision after a hearing held this afternoon before Governor Hanley, when Hinshaw, a former minister, conwhen Hinshaw, a former minister, con-fessed having had improper relations with Mrs. Freeman, of Wabash, and thus breaking up a peaceful, prosper-ous and happy home:

The Governor this afternoon revoked the parole and telegraphed to Warden Reid, of the Michigan City Peniten-tiary, to come to Indianapolis tomor-row and take the prisoner back. His decision came with unexpected suddenness, after Hinshaw's complete con-fession and after the speeches of the attorneys. He turned to Hinshaw and told him he was not a fit man to re-main outside the prison burs.

Prison Best Place for Him.

"Sorry as I feel for you personally," taid the Governor, "I am convinced that orison is the best place for you. Therefore I revoke the parole granted you." Hinshaw refused to discuss the mat-ter after the Governor's decision, Hagheavy-eyed and trembling, he responded to request for a statement: "I have nothing to say; nothing at all."

Mr. Freeman was reticent and was heard to express his feelings but once during the hearing, when, after the Governor's address to the prisoner, he sxclaimed: "That's right" Mrs. Freeman, in an interview at Wabash today, heartbroken, hysterical

PITTSBURG, Nov. 9 .- Indictments were returned by the Federal grand jury in this city today against J. Jay Dunn, Charles T. Close and Frank T. Emmett, officials and employes of the them with conspiracy to defraud the Government in connection with the boiler tubes furnished for a number of battleships

There are 30 specific counts against the men, and it is alleged the conspir-acy was in operation over a period from 1892 to January 1, 1905. The indictments further assert that the de-fective tubes were placed in boilers that were used on 12 war vessels. among them being the Louisiana, upon which President Roosevelt is now making his trip to Panama. The other vessels named in the Indictment as having the defective tubes are the Maine, Pennsylvania, Georgia, Colorado, Vermont, Maryland, Tennessee, Washington, Minnesota, Nebraska, and Minnesota, Nebraska, and

The indications are the outcome of an investigation started a month or more ago upon information furnished by Emmett. Immediately after the return of the grand jury was made, Judge Ewing issued bench warrants for the three men and they will be arrested tomorrow.

RAILWAY MILEAGE PLANS

Twenty-Five Thousand Miles of New Track Promised.

Review of Reviews. The aggregate railway mileage under contract for construction or in ate prospect in the United States and Canada is over 22,000 miles. The aggregate of cash to be used in this construc tion and in the great projects of the American trunk line railways is over \$750,000,000. If the entire gold production of the world in the two greatest gold years of history were applied to this construction it would fall far short of meeting it.

In the early part of the year the Railway Age compiled the rallway projects at that time under contract or under construction in the United States. This compliation showed an aggregate of over 12,600 miles, located as follows:

New England States.
Middle States
South Atlantic States.
Gulf and Mississippi Valley States.
Central Northern States.
Northwestern States
Southwestern States
Pacific States

.13.614 In Canada the total mileage projected is the heaviest in the history of that Taking the East with the West, four great companies contemplate the construction of over 9000 miles of rallway.

In addition, there have come to light Since this compliation was made Ameri-can projects that will probably bring the total to well over 25,000 miles of

standard-gauge railway.

Inevitably a considerable proportion of this mileage will never be constructed. A great many companies entirely dis-appear, are bought off, or fall through various causes to complete the tasks they have undertaken. Yet, even with this deduction, it would appear that there are live and legitimate railway projects on this continent today that call for the creation of well over 22,000 miles of track. In the light of this fact, the years 1906 and 1907 are practically to go down into history as one of the most striking periods in the railway history of the Western
