Eastern Brewers Will Not Buy Oregon Hops.

### NOVEMBER AND NO ORDERS

Consumers May Be Getting Their Revenge on Grewers of This State Because of Local Option Movement.

BUTTER-Weaker on Front street.

hops? That is what the hop trade here would like to know. Orders have been coming in from the East so sparingly since the senson opened that it begins to look as if some concerted action has been taken by the brewers to put Oregon hops on the black list. The feeling of brewers all over the country in regard to the local option movement in Oregon has been clearly shown in letters that hop dealers have received, and it is believed by some of the latter that a secret understanding has been reached by the big consumers to gon, At any rate, orders are not coming here from the East as fast as they should at this senson of the year.

The poor deliveries, due to the car shortage, is blamed for a part of the inactivity and the heavy contracting before turvest is glso responsible, in a degree, for the lack of found, however, for the unusual spectacle of an almost lifeless hop market in November conclusion is reached, therefore, by some of the hop authorities that a boycott has been declared and that Oregon hop-growers will be made to sufter for allowing local option to get a foothold in this state.

Buyers were almost out of the market yes terday, but plenty of growers were in evidence. The pressure to sell was more acute, particularly in the Aurora section. A few sales took place there during the day at 12 to 14 cents. Among the Aurora transactions of the past few days were the following lots: Chris Gelsy, 60 bales to Lachmund & Pincus at 14 cents; C. W. Crothers, 57 bales at 14 cents; 12. A. Montander, 26 bales at 13 cents; C. Bosche, 20 bales at 15 cents.

Rinber, Wolf & Netter bought a few export lots at 15 cents. The E. Clemens Horst Company was reported to be entirely out of the market. John Carmichael on Saturday bought 148 bales from George W. Yergan, of Aurora. The price is not learned.

## WHEAT ARRIVALS ARE VERY SMALL Mills Alone Seem to Be Able to Get Freight

There is no improvement yet in the car situation and consequently no improvement in the wheat market. A few cars are coming in sto the mills, enough to keep the plants running. If the mills were idle the China steamers would have to go out without cargoos, and therefore this branch of the business is receiving some attention from the railroad people. But the wheat exporters and other railroad people. But the wheat exporters are secondary to the proper secondary to the people secondary to the proper secondary to the people secondary to th other grain dealers are seriously handicupped by the car shortage. Prices quoted are more than they would be if the wheat merchant

Trading in other cereals is also restricted for the same reason. Cats and barley are firm, as local stocks have become light. Hay is also in small supply and firm. The Govenument contract for outs went to Scattle and the hay contract to San Francisco; therefore the filling of them will have no effect on this

Stock Liquidation Due to Calling of Loans.

CLOSE AT THE

Wall Street Is Disturbed by Refusal of Treasury Department to Come to the Aid of Speculators.

NEW YORK, Nov. 12 .- The money eltuation determined abstention from operations in the market, which was a feature of last week gave place to some liquidation. The demand continued as torpid as last week. The selling was effected only at concessions which work substantial in stocks where previous specula-tion had been active. The compelling influence tion had been active. The compelling influence in the seiling was the calling of loans necessitated by the deficit in the legal reserves of the banks chown by the Saturday bank statement. No source of replenishment of cash is available yet and a reduction of deposits by scaling down of outstanding credits is the alternative. Holders of securities thus called upon for repayment seemed reluctant to part with their holdings and their afforts to secure fresh accommedations ran the money rate up fresh accommodations ran the money rate up to 20 per cent early in the day. The local banks were said to be out of the money market entirely and funds were available only from the trust companies and out-of-town lenders. the trist companies and out-of-town lenders. The large excess over the estimate of the loss of cash by the banks disclosed by the bank statement may be due to the withdrawal of cash by the trust companies. These institutions are under legal requirement to maintain 4 per cent of their deposits in actual cash in their vaults. It is believed that the bank loan contraction of over \$35,000,000 in the last three weeks has been taken over largely by the trust companies. This would necessitate an increase of reserves in their cash in situte an increase of reserves in their cash in

the proportion of 4 per cent instead of in the proportion of 25 per cent as in the case of the clearing house institutions.

The stringency in the money situation was aggravated by the unaturity of an installment of about half the subscriptions at par to \$25,000,000 of St. Paul stock, which, there fore, called for provision of about \$12,000.

by the explicit assertion of the Secretary of the Treasury that he would take no measure of relief for the money market in the present market. The republican of the announcement today was after confident assertions were in circulation in Wall street that early steps would be taken to replenish the money market in spite of the disclaimers of the treasury au-

Opinion is not united in financial circles as to the fensibility of treasury measures to give effective relief at the present time. It is recognized as out of the question to bring about easy consistions in Wall street except by carrying foreign markets with this to a lower basis. Any market relaxation in rates here will lead certainly to an outgoing of gold to assist the struggle of the Lendon money market

amilet the struggle of the London money market to adjust itself to the heavy coming requirement of the year-end settlements.

The stock market settlement began in London today and carry-over rates were again stiff, a rate of 9 per cent being reported at one time. The rates for sterling exchange had declined nevertheless under the influence of the stringent money market and free offerings of cotton bills. Discounts hardened in London and Berlin, but the Bank of England secured a large consignment of South African cured a large consignment of South African

gold newly arrived in London.

The reports of the presecution in preparation against the Standard Oil Company, of an intended investigation of the Harriman Railroad combinations by the Interstate Commerce Com-mission and of rumored recommendations in the coming message of the President, were ltems in the day's discussion and had some influence in the depression. The considerable part played by short buying was indicated by recovery the latter part of the day, due to covering of short contracts. The closing was firm at the recovery.

Bonds were easy. Total sales, par value, \$2,188,000. United States fonds were unchanged

Much Selling Pressure in the Chicago Pit.

LARGE CROP SPRING GRAIN

Liquidation by Commission Houses Close Is Quarter Cent Lower. Corn. Oats and Provisions Are Also Weaker.

CHICAGO, Nov. 12 .- During the early trading in the wheat pit the tone was mod-firm because of a fair demand by comm houses. This selling was largely the of firm cables and continued small receipts in the Northwest. Later, however, the mar-ket gradually eased off. Local holders were free seliens of the December delivery and com-mission houses sold May option. Much of this Northwest declaring that this year's crop of Spring wheat will prove very large. Selling by commission houses that have Northwestern connections seems to confirm this impression. supply had some hearish influence, although the increase for the corresponding time last year amounted to 1,826,000 bushels. The

year amounted to 1,826,000 bushele. The murket closed casy, December opened the higher at 73c, sold off to 72% and closed to 14c to 14c lower at 72%,672%.

The Government report was chiefly responsible for the moderate weakness that prevailed today in the corn pit. December closed the lower at 42c.

The oats market was weak for the greater part of the day. December closed the day of part of the day. December closed %c lower

at 34%c.

Trading in provisions was active and the tone of the market was weak. Receipts of live hogs today were 5060 more than had been expected and this led to considerable selling by local longs, who bought Saturday in expectation of light receipts. There was also moderate selling of January lard by local packers. The demand came chieft from shorts. At the close January pork was off 74600c at \$1.05; lard was down 746010c at \$5.37% and ribs were be lower at \$7.56.

DUMONT FLIES AT PARIS Skims Along Just Above Heads of

PARIS, Nov. 12.-Santos-Dumont made another series of experiments with his perfected aeroplane in the Bois de Boulogue today. At one time he skimmed along at a height of 15 feet and at 30 miles an hour for 215 meters, when fear that his steering propeller would strike the cheering people forced him to descend. The right wing of his machine was slight-

Cheering Crowds.

ly damaged. Some aeronauts present declared the aeroplane would soon fly for miles. The next trial will take place at the Longfrom which the

The principal change in the acroplane today was that the side rudder reins were attached to the shoulders of M. Santos-Dumont, who operated them with move-ments of the body. He was thus completely successful in preventing the rolling motion of the machine
