PROGRESS ON SEWER TUNNEL.

Progress is being made on the sewer tunnel for the Brooklyn sewer on Target street. At East Tenth street about 200 feet has been excavated and cribbed up with heavy timbers to prevent caving. Here the material is cement gravel mostly. At the river end about the same progress is being made. In the middle a shaft is being sunk from the surface down to a level with the tunnel and excavations will start both ways from this point. An engine has been placed here under a temporary shed to operate the buckets and lift out the dirt and gravel. It is about 60 feet at this point down to the tunnel level. When this shaft is completed work on the tunnel will proceed from four points, which ought to insure good progress. No work is going forward at any other place on this sewer system. The three inspectors have not yet been appointed, as there is yet nothing for them to do and will not be until brick and stone work is begun.

WAS THROWN OFF TRAIN.

W. P. Edgington Sues Union Pacific for \$20,500 Damages. W. P. Edgington, yesterday in the United States District Court, filed suit against the Union Pacific Railway for a damages amounting to \$20,500. In his complaint, Edgington alleges that on November 22, 1906, at Cheyenne, Wyo., while he was on his way to Portland with his family, he left the train for the purpose of buying a luncheon. While he was in the eating house he alleged, he heard a train pulling out and believing that it was the train on which he was traveling, he ran after it and managed to catch the last car. The Pullman conductor came along shortly after he had climbed on and when Edgington asked him if it was the right train he became abusive and refused to look at the five tickets Edgington had for himself and family. Finally the conductor, Edgington says, threw him from the train and he fell on a heap of scrap iron and was rendered unconscious. He was picked up some time later and taken to Cheyenne and given medical treatment.

COL. GANTENBEIN RESIGNS.

Charles E. McDonnell Probably Will Succeed Him as Colonel of O. N. G. C. U. Gantenbein, Judge of the Circuit Court, tendered his resignation yesterday as Colonel of the Third Oregon Infantry in the Philippines. He was accepted immediately. The resignation was sent in to the Adjutant-General two months ago, but was subsequently withdrawn at the request of the Cuban trouble, as there seemed some possibility of active service. The naming of his successor is arousing considerable interest in guard circles at this time. Major Charles E. McDonnell, in command of the second battalion, seemingly is slated for the place. Major McDonnell commanded a company during the Philippine campaign and is one of the most popular officers in the guard. His selection will probably not be made at once, however, as Lieutenant Colonel John Poorman, of Woodburn, is talked of as Colonel Gantenbein's immediate successor. Since he will retire from service about the first of the year, there will be a vacancy. Major John L. May, commanding the first battalion, is slated for the place of second in command, upon Colonel Poorman's retirement.

NOLAN MAKES STATEMENT.

Denies That He Was in Need When Recommended by Moody. Mr. Nolan, Register of The Dalles Land Office, who is at the Perkins Hotel, yesterday made the following statement in response to that of Malcolm A. Moody in yesterday's Oregonian: "It appears ridiculous that it is necessary to deny the statement of Mr. M. A. Moody that I was in need when he indorsed me for Register. I was conducting a business that involved at least \$200,000. I had \$100,000 in the First National Bank of The Dalles, Or., on the day I took office \$175,000, and had considerable money loaned out on good notes. I had accepted immediately \$125,000 at 8 per cent, secured by mortgage on improved property in The Dalles, Or. I also had over 50 building lots in The Dalles, six of which I have sold for \$1500. Part of my business was the agency of The Oregonian, which I held for over 20 years, and I do not recollect of being out of money. I am not indebted to the proprietors or the patrons. The income from this source would support an ordinary family in comfort. These are all facts susceptible of easy demonstration and the other allegations in your Dalles correspondence could be refuted by facts as strong, but not so indubitable. "Such a reputation as my 20 years' record has brought was not made by blowing my own horn or disparaging the merits of others, and I am too old to change my course now. "I have taken the opportunity to examine the copy of my letter to the President asking to be relieved of my office in it that can be construed into a charge against my associate. Her name is not mentioned and she is referred to only once by her name, and that incidentally. Mr. Moody is referred to by name and not favorably. As his chief purport reason for indorsing me did not exist, I trust he will be influenced with the land department, which I know is considerable, to rectify his mistake and have me relieved."

At Baker This Week.

There have been many disastrous results of over-indulgence, but probably no "greener" ever brought about as many funny situations as that of Dick Swift in "Lost 24 Hours." Big Week at Pantages.

Two headline acts and half a dozen exceptionally good turns make the Pantages programme this week one that is worth braving the rains to see. To the Dancin' DeVoy trio goes first place, and their dancing is a real treat. The other two vaudeville hits, Cherokee Blanche and Silverette, the crack marksmen, however, are the stars of the week. The latter is a new act and the most skillful ever shown is the feat of Silverette in shooting the buttons of the Indian soldiers' clothing. The Feeley Brothers have an acrobatic turn of which too much cannot be said. It is one of the most original and novel things that have ever been seen in this city. Car Hits Buggy; Driver Hurt.

James May, a Montavilla horse dealer, while driving yesterday afternoon, collided with a streetcar at Sixth and Gilliam streets. The accident resulted in May's right thumb being so badly wrenched and broken that it had to be amputated at the joint at St. Joseph's Samaritan Hospital. May was leading one horse behind the buggy, and driving the other, when a streetcar approached from the rear. The horse was frightened at the car, and in their fright pulled the buggy directly in front of the car. It struck the buggy, tearing the top from it, and the horse started to run away. They pulled so hard on the lines that May's thumb was wrenched and broken that it had to be amputated at the joint at St. Joseph's Samaritan Hospital.
