The greatest interest in the dried fruit market, now that the prune season is about closed, centers in dried apples. This comnodity has come to the front with a sharp demand and at the rate prices are advancug, it looks as if the steep values of a opple output of Oregon has not come up o the expectations formed early in the vanon. The apple crop was large and of the finest quality, but for some reason, rehably because of the high prices realfied n fresh fruit last year, the quantity cured

Buyers have, therefore, been compelled to look to California for a part of their supply. That market in the past week has moved up sharply, the advance ranging from 1 to 1½ cents. In the opinion of the trade, everything points to further advances there. Rumors are current of a corner because of the control of the contro there. Rumors are current of a corner being worked in the California apple market.

market yesterday was the purchase of a single lot of export hops by Klaher. Wolf & Netter. Clem Horst was said to be again out of the market. According to a report current, his purchases from Sunday until Wednesday night amounted to 3000 bales. He is said to have cleaned out all the saleable hops in the Ballston section. The prices paid by his buyers during the The prices paid by his buyers during the early part of the week ranged from 14 ents downwards. The operations of the J. W. Seavey Hop Company during the past week amounted to 500 hales secured at ed, Eugene and from Portland dealers at 13 and 14 cents.

The Eastern market is also stiff, with a strong domestic and export demant. Bried apples are one of the leading staples and about the lowest in the list, as compared with other cured fruits. If the shortage throughout the country proves as great as reported and manipulators also take hold, there is no telling where prices may go to.

WIDER DIFFERENTIAL IN SUGAR.

Beet Is Now Quoted 25 Cents Under Cane—
P. C. Is Belisted.

The Western Sugar Refining Company pestering put its P. C. brand of cane sugar on the market sgain. The list price is 20 cents under standard dry granulated and fault sugars. At the same time the differential between cane and beet sugar was widened, the latter new being quoted 25 cents under dry granulated.

TURPENTINE—Cases, 18c per gallon.
COAL OIL—Cases, 18c per gallon.
COAL OIL—Cas Olls.

Hops, Wool, Hides, Etc.

This increared differential is made to enable it to move its heavy crop of California beet sugar. The reliating of P. C. wagar was probably done to accommedate the jobbers, who seamt more brands.

Chicken Market Closes Weaker.

The railroad washouts yesterday prevented the poultry dealers from finding an outside market, for the surphus chickens received. The local demand was slow and although receipts were not heavy, the market was very weak.

The searcity of ranch eggs it becoming more pronounced and the market has an upward tendency.

City creameries are cleaning up their daily make of butter without much trouble, but outside brands continue to arrive rather more freely than the demand warrants.

Potato Buyers dot of the Market.

Potato buyers are practically out of the market, as owing to the lack of cars, they cannot make shipments to California. The docks were full of stock yesterday and most of the dealers were moving their supplies out of reach of the rising water. In the absence of business, prices were nominal.

Few Sales of Woodburn Hops.

WOODBURN; Nov. 15.—(Special.)—Little is doing in hops here at present, only a few sales of strictly prime around 15 cents being made in the past 10 days. Dealers are holding off, the growers think, because there is a scarcity of cars and it might pay them not to buy too much until there is an opportun-ity to ship. There is little doubt that nearly all holders of primes will cheerfully unload at 14 cents. The bolders of choler seem to be in no burry to sell. The rumor of a boycott of Oregon hope is not taken seriously here
