Borah Impeaches Testimony of Government Witnesses.

RUICK READS TESTIMONY

Judge Beatty Insists on Finishing Up the Trial of Robnett and Holds a Night Session of Court.

MOSCOW, Idahe, Nov. 19 .- (Special.) Argument in the Robnett subornation of perjury case consumed the entire day in the Federal Court and extended into the session tonight. District Attorney Ruick consumed 24 hours in his opening state-ment. Forney, for the defense, spoke 15 hours, Borah followed for 1½ hours and then Ruick closed for the Government. Ruick's address consumed what was left of the afternoon session and extended into the night session for fully an hour. The court's charge followed and the case

was turned over to the jury.

The impression seems to be that Rob-nett will not be convicted. It is said, that the District Attorney declared that if the jury disagree, as he seems to ex-pect, he will immediately proceed with a retrial of the case. On the other hand, retrial of the case. On the other hand, if an acquittal results the prosecution are not disposed to say what line of procedure will be followed. That the Robnett case is considered the strongest of the several cases is not denied, but even this one resis upon the testimony of self-confessed perjurers, whose offense has outrun the statute of limitations, whom the defense claim were promised immunity over a year ago if they would furnish the right kind of testimony.

In his argument to the jury today

the right kind of testimeny.

In his argument to the jury today Berah made good use of the point involving the character of the testimony offered against the defendant. He said that in the whole list of witnesses there not a repentant soul. All had cofessed to being in the game for what there was in it. He had never heard of such a case having been brought into

When the Government asks a jury to take away the liberty of a citizen," said the plaintiff, "it must present such evi-dence as appeals to ones sense of jus-tice. It is the law of the land that when one is convicted of perjury he is forever barred as a witness from the temple of justice. While the witnesses against Hobnett have not been convicted they had confessed to the commission of perjury and stand in the same light morally.

They are not entitled to credence."

This part of Borah's address made a distinct impression on the jury.

When Borah had concluded, Judge Beattle said that he would let Attorney Ruick, for the Government, take half an hour and then adjourn to 7 o clock. Rulck largely consumed that time in reading from the testimony to show that the defense misconstrued witnesses' intent, thereby giving rise to alleged con-

MONTESANO WILL NOT OPPOSE THE PLAN.

Proposal to Petition the Legislature for Partition of Chehalis County Meets Instant Approval.

MONTESANO, Wash., Nov. 19.-(Special.)-If the threatened movement to dicial.)—If the threatened movement to divide Chehalis County, which has been
proposed by the people of Aberdeen and
Hoquiam after the failure to move the
county seat from Montesano to a site
between the two cities on Gray's Harbor
snould assume any definite shape, it will
not meet with the slightest opposition
from Montesano and the other towns in
the eastern part of the county.
Such a movement for county division
would be hailed as a certain solution of
the strained relations between the two

the strained relations between the two sections. In order to prevent this feeling of antagonism from breaking out into an open rupture, to the detriment of the commercial and industrial development of the entire county, the people of this portion would willingly join hands with the western end in a petition to the next Legislature for immediate division. The Board of Commissioners has just The Board of Commissioners has just contracted for plans and specifications for a new courthouse, to be built in this city at a cost of \$100,000, and the award for constructing this modern building will be made at the December meeting of the board. This expense, the western end of the county declares it will not be burdened with, and rather than submit to the action of the commissioners, will ask to be allowed to become a separate county. The people of Montesano and the towns in the custern end declare that the expense of building the proposed new courthouse here will be assumed entirely by that portion which shall remain to by that portion which shall remain to Chehalis County after the question of division has been settled, neither Aberdeen or Hoquiam being asked or expected to pay a dollar towards the erection deen or Hoquiam being asked or expected to pay a dollar towards the erection of the public building which would then become the property of Cheballs County. Another reason why the eastern end of the county would strongly favor county division is on purely political grounds. In the campaign just ended the cities of Aberdeen and Heyniam dominated the Republican convention and named such candidates as they pleased. Instead of sulking, the eastern end proved loyal and elected the entire Republican ticket.

HOW DR. WILLIAMS' PINK PILLS CURE RHEUMATISM.

Statement from One Who Was Cured of a Particularly Painful Form of This Disease. Of the many forms which rheumatism

takes, that which is popularly known as sciatic rheumatism probably tortures its victim more than any other. That Dr. Williams' Pink Pills have cured this stubborn as well as painful trouble is a fact proven by the following statement, and no sufferer who reads this can afford to let prejudice stand in the way of trying these blood-making pills.

Rheumatism is now generally recognized as a disease of the blood. Dr. Williams' Pink Pills make-actually make-pure blood. When the blood is pure there can be no rheumatism. Mrs. Thomas Bresnehan, of 54 Mill street, Watertown, N. Y., says:

"My trouble began with a severe cold which I took about a week before Christmas in 1904. I began to have rhenmatic pains in my back and limbs and after a time I couldn't straighten up. I suffered the most awful pain for months and much of the time was unable to leave the house and I had to take hold of a chair in order to walk and sometimes I could not stand up at all. My husband had to help me up and down stairs. The pain was greatest down my left limb, along the sciatic nerve.

"The disease was pronounced sciatio rheumatism and, although I had a good physician and took his medicine faithfully. I did not get any better. After some six weeks of this terrible pain and suffering I tried Dr. Williams' Pink Pills and that is the medicine that cured After a few boxes the pain was less intense and I could see decided improvement. I continued to take the pills until I was entirely cured and I have

never had any return of the trouble. \$5,000 REWARD-The Dr. Williams Medicine Co. has authorized the cashier of the Union National Bank of Scheneo tady, N. Y., to pay the sum of \$5,000 upon proof of fraud on the part of the company in the publication of the foregoing testimonial, or any others used in making known the merits of Dr. Wil-

providing hot coffee and sandwiches for the wet and hungry searchers. With 32 men Sheriff White of Columbia County made a careful, though fruitiess search of the woods and campus in the vicinity of the place where Goers was last seen. It rained hard all the time the men were out and the searchers returned drenched, scratched and bruised. Brush, fallen logs and jack firs cover the ground and made the work of the party very laborious. When the weather clears up a number of men from nearby mills will renew the search. Mrs. Dippoid says her late boarder was

a very reserved man, but showed much animation and spoke freely when the subject of hunting was brought up. He suffered much from pains in his head, but paid little attention to cautions given him to take care of himself.
