Or. Nov. 19.—(Special.)—Everything is in readiness for the championship game with Washington on Kincaid field tomorrow afternoon. Both teams took a short practice period this afternoon to work out their signals and limber up.

Action by the faculty will keep George Hug on the side lines and Latourette and Moullen will also be out of the game. Hug's standing as a student is high, but the injury received in the Williamette game is still too serious for the veteran center to attempt a hard game. Otherwise the team is in the best shape and ready for the battle of the season.

Pinkham will move from left guard to Moullen's place at tackle and Hammond will take Pinkham's position at guard. Student enthusiasm is high and the rooters are holding a great bonfire and raily, in spite of the downpour of rain.

The field will be heavy, owing to rains, but the game promises to be the fastest and most spirited exhibition of the season. Little or no betting has been indulged in, especially among the Oregon students, as there is a general feeling against betting on the college games.

Bruce C. Shorts, of Seattle, will umpire the game and William Lair Thompson, of Albany, will referee.

The aches and pains of Rheumatism are only symptoms which may be scattered or relieved with liniments, plasters, blisters, etc., or quieted with opiates. As soon as the treatment is left off, however, or there is any exposure to dampness, or an attack of indigestion, the nagging pains, sore muscles and tender places on the flesh return, and the sufferer finds that he has merely checked the symptoms, while the real cause remains in the system. The cause of Rheumatism is a too acid condition of the blood, brought on by indigestion, chronic constipation, weak Kidneys, and a general sluggish condition of the system. Waste matter collects in the system each day which nature intends shall be carried off, but when it is left because of a sluggish condition of the system it sours and forms uric and other acids. These are taken up by the blood and carried to all parts of the body to produce the pains and aches of Rheumatism. S. S.
