

FEDERATION WILL STAY IN POLITICS

Pursue Independent Course, Allied With Neither Old Party.

WILL FORM NO NEW PARTY

Convention Almost Unanimous for Gompers' Course—Ship Subsidy Bill Denounced—Labor Measures Sought From Congress.

MINNEAPOLIS, Minn., Nov. 21.—Amid scenes of enthusiasm the American Federation of Labor, which is holding its annual convention here, endorsed the political policy of President Gompers during the campaign and urged a continuance of activity along independent lines, strongly condemning, however, the idea of allying with any special party, and going on record as opposed to forming a National labor party.

Although the committee on the president's report at the opening of the afternoon session made a favorable recommendation regarding active participation of workmen in electing friends of labor as legislators, it was not until 7 o'clock this evening that the vote was ready to go on record by casting a vote on the committee's recommendation, but when they did vote they were practically unanimous for its adoption.

Mr. Gompers spoke in defense of the stand he took in the last campaign, reiterated his accusations against Congressman Littlefield of Maine, as an enemy of organized labor, and pronounced a severe arraignment against the Socialist party, which, he said, "talks for everything and does nothing."

John Mitchell was present, but took no part in the discussion.

Ship Subsidy Denounced. Subsidized shipping, which involves the enlistment of the seamen employed thereon as members of the naval reserve, was roundly denounced at today's session.

Mr. Gompers touched extensively upon this subject in his annual report, pointing out that, while purporting simply to provide for the voluntary enrollment of seamen serving on subsidized ships, the bill pending in Congress did in fact provide for the conscription of seamen so enrolled in time of war.

The report of the committee on organization recommended in amended form a resolution introduced by Grand Master Frank Hawley, of the Switchmen's Union, of North America, caused some sharp debate.

The resolution charged explicitly that the Brotherhood of Railway Trainmen had been trying for all means in its power to annihilate the switchmen's organization. When the report was read, Mr. Hawley used forceful language, declaring that members of the Brotherhood had taken the places of striking switchmen, with the intent of breaking their strike and their union at once.

The stands of the International Typographical Union for an eight-hour day and of the textile workers in seeking shorter hours and more wages were approved, and the "no wage-reduction" policy recommended by Mr. Gompers was endorsed.

Laws Congress Should Pass. The convention endorsed that part of the president's report dealing with the proposed eight-hour law, and recommended the passage of the law by Congress.

The child-labor resolution, introduced in the United States Senate calling for an official investigation of the child-labor situation in the United States, was approved and its passage by Congress recommended. The bill calling for an eight-hour day for railroad labor was also approved.

The anti-injunction bill was endorsed and the injunction plan carried. Japanese, Chinese, Korean and Hindu laborers were included in a sweeping denunciation of Asiatic Immigration, and a demand for further extension of the exclusion laws.

"Slavery" was the term used to describe the employment of Asiatic coolies on the Panama Canal work. "It reads the report, the Canal cannot be built except by the introduction of involuntary servitude, it is better that it be not built at all."

NEW DEMOCRATIC MOSES (Continued from First Page.)

Conners and Murphy are playing good politics," declared a Tammany district leader today. "They have no further use for Hearst, because he is so far from us to them. He has pulled their strings out of the fire, and is at liberty to play with his independence League or go and sink in a corner just as he sees fit."

"Neither Murphy nor Conners has any more use for Bryan than they have for Hearst. They believe Hearst can never get over the beating he received this year. Not only did he run 65,000 behind his ticket, which is a remarkable performance when you consider how complicated our ballot is, but his eager candidates in Massachusetts, California and Illinois were also trampled in the dust."

"Bryan has killed himself by butting in with kind words for Hearst. This was a state fight, and we don't like outside interference. It wasn't Bryan's funeral, it was Hearst's funeral. And the Democrats who don't like Hearst are getting mighty sore on Bryan."

"I don't know what there is to this chap Jackson. People up in Buffalo say he is a bright lawyer. He is going to have a chance all right, and if he will make good, he may be the Democratic Moses to lead us into the promised land at Washington, D. C."

But what is the joke on Hearst? He didn't even know Jackson's name until the campaign was nearly over, and now Jackson is in the lead, while Hearst is trailing. It shows what funny things happen in politics."

The conservative Democrats, it might be added, regard the advent of "Elihu" and "Charley" as National party savors with surprise and dismay. And they are wondering what kind of an Attorney-General Jackson is going to make.

SPAIN SENDS BATTLESHIP

JOINT NAVAL DEMONSTRATION AGAINST MOROCCO.

MADRID, Nov. 20.—As a consequence of the receipt by the cabinet of dispatches setting forth that the situation of Europeans in Morocco is growing worse, Minister of Marine Alvarado decided, after consultation with the Premier, to order the battleship Pelayo to the Moroccan coast.

It is reported here, though the rumor lacks confirmation, that the British squadron now off the coast of Spain has also been ordered to Morocco.

MADRID, Nov. 21.—The Herald this morning declared that the Spanish squadron at Cadix has been ordered to Tangier and that another 500 marines will be embarked on board the cruiser Rio de la Plata.

CHURCH FIGHTS ON

Angry Crowds of Clericals Oppose Officials.

CONTESTS IN MANY CITIES

Exciting Scenes Mark Enforcement of French Separation Law. Sulphur Fumes Fought by Fire Engines.

PARIS, Nov. 20.—The net results of the church inventory operations conducted throughout the country today and tonight show that a total of more than 150 inventories were made. In only a few cases were there serious collisions between those who resisted the law and the government commissioners and the troops. Reports show that altogether four generalists and several peasants were wounded and that about a dozen church inventories were arrested. They were at once tried and sentenced to short terms in jail. In several instances the people are still holding out and with the fumes in the churches throughout the night.

The work of inventoring has been completed in 62 out of the total of 86 departments. There still remain to be inventoried to be taken in the other 24 departments, and in some places serious disturbances are anticipated.

PREMIER CLEMENCEAU said in the Chamber of Deputies tonight that the troops had been ordered to exercise patience, but that if they were fired on, they would reply.

DRIVEN OUT BY FOUL SMOKE

Clericals of Perpignan Fight Soldiers With Sulphur.

MONTEPELLIER, France, Nov. 20.—Resistance to the taking of church inventories was general throughout the Department of Herault. Violent resistance occurred at Perpignan, where the church was filled with the fumes of burning sulphur, which was shoveled into the building from the vestry and the roof, again and again forcing out the clericals, while a crowd without shouted maledictions at the troops and hurled stones and flower-pots at them. The church was finally cleared by a charge of infantry in order to permit the firemen to flood the church, but it was then discovered that the water mains had not succeeded. At 3 A. M. the authorities had not progressed in taking the inventory.

At St. Bazille the church bells were wildly rung, summoning the clericals, who surrounded the church. The force at the disposal of the troops was not sufficient to attempt taking the inventory.

The church at Courzon was barricaded and the parish priests defended the door, but the military engineers barred the way and the inventory was taken while hundreds of clericals outside sang hymns.

At Grabels it was also necessary to batter in the church doors and the taking of the inventory was accompanied by the imprecations of the multitude.

In most cases the parish priests and bishops, after protesting, yielded to a show of force, but some of the priests defied their church and the doors were broken down. In hundreds of cases the priests were taken by surprise, the authorities and soldiers arriving before daylight and completing their work before an alarm could be given.

At Armentieres, after the doors of the church had been broken in, the authorities found the vestry fortified with a breast-work of chairs bound together with barbed wire. The congregation filled the church and sang the "Carmagnole," while the taking of the inventory was proceeding.

When the authorities arrived at the seminary of Alencon, capital of the Department of Orne, they found the bishop barring the door in person. Soldiers ejected him.

CROWD HOLDS OFF SOLDIERS

Surrounds Church and Forces Postponement of Inventory.

ST. POL DE LEON, France, Nov. 21.—A detachment of 500 soldiers surrounded the church here today, keeping at bay an immense crowd of clericals, who were engaged at the entrance of the church property. On account of the threatening attitude of the crowd and the lack of cavalry, the taking of the inventory was postponed until tomorrow.

BURNED BY MOLTEN IRON

Shower of Hot Metal Scattered Over Steelworker.

Robert Huffsmith, a steelworker of this city, was seriously burned at the Smith Works iron works yesterday afternoon by the overturning of a ladle of molten metal. The metal fell into some wet places on the floor and the explosion which followed hurtled it all about the furnace.

Huffsmith was burned about the face, head and arms. He was taken to the city hospital, where it was found that his eyes had escaped serious injury. The man will recover, but will be more or less disfigured for life.

Several other employees were injured enough to be taken to the hospital, though several of them were slightly burned.

BABES BURNED IN STOVE

Aged Woman Accused of Killing Twelve Infants.

NEW YORK, Nov. 20.—Mrs. Wilhelm Eckhardt, a German midwife, 69 years old, was arrested at her home on the East Side today and locked up without bail on a charge of malpractice.

A representative of the New York County Medical Society testified that his office had evidence that the bodies of 12 infants had been burned in a cook stove at the Eckhardt home.

DELATED BY STORM

Peary's Steamer Also Lacks Fuel to Come South.

HAS NARROW ESCAPES

Loses Anchor in Storm and Almost Goes on Rocks—Burns Woodwork and Blubber to Reach Battle Harbor.

SIDNEY, N. S., Nov. 20.—A cable dispatch to the Associated Press from St. George's Bay, N. F., dated today, follows:

"Commander Peary's Arctic steamer Roosevelt, which arrived here about 6 o'clock Saturday, was still anchored in St. George's Bay at dusk tonight, but ready to sail for Port au Basque at the first favorable change in the weather. The weather tonight is stormy, and a stiff northwest wind has kicked up a heavy sea."

The Roosevelt sought to renew her coal supply here sufficiently to carry her across the Gulf of St. Lawrence to Sydney, a distance of 220 miles. The expedition party, however, was able to secure only eight tons of coal here and will require additional fuel before attempting the passage of the Gulf. Peary has decided to make Port au Basque at the first opportunity. The distance is 140 miles, and it is hoped that the weather will moderate and permit an early start."

NARROW ESCAPE FROM ROCKS

Steamer Roosevelt Battered by Labrador Storms and Needs Fuel.

ST. JOHN'S, N. F., Nov. 20.—Commander Peary's Arctic steamer Roosevelt, which is still at St. George's Bay, N. F., is reported to have had a terrible experience while coming south from Hopedale, Labrador. She had to tie up for 12 days in Battle Harbor, Labrador, on account of a hurricane.

In Battle Harbor the Roosevelt carried away her heaviest anchor and several lines had to be run out to keep her off the rocks. She was short of coal and it became necessary to augment this fuel with wood and blubber. A portion of the ship's interior work was dismantled in order to secure wood. During a blinding snowstorm, it is declared, the Roosevelt was nearly wrecked on the west coast of Newfoundland.

PEARY REACHES SANDY POINT

Roosevelt Is Unable to Round Cape Aiguille in Storm.

NEW YORK, Nov. 20.—Morris K. Jessup, of this city, today received the following telegram from Peary: "Sandy Point, N. F., Nov. 20.—Morris K. Jessup, New York—Passed Cape St. George noon Saturday. Unable to weather Cape Aiguille, owing to head winds and rain in here at daylight this morning for coal. Sailed proceed when weather favorable for crossing gulf."

Ticket Named at Vancouver.

VANVOUVER, Wash., Nov. 20.—(Special.)—At the convention of the Liberal party tonight the following ticket was nominated, practically renominating the present officials:

Mayor, V. R. Harvey; Councilman-at-Large, E. R. Scofield; West Vancouver, William Penness; North Vancouver, John Everett; East Vancouver, Milton Evans; and T. Hendrickson; City Clerk, J. E. Harris; Attorney, M. M. Connor

Daughter of Belgian Minister.

WASHINGTON, Nov. 20.—Miss Louise Moncheur, daughter of Baron Moncheur, the Belgian Minister, and Baroness Moncheur, died today, after a brief illness.

Catarrh of the Stomach

A Pleasant, Simple, but Safe and Effectual Cure for It.

COSTS NOTHING TO TRY.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes by St. Paul's Dyspepsia Tablets, and formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, indigestion, nervousness and a general played-out, languid feeling.

There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston, the safest and best treatment is to use after each meal a small tablet, composed of Dipsaspe, Aseptin, Pepsin, Little Nux, Golden Seal and fruit acids. These tablets can now be found at all druggists under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets fit the safest preparation as well as the simplest and most effective remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send your name and address today for a free trial package and see for yourself. Address F. A. Stuart Co., 58 Stuart Building, Marshall, Mich.

HAND SAPOLIO FOR TOILET AND BATH

Delicate enough for the softest skin, and yet efficacious in removing any stain. Keeps the skin in perfect condition. In the bath gives all the desirable after-effects of a Turkish bath. It should be on every washstand.

ALL GROCERS AND DRUGGISTS
