DEMAND FOR APPLE TREES

Salem Nursery Gets Large Orders From All Over Northwest.

Salem, Or., Nov. 20.—(Special.)—The recent agitation over the growing of apples in the Willamette Valley and the frequent publication of reports that the high prices that have been secured for first-class apples, is evidently having the effect of stimulating an interest in apple-growing. There is an unprecedented demand for apple trees, and some of the small nurseries report being entirely sold out of the varieties in most demand.

FROM ONE PRISON TO ANOTHER

Racker Rogers Finds Warden Waiting at Penitentiary Doors.

BOISE, Idaho, Nov. 20.—(Special.)—Racker Rogers walked out of the Penitentiary today into the arms of J. E. Gilliam, chief turnkey of the Walla Walla Penitentiary, who wanted him to serve out an unexpired term. Rogers has a long bad record. While a boy at Walla Walla he got into the Reform School, from which he escaped. Later on he became a candidate for the Penitentiary and was successful in getting into that institution. After serving one term he went back for another of four years, but got away after serving six months. He then went to Nevada, where he is charged with having committed crimes for which the authorities want him, and finally landed at Postville, in that state, where he was arrested for burglary, getting a three years' term.

DEED FROM POISON

Strychnine Is Found in Mrs. Creffield's Stomach.

CORONER ACCEPTS REPORT

Ether Mitchell Declares Her Accomplice and Cell Mate Did Not Commit Suicide, Despite the Findings of Chemists.

SEATTLE, Wash., Nov. 20.—(Special.)—Despite the fact that Mrs. Ward and Rubenstein formally reported to Coroner Carroll this afternoon that Maud Creffield died from strychnine poisoning and that the coroner has accepted the chemists' report to mean she committed suicide, Ether Mitchell persists that Mrs. Creffield did not kill herself. Miss Mitchell

challenges the truth of the coroner's findings. When told of the result she said: "Maud never took poison; we were very intimate and knew each other's innermost secrets. If Maud had planned to take poison, I certainly would have known about it, and she never told me anything of it."

"Maud Creffield believed suicide was cowardly and always insisted that she could not take her own life. I do not believe she could have changed her views. It would have been impossible for Maud to have taken poison without my knowing it, unless she did it that night when she went out to take a toothbrush. She was only gone a few minutes and this was the only time she was out of my sight. She certainly did not take the poison when I was around."

May Hurt, sister of Mrs. Creffield, and Mrs. Levin's called at the jail this afternoon to see Ether Mitchell. Mrs. Levin had seen Mrs. Creffield the afternoon before she died. "I saw Mrs. Creffield, but certainly I did not bring her any poison," said Mrs. Levin. "Maud Creffield did not want poison. We had talked several times of suicide and Mrs. Creffield always said that self-destruction was cowardly. But for the fact that it was cowardly and that God had forbidden her to commit suicide, Mrs. Creffield often said she would like to kill herself, for she had no desire to live. But she always told me that it was her duty to die, and I must whatever punishment was given to her, and declared she was going to do it."

Five different color tests were applied by the chemist making the analysis of Mrs. Creffield's stomach. Traces of 0.0001 of a grain were discovered in the most sensitive of the tests. By use of a powerful microscope the crystals of the poison were developed.

The authorities have not as yet made any attempt to detain Mrs. Levin, the cousin of Mrs. Creffield, and her last night, but there will be an investigation and arrests may follow. The Sheriff's office is keeping special watch on Ether Mitchell.

AWARDED ALL THE CHILDREN

Mrs. Annie McDonald Given a Divorce by Judge McBride.

OREGON CITY, Or., Nov. 20.—(Special.)—In addition to a decree of divorce from William McDonald, Mrs. Annie McDonald has been awarded by Circuit Judge McBride the custody of ten minor children and her costs, amounting to \$270. The ages of the children range from 18 months to 17 years, the oldest son being but 9 years of age. The woman asked that the defendant be required to contribute \$25 monthly toward the support of the family, but this consideration is not included in the final order granting the separation.

In her complaint Mrs. McDonald stated that she and McDonald were married at Oregan City, Kan., in February, 1882. Before the defendant was subjected to ill-treatment, including the calling of vile epithets, the mother of this large family alleged that during her married life she was required to perform much manual labor in addition to the performance of her household duties. She offered testimony at the trial of the case to show that her indigent husband obliged her to go into the field on the farm and sow grain, harrow the field, and eventually assist in harvesting the crop, besides having to milk several cows every day.

CANADIAN HOTEL BLOWN UP

REVENGE IS SAID TO HAVE PROMPTED DEED IN BRITISH COLUMBIA.

VANCOUVER, B. C., Nov. 20.—A special to the Province from Grand Forks, B. C., says:

"The most terrible outrage ever perpetrated in the Boundary district occurred about 12 o'clock last night at Niagara, a small railway village, seven miles up the North Fork of Kettle River, when unknown persons blew up the Canadian Hotel, of that town, with dynamite.

The explosion killed a girl named Louise King, aged 18, and an Italian, whose name is unknown, and injured nine other people. Three bodies of dynamite, obtained by breaking into the storeroom of Contractor Tierney, were used. Dr. W. G. Dickson went to Niagara early this morning, and brought the more seriously wounded victims to the hospital.

When the explosion occurred, the first victim of the outrage was attacked only a few feet from her mother. Her body was blown in half. One side

RESUMES SCHEDULE TONIGHT

Northern Pacific's Main Line Will Soon Be Clear.

Local officials of the Northern Pacific promise that passenger trains will be in operation on the old schedule over the company's line from Portland to the Puget Sound points by tonight.

Passengers leaving tonight for the East over the Northern Pacific will be given the much sought-for Portland schedule. The Hill trains will be made up without change of cars or transfers. It is asserted that the line from Seattle to the East will be open tomorrow by the O. R. & N. tracks. The use of the Hillman tracks in case of emergency by Hill's trains is provided for by a contract the two systems have whereby either road may use the other's tracks in case of accidents. Compensation is struck for on a mileage basis for each car handled. The revenue to the O. R. & N. was nominal, the charges made were very low. The toll to be paid by Hill for operating a train from Portland to Wallula amounts to about \$15.

The Hill trains carried their own crews, but on each engine was a "pilot" engine supplied by the O. R. & N., at Hill's expense, whose duties were to give the Northern Pacific engineer all necessary information concerning the track and roadbed.

While Northern Pacific trains were using that O. R. & N. tracks, only one Fred D. Hoffman in a divorce suit filed to be operated daily by the Hill line. Hill would have been glad to operate others, but the Dodson slide and other points on the main line threatened by flood conditions, made it impracticable. O. R. & N. officials declared, for the Hill people to operate more than one train daily on account of the heavy traffic on the Harriman line.

Most railroads have reciprocal agreements by virtue of which one may run over the other's parallel lines in case of emergency.

POSTAL CLERKS UNINTERESTED

Effort to Form a Union Does Not Promise Success at Seattle.

SEATTLE, Wash., Nov. 20.—(Special.)—Desultory attempts on the part of a score of postal clerks employed in the Seattle postoffice to form a union affiliated with the American Federation of Labor will fail, if the statements of many of the most prominent employees of the local office are to be believed. There are perhaps 125 postal clerks connected with the Seattle office.

Two meetings have been held in the Seattle office, at which the formation of a union was discussed. The meetings were called by a committee of postal clerks, but neither gathering was largely attended. There is considerable sentiment in the local office against the formation of a union affiliated with the American Federation of Labor and many of the clerks here refused to attend.

How often do we hear women say: "It seems as though my back would break," or "Don't take to me, I am all out of sorts?" These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys, some derangement of the organs. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the best judges agree that it is the most universally successful remedy for woman's ills known to medicine.

Read the convincing testimonials of Mrs. Holmes and Mrs. Cotrelly. North Dakota, writes:

"I have suffered everything with backache and female trouble—I let the trouble run on my system until I was so weak that I was unable to do about, and then it was I commenced to use Lydia Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved I should have taken it months sooner—for a few weeks' treatment made me well and strong. My backache and headaches are all gone and I suffer no pain at my monthly periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Mrs. Emma Cotrelly, 109 East 13th Street, New York City, writes:

"Dear Mrs. Pinkham—

"I feel it my duty to tell all suffering women of the relief I have found in Lydia E. Pinkham's Vegetable Compound. A Woman Best Understands a Woman's Ills.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham is the daughter-in-law of Lydia E.
