

FIRST DEFERRAL OF COMMISSION

Monon Road Ignores Order Issued Under New Rate-Regulation Law.

TRANSPORTATION IN TRADE

Right to Give Passes in Exchange for Advertising Assented—Commission's Order Held to Violate Right of Contract.

CHICAGO, Nov. 22.—(Special)—The management of the Monon Railroad has decided to contest the right of the Interstate Commerce Commission to say what shall and what shall not be paid by a railroad company in payment for its transportation.

First Resistance to Law.

The decision of the Monon came as a surprise in view of the fact that up to this time there has been apparently a universal desire on the part of the railroads to readily concur in all the rulings of the commission and abide by them.

Secretary Edward A. Mosley of the commission was recently advised by Mr. McDoel that the ruling of the commission in this respect would be ignored by the Monon.

As the ruling of the commission with respect to a railroad's receiving anything other than cash for the transportation of persons or property or freight of any description was specific and unequivocal, it can hardly be expected that the commission will allow the railroad to go unchallenged.

Right of Contract Denied.

Mr. Kretzinger insists that the ruling of the commission is substantially a denial of the right of contract and strongly intimates that the commission has gone to an absurd length in the matter.

NEW RULES FOR RAILROADS

Commission Warns Them Against Excessive Through Rates.

CHICAGO, Nov. 22.—In its last circular issued yesterday the Interstate Commerce Commission has given the railroads an important hint on through rates.

The circular modifies to an extent one issued October 12 in which the commission gave the railroads to reduce on a single day's notice the through rates where they are greater than the sums of the local rates.

LUMBER IS MADE IN NORTH

Investigation of Trust May Be Proceeded in Oregon and Washington.

SAN FRANCISCO, Nov. 22.—United States District Attorney Robert Devlin said today regarding his investigation of the so-called lumber trust:

"All the evidence I have gathered I have transmitted to the Attorney-General at Washington for consideration.

"The greater portion of the lumber used in San Francisco is manufactured in Oregon and Washington, and the mills are situated in these states. It is probable that an investigation will be held in those states under direction of the Washington authorities to ascertain whether or not the price of lumber is raised or the output limited by a combination, and if so, how it is operated.

ENDS THE BELVIDERE CASE

Grand Jury Takes Up Matter of Bay City Disorderly Houses.

SAN FRANCISCO, Nov. 22.—The grand jury resumed its inquiry this morning into the charge that Abraham Ruef performed extortion, before the fire on an O'Farrell-street amusement and drinking place.

Peter Duffy, who was arrested yesterday on a charge of perjury, pleaded against him by the grand jury, had not succeeded, up to noon today, in securing bondmen for his release.

The investigation into the alleged extortion said to have been practiced in connection with the Belvidere, a resort on O'Farrell street, was completed today and this afternoon the grand jury took up the matter of disorderly houses.

OREGON! Brightest Gem in America's Coronet of Statehood! Her Products are the Pride of Mother Earth! No North, no South, no East, no West.

"No pent-up Utica contracts her powers, but the whole boundless spheres are ours!" ALL OREGON! Hood River has had her inning. Willamette Valley is "at the bat" with a remarkable display of red-cheeked, luscious apples that fairly "jump to the eyes" and make the mouth water for a taste.

Fifth, Sixth and Washington Streets
