

TURKEYS RULE FIRM

Bulk of the Wholesale Business Has Been Done. Large Shipping Orders.

Local Prices for Choice Offerings Are 20 to 22 Cents—Quality Is Satisfactory—Advance in City Butter.

The largest part of the Thanksgiving turkey business has been done. Receipts on Saturday, Sunday and yesterday were enormous, yet front street was practically bare of stock when the time came to close up last night.

The feature of the trade this season was the unusually strong demand from outside markets. Some of the jobs were confined their attention almost exclusively to the shipping business.

The course of today's market will depend entirely upon the receipts. The large retailers have done their buying and the small buyers will be in the field today.

Jobs are exceedingly placed with the prospectors with which shippers went in their supplies. Had the shipments been delayed, lower prices would have been inevitable.

FREE MOVEMENT IN HOP MARKET. Sales Are Being Made by Dealers as Well as by Growers.

A good deal of business was transacted in the hop market yesterday, the sales reported locally aggregating about 1300 bales. Prices were about at last week's level.

It is believed that the market is in a somewhat better position than it was a few days ago. The quality of the hops received this season has been quite satisfactory.

While some of the biggest bulls in the business," he said yesterday, "have been selling the farmers, they have been gradually getting out of the market.

Three Local Creameries Raise Their Quotations 2 1/2 Cents. Three of the city creameries advanced the price of their top-grade butter yesterday to 32 1/2 cents.

Good Holiday Trade in Fruits. The holiday trade in fresh fruits was very brisk yesterday, with the demand principally for apples, oranges, lemons and grapes.
