### **BIG DINNERS FOR** LITTLE PEOPLE

Thanksgiving Feasts at Charitable Institutions of City.

BABIES NOT OVERLOOKED

Finy Tots Do Full Justice to Roast Turkey and Its Accompaniments-Small Boys and Girls Rejoice.

If the true measure of a child's Thunksgiving enjoyment is the quantity of traditional turkey communed and the zest with which it is eaten, then nowhere in Portland was the holiday nowhere in Portland was the holiday more heartily observed than in the various benevotent institutions. In each and every one of these refuges the little people sat down to be untifully laden boards and ate turkey, cranborry sauce, pumpkin and mince pies and all the "trimmin's" with as much, if not more, relish than the more fortunate youngsters who have never known anything but a good home.

Thanksgiving was indeed a feastday

anything but a good home.

Thanksgiving was indeed a feastday for them and they did full justice to all its traditions. The infants at the Baby Home, the children of the Boys' and Girls' Ald Society and the Children's Home and the young girls of the Florence Crittenton Refuge Home all enjoyed themselves to the utmost—one might say to their fullest capacity.

The tiny tots at the Baby Home were too young to understand the reasons for the observance of Thanksgiving Day, but tary were old enough to realize that a Thanksgiving feast was not something that could be enjoyed every day. There are 18 hables at the Home and 16 of them were old and strong enough to sit at the tables. For more than an hour they literally stuffed themselves with the good, old New England bird, roasted to a turn, and the many other good, things that go to make up a regulation Thanksgiving dinner.

When they were seated around the tar-

When they were seated around the ta-bles awaiting the feast, they knew that something unusual was about to happen, but they went into spasms of delight when the roast turkeys were brought in on the luge platters.

Thought It Huge Chicken.

"Oh! oh! oh!, see the big rooster!" screamed a little girl, as she clapped her hands together. She had never before seep a turkey and she imagined it was a gigantic chicken.

In the afternoon the bables played in the big nursery and were given a plenty of nuts and candles. Then they were bundled into their little cots early in the evening as happy as happy could be, and in their childish hearts they were unmeasurably grateful for the day of pleasure, the meaning of which they did not comprehend.

Sixty-four little boys and girls sat down to dinner in the home of the Boys' and Girls' Aid Society and sixty-four full-grown men and women could not possibly have eaten more than they. They had everything that was really worth eating. Turkey of course cran worth eating. Turkey, of course, cran-berries, oysters, sweet potatoes, rich brown gravy, mince, pumpkin pies, etc. Dinner was not served until about 3 o'clock in the afternoon. When the chil-dren were led into the dining-room they found the tables fairly groaning with the good things piled upon them. Superinten-dent W. T. Gardner suspended the rule that prohibits talking at meals, but it might as well have been left in force. The youngsters ate and ate and had no time for conversation, and when they were they could not possibly hold another bite, they were so well filled that they did not want to talk. They just smiled that hap-py Thanksgiving smile.

#### Couldn't Eat It All.

Some of the husky little boys stowed away dinner with as much energy as the canal disgers shoveled earth on the occasion of the visit of the President to Last evening there were four different to the case of the ama. When they finished one plate kind women who were caring for their appetites were at their elbows The children did their best eat everything in eight, but when they had limbhed there was still dinner left, so that they will not escape the much-mulighed turkey hash today. Among those who are at the home of

the Boys and Girls Aid Society yester-day was a little Chinese girl by the name of Ling Ti, who lived at the home once for about eighteen months. It was there that she first learned of Thanksgiving Day, and she liked it so well that now ahe always goes to the home for her Thanksgiving dinner. She mingled with the rest and appeared to enjoy herself as much as any; it also might be added that she ate about as much as any of

Many of the white children at the home had never eaten a Thanksgiving dinner fore. Their parents were poverty-ricken, and to them Thanksgiving had sen like any other day. For weeks the children have been waiting with the keenest anticipation for Thanksgiving. One of the boys, about eight years of age, who until he became an inmate of the Home had lived in abject poverty was much interested in the talk abou Thanksgiving. One day he approached Superintendent Gardner and, grasping his hand, said: "Please, Mr. Gardner, tell me about Thanksgiving. We never heard of Thanksgiving when I was home. I don't even know much about Christmas. Is it anything like that?"

When he went to beed last night he he went to bed last night he

knew all he wanted to know about Thanksgiving, and it proved to be the greatest day in his youthful life.

CHURCHES GIVE THANKS Services Held in Various Places of

Worship All Over City. Portland congregations gave expression yesterday to their thankful spirit by attending special services at the various churches. The meetings were well attended and worshipers showed real gratified for the many blessings of the past year.

Dr. J. Whiteomb Brougher preached at the union Thanksgiving service of a group of West Side Protestant Churches at Grace Methodist Church yesterday morning. He chose for his text "Glving thanks always for all things in the name of our Lord, Jesus Christ, to God even the Father." The service drew a large undiscrete.

About 200 delegates will attend the convention tonight in Union Hall at 8 o'clock to outline plans and to take the first steps toward organization. When the new party is formed, it is expected that not less than 16,000 voters will cast their lot with it. There are about that many mion men in Portland, and it is said the new party will attract workingmen

who are not members of unions.

To secure legislation favorable to the workingmen is the announced purpose of the organization. It is said by those who are directing the movement that they are tired of being promised reforms in legislation by candidates for office who promptly forget their obligations to the laborers after election. Labor leaders say this has happened so frequently that some radical action is necessary to secure his rights for the laboring man. An axe is being sharpened for the poli-

ticians who have drawn in the labor vote for their election to office, but made no effort to fulfill their promises. One of the purposes of the new party is to defeat such men when they come up for re-

to those announced by the proposed or-ganization. The new party, however, is a direct result of the plans announced a short time ago by President Compers of the A. F. of L. and it was thought by union men that more good can be ac-complished by the new organization than by the Oregon Labor Party. That party will be merged into the new organization nd will lend its full support to the Union Political Party.

Each union in Portland is to send three delegates to the convention tonight. These have been appointed, but the leaders of the movement do not know yet who they are, as the names have not been reported by the various unions. The delegates will be armed with credentials from their unions and will at once take up the preliminary work of organization. Several meetings will probably be neces-sary to launch the new party.

#### President Gompers' Plan.

The political phase of the labor movement was taken up by President Gom-pers of the A. F. of L. when he issued a circular letter last Summer and rec-ommended that labor unions proceed without delay to organize, that those candidates may be nominated and elected who will stand firm for the enactment of labor's laws. Mr. Gompers suggested that candidates of the old parties who are friendly to labor be supported by the labor tota but in cases where both the labor vote, but in cases where both parties ignore the demands of organized labor, he advised that a straight labor candidate be nominated.

At the meeting tonight a resolution, introduced last month at a meeting of the Portland Trades Council, will be submitted to the convention. Amendments to the resolution in its present form may be offered by delegates and important changes made. As soon as a definite working basis is reached a committee on

initiative in the formation of a political body in this city.

"We realize that labor can unite on economic grounds, but in the past through the lack of political organization, we have been divided at the political organization, we have been divided at the political order to cement and solidify the political strength of our members, we have taken these steps. "We hope to accomplish the solidfying
of the union voters, and we wish through this convention to form a party that will bring together all the union men and get them to thinking and acting in harmony for their own benefit. We realize it is aportant for the interests of labor to come active in politics.
