The Things Men Want

Here Friday at Prices Less Than Men Are Wont to Pay

Sixth-Street Annex—First Floor.

The women of America are better buyers and better economists than men. The average woman has better taste than an average man, and she will make a dollar do more work than the "run" of male folk. It is complimentary to the intelligence of men that they are at last finding out this great truth, and many are now following the example set 'em by their wiser sisters, wives and mothers, and coming here for their togethery. We have often offered exceptional values to men, but seldom ever better than those of Friday. Read of the examples—many more there are which go unprinted.
