# YOUNG TEDDY HAS STRENUOUS DAY

Has to Work Hard to Earn Membership in "Dickie" Society.

HARD ON HIS DIGESTION

Has Supper to Give Goat Dyspepsia and Next Day Walks in Snow Storm for Slim Reward, but Does Not Kick.

CAMBRIDGE, Mass ., Dec. 10.-(Special.)-With a large pickle carefully bal-anced on the end of a long hatpin in his extended right hand, Theodore Roosevelt, Jr., put in another strenuous day as an initiate of the "Dixie" Society. and went to bed tonight feeling that he had done a good day's work. Roosevelt is certainly having as severe an initiation as was ever devised for a candidate in this famous Harvard organization.

His Sunday Night Function. Sunday night, after he had recovered from the hard stunts of Saturday, he "requested" to attend a little func tion in the "Dickie" clubhouse on Holy oke street. There he was required to sing "Old Black Joe" backward to the tune of "The Star-spangled Banner." He is said to have given promise of vocal accomplishments. Later refreshments were served, at which Teddy sat upon a raised dais and consumed enormous amounts of ice cream, plentifully seasoned with tomate catsup, with Jamsica ginger added, as an evidence of good taste. The feast was topped off by a toast to the President, drunk by Teddy

Pickle and Hatpin His Prize.

This morning he hit the trail at 4 A. M. in a driving snowstorm. He was ordered to take an early car to a sub-urb, at a certain house he was directed to go to another suburb about ten miles away. There, at a given house, he was handed a pickle and a hatpin. With these in the position indicated above, he walked three miles to the vallread station, took a train to Boston, walked the entire length of two streets In the retail shopping district and then, boarding a car for Cambridge, offered to sell the pickle to everyone in the electric car for a \$10 bill, no

Having failed to dispose of his pickle, he was then required to board six cars in Harvard Square and kiss the picture of every woman in the adver-tisements. By this time it was well along in the afternoon and he was given the rest of the day off.

No Kick Coming Yet.

Tomorrow he will continue his stunts, but having been so fatthful today, the remainder of the week's work will be comparatively easy.

Young Roosevelt tonight was asked

how he was enjoying himself. He said his orders not to talk to anyone were positive, and he would not discuss his new job, except to say he has no kick coming yet, for he expected to be ini-tiated "proper."

by Vatican. ROME, Dec. 10 .- The Osservatore Romano today publishes an article in-spired by the Vatican authorities, enumerating the reasons for the sudden change in the attitude of the Vatican in regard to the enforcement of the law providing for the separation of church and state in France, and criticising all the provisions in Minister of Public Worship Briand's circular.

The paper adds that the Minister desired, by insisting on the application of the law of 1881, to be able to say to the Catholics that the Vatican had indirectly accepted the church and state separation law.

The article is entitled, "Masked Per-secution," and says that M. Briand's circular will form a memorable document in the history of modern France, showing how at the beginning of the 20th century, "the French government's unscrupulous arbitrariness plays with the law and with rights."

Imands of the Engineers.

CHICAGO, Dec. 16.—(Special.)—Committees representing engineers on every railroad west of Chicago are in the city with a view to making a demand for increased wages from 161 to 29 per cent and for an eight-hour day. ELECTRIC WORKERS STRIKE

May Leave Schenectady Without Power, Light and Water,

SCHENECTADY, N. Y., Dec. 10.-Two thousand members of the Industrial Workers of the World struck at the local plant of the General Electric Company today because the company refused to re-instate three members of the union, two of whom had been discharged for inefficlency, and trouble with a foreman, and one who had resigned and who wished to be re-employed after his resignation had been accepted. The management offered to give the three men employment in other departments, or to give them 39 days' pay. The men were willing to ac cept these terms, but the union voted unanimously to make the case an issue.

The officials of the company say they will close the plant, if necessary, to maintain discipline, and that the places of the strikers can be filled without difficulty. The men, on the other hand, threaten to close the company's power plant, which would deprive the entire pumping station, the local trolley lines and lighting circuits of the power.

Duchess de la Rochefoucauld, youngest daughter of the late John H. Mitchell: PARIS. Nov. 24.-The reappear-

following cable dispatch regarding

ance in society of the American Duchess de la Rouchefoucauld is a feature of the season. The spirited Duchess comes to Paris from her husband's Chateau de Montmiral, determined to play a conspicuous part in the social galety. She will be far away the most richly-dreased woman in Paris this

Winter, if what all the dressmakers say is true. Every morning her automobile whizzes around the city while she inspects and accepts, or rejects, fashion's newest creations. The Duchess even laugh-ingly invites artists of greatest fame to discuss the asthetic aspect of a modern woman's draperies. She notes every hint they lightly let fall and puts it to use in designing her raiment, but disguises it so deftly that even its author cannot recognize It.

The Duchess, who is very popu lar, passes every hour of the afternoon and night at social gatherings of kind. She is an intimate of the Infanta Eulalia, has made many friends among the Spanish colony and occasionally is seized with the desire to learn the Castillian tongue.

Of all the Americans here, the Duchess de la Rochefoucauld is the most Frenchified. She takes the greatest interest in the study of French literature and frequently attends conferences held by the academies. For lighter, if more exciting, diversion she plays bridge-whist, and often takes a hand at the bridge partles given by Mrs. Marshall and her

After the two Sen-ators talked the matter over. Mitchell said he would write to Brownell along the lines of their understanding and, when he had prepared a letter, Fulton signed it without reading it. Now that the facts have been made perfectly clear, Fulton is content to let the mat-ter rest on its merits.
