Prices of domestic sardines would be strengthened anyway by the foreign situation so the chortage on the Eastern coast only makes the position that much stronger. The Maine pack of 1906 is now estimated to have failen fully 1.200,000 cases was made by the Maine factories. As fully 65 per cent of this season's output has been already sold, and it is considered highly probable that none of the cannerles will open before July 1 next year, it is expected that the early Spring trade will clear the market. The reason for this heavy shrinkage is said to be due to the low market price for domestic sardines, and to the scarcity of herring in American waters.

The importance of the sardine and herring industry is shown by the figures of 1904, when Washington and Hancock Counties, the center of the business realized.

Advance Is Checked by Rise in Call Money Rate.

MUCH PRESSURE TO SELL

Interior Banks Disinclined to Accept the Proffered Government Deposits Owing to Short Time for Holding.

NEW YORK, Dec. 12.—The advance in prices of stocks wavered, then came to a hait and finally turned backward again to-day. There was some natural realizing on yesterday's considerable rise, which served partiy to account for the reduction. There was, besides, a further advance in the rates for call methey and less confidence as a result in the adequacy of the assistance offered by the Treasury Department to carry the money market through the demands of the January settlements. With the reaction in the market there was some shrinkage in the rate of activity from that of yesterday. The ilberal offering of funds yesterday was to some extent a use of the expected increase in resources before they were in hand. This disposition on the part of the active speculators to lick up funds as fast as available comes in for its share of criticism.

Reports were received in Wall street today that some of the interior banks were disinclined to accept the proffered Government deposits. The short time fixed for their being held and the difficulty of securing bonds for collateral were offered as an explanation of this attitude; but it served to create an impression that the cagerness for additional money resources was not as acute away from New York as here.

Preparation for the \$10,000,000 Standard Oil dividend on Saturday and of the \$30,000,000 subscriptions to New York Central stock on Monday were said to be under way today, requiring some large calling of loans with resulting recovery in the money rate. The long-expected announcement of subscription rights to new Great Northern preferred stock and the quotation for the rights in the outside market was followed by a violent decline in that stock which childed speculative enthusiasm over other expected developments. The increase in the Pittsburg, Cincinnati, Chicago and St. Louis dividend was without inducace on any stock.

The money markets were harder in London and Paris today, but foreign exchange rates here reacted in reponse to with one was easy at smeral declines.

Snowstorm and Snowshoe Drop Sharply on the Local Exchange. Other Lines Are Steady.

Coeur d'Alene stocks were hammered hard on the Portland and Spokane Exchanges yesterday. There was a 30c reduction in the asked price of Snewshoe and a 15c drop in the bid price. Bids on Snewstern were 54%c under Thesday's bid and the asked price was \$1.30 lower. There were no local sales in either atock. Why such a good dividend payer as Snewstorm should suffer such a decline is difficult to say unless it is due to a renewal of the Helize munipulation at Spokane, which is more than prob-Official prices were as follows:

TONOPARS AND GOLDFIELDS STRONG. More Business at Better Prices All Along the Call.

the Call.

SAN FRANCISCO, Dec. 12.—(Special.)—
It was reported that "Borna" Smith has lost the control of McNamara, but the market transactions did not bear evidence of an effort to get any stock back. Ophir sold up to \$3 per share on the Comstock call and the list was 10 to 12 points higher with good trailing.

Jim Butter led the Tonopalis, which were all stronger, as were the Goldfields. Sandstorm was freely bid for at 5 points over yesterday's closing, and Mohawk was wanted on a 1000-share lot at 15. More business was brought out all along the call and few quotations were any lower than yesterday's asked prices. Among the sales were. Jim Butler, 150; Gold Crown, 22; Sandstorm, 50; Blue Bull, 47; Adams, 24; Great Bend, 120; Pinenut, 35; Yellow Horse, 12; Triangle B., 00.41; Eagle, 100; Mohawk, 150e, Jumping Jack, 52; Red Top, 385; Kendali, 62

Heavy Sales of May in the Chicago Market.

PRICES CLOSE AT A LOSS

General News of the Day Is Favorable, but Is Ignored-Receipts in the Northwest Show Decrease.

CHICAGO, Dec. 12 .- The wheat market was weak all day, because of sales of be-ween 1.000,000 and 2.000,000 bushels of May wheat by a prominent operator. These liberal saigs induced many of the pit-traders to join in the selling movement. Most of the offerings were taken by commission better, a large portion of the purchases being for Northwestern houses. There was little in the news of the day to cause any decided weakness. Receipts of wheat at decided weakness. Receipts of wheat at Minneapolia and Dututh were considerably less than for the corresponding day last year. The total primary receipts were over 20 per cent less than a year ago. The market closed weak, with prices at the lowest point of the day. May opened a shade lower at 70c and setd of to 78½c, where it closed 14½ he clower than yesterday.

The coun market was weakened by self-ing by cash houses, breight out by reports of an increased movement in the corn belt. The market closed to lower for May at

The market closed the lower for may at 4332c.

The brenk in the price of wheat and corn caused profit-taking in oats. May closed the lower at 332c.

The provisions market was easier because of a 58:10c decline in the price of live hogs. The weathers of the grain market helped to depress provisions. At the close January pork was off 5c, lard was unchanged and ribs were 2½c lower.
