## HAS GOOD CHANGE FOR BOOBY PRIZE

William R. Hearst May Wrest Mayoralty of New York From McClellan.

TWO WAYS TO LAND JOB

May Thwart Little Game.

NEW YORK, Jan. 10.—(Special.)—Wil-lam R. Hearst, defeated as Governor, has more than an even chance or landing the consolation prize of the Mayoralty. and already his faithful followers are discussing what jobs they will take it they are urged to 60 so. There are two ways by which the title

of the Mayor's office can be tested-by a recount or by quo warranto proceedings. Both methods were denied to Hearst last year, but he will get them now, probably within a few weeks.

Bills providing for a recount of the ballots cast in November, 1965, have been introduced in both the Assembly and Senate, and the indications are that they will be passed by practically a unanimous Governor Hughes has recommended it in his message, and the entire Tammany delegation, the bulk of the minority at

Albany, will be lined up behind the Re-publican executive.

McClellan is fighting desperately to pre-vent any action, but can command but few supporters. In fact, it would surprise no one if both Republicans and Democrats made the bill a party measure and pushed it through by manimous vote.

### Will Push Proceedings.

In the meantime Attorney-General Jackson, after inviting Mr. Hearst to resubmit his application for leave to institute quo warranto proceedings, received the lowing: papers, set the hearing for the carliest possible date, and there is no doubt but that he will grant the prayer of the peti-

This will give Hearst an opportunity to attack McClellan in two ways, simultaneously, and should, and doubtless will, afford him great joy and satisfaction.

With the recount bill a law, it to ngured that the votes could be scrutinized and totalled, and Hearst, if he is shown to have a majority, be installed to office by September or October. On the other hand, the quo warranto proceedings would probably be drawn out until the expiration of the Mayor's erm, which ends on December 31, 1909. The method of procedure under the wo systems, is interesting, and but little understood by the general public.

and errors in the vote as returned, and demanding that the ballots be recountcanvass demonstrated that McClellan had been legally elected to the office in diagnite. A Sustice of the Supreme Court would then be appointed to take up the canvass. He could name as many other assistants as he saw fit, and the count of a score, or of two ballot-boxes could proceed sim-ultineously. In case of any dispute the referee would pass upon the particular ballot, but the entire work would proceed with expedition, and an early decision could be expected.

There were cast at the Mayoralty election of 1905 more than 600,000 bal- Carolina at Porto Rico saying: lats. Nobody holleves that a referee could pass upon more than 1000 of these a day. This would take 600 days, and figuring on 200 working days a year, which is probably excessive, the by applications to the Appellate Division and the Court of Appeals, which would eastly keep McClellan in office until six term of office had expired. And then, of course, an entirely new Mayor would be seated in the City, Hall, and neither McClellan or Hearst would have any right there. Murphy has ordered the Tammany men he controls, who comprise nearly the entire delegation to "shout for the recount bill, work for it and vote for it."
The Tanmany boss hates McCtelian toore every day, and will do everything he can to prove that fraud was committed by the men whom he (Murphy) ersonally directed. It is a peculiar attun-ion when a man is willing to expose how se violated the law, just to have revenge upon a former political protege who is Ballots Are Locked Up.

The ballots cast at the 1905 election are still preserved by order of the courts. They are carefully locked up in storage warehouses, and are guarded night and day by a private police force or 25 men employed by William Randolph Hearst. Day and night these men are on duty to see that nobody tampers with the precious bits of paper that bear testimony to who was elected Mayor.

in the meantime the Democrats all over the state are fighting bitterly. McClellan has come out in an interview and stated that Murphy is unworthy of confidence. Murphy replies in a signed statement that the Mayor is a "llar," a "hypocrite," a 'weakling' and "assumes to have a virtue

But the unsolved problem is, will be recognize the Tammany organization, or will be put the faithful Independence League men (such of them as are still faithful) upon guard? And nobody here knows the answer.

WASHINGTON, Jan. 10.-Members of the California delegation, in discussing the intention of Japan to abandon the proposed trip of the training squadron to the Pacific Coast on account of the anti-Japanese agitation expressed the optilon that San Francisco would have extended a welcome to the fleet. While the people of California are opposed to the wholesale importation of Japanese cooles, we respect the rights of the Japanese who are now here, and the training squadron would certainly be as safe in the Eay of San Francisco as it would be in a home port."

Mr. Masanao Hanihira, second secretary of the Japanese Embsusy, tonight said that Viscount Aoki, the Japanese Ambas-sador to the United States, has not been officially notified of the Toklo government's decision not to allow the training squadron to proceed to San Francisco. "The visit of a Japanese Rect to the Pacific Coast at this time," said Mr. Hanihira, "might occasion a renewal of though it is possible that he may have communicated directly with Tokio."
