Attitude on Brownsville Riots,

I find myself in this question for the first time since I have been a member of this body holding different views and taking a different position to my Democratic col-leagues. I have no fault to find with them, nor do I criticise their action. No one understands the attitude of the South on the negro question better than I do, especially the negro soldiers. They were quartered in 1865 and 1866 in nearly every Southern commonwealth and were guilty of some of the most horrible acts of oppression and cruelty. I fully expected that the peo-ple of my own state and of the other Southern States would commend the President's action in discharging the battalion the repeal of the law which provides for their enlistment. They have not analyzed policying as I do that a great wrong has been done the innocent negroes, that the joined his critics.

Mr. Roosevelt has already reseinded one part of his order, and I warn my fellow-Senators on this side that they need not be surprised to find him a little later on modifying or changing his attitude in essential particulars on this question. I am pre-pared for anything he may do and shall be surprised at nothing, for since his som-ersault on the court review feature of the rate bill and his surrender upon a question of far more vital importance than this, he

If he was one, he would not attempt to teach the Senator (Tiliman), because the latter had deliberately characterized his colleagues by name at the outset of his speech. His estimate of Till-man was that he would regret some of his words today as he later read them in the Record.

Spooner said the Senator could not be more mistaken or unjust than to charge him with holding malice. "He has never given me cause," Spooner added. "It was appropriate for him to say he criticised the attitude and utterances of a Senator, and I withthe effect of those utterances."

"If he should utter words which would inspire the black man of the south to disregard law and place more ifficulty in the way of the white people of the South, he would expect crit-

Senators on the Republican side of the chamber sec-onded the motion, which was carried.

Minstrel Show Expunged.

The closed session was devoted entirely to an effort to secure the expunging from the Congressional record of the portion of Tillman's remarks relating to other Senators, which he characterized as "the ministrel abow," and which after two hours' discussion was brought about by the South Carolina Senator's agreement to withdraw his remarks in that con-

was beneath the dignity of the Senate, but those who had been alluded to at first declared they would never consent to the withdrawal until they had had an opportunity to reply. Tiliman assured them that what he had said was intended as nothing more than a bit of humor and pleasantry and the Senate agreed to per-mit him to withdraw the objectionable remarks, at the same time making an apology. The moment the recount act become law, McClelian will apply to a frier Justice of the Supreme Court and secure an injunction, which will stay the opera-tion of the measure. This will be fol-lowed by first, an argument in the Su-preme Court; second, an appeal to the Appellate Division of the Supreme Court: third an appeal to the State Court Appeals, followed by an application the United States Circuit Court and ti United States Supreme Court. With proper application on the part of the May-or's attorneys, and they seem to be most enthusiastic, this phase of the legal trou-bles should be dragged out for several years. Even if McClellan loses all along boxes are opened, and begin all over again when the result is announced, if

Costs McClellan Nothing.

A feature of the case which is creatoffice has detailed a number of assistants nothing except fight McClellan's legal battles in any old courts that come along, and they certainly are earning their salaries. On the other hand, Hearst is benefiting financially by the change of administration. Attorney-General Jack-son is devoting all his time to the work, and has detailed Hearst's personal coun-sel, Clarence J. Shearn, as a special deputy to try the case, which of course, re-lieves the candidate of a large part of the expense.

A lawyer who had figured on the case

"I believe this snarl over the mayoral-ty will be in the courts continually until McClelian's term has expired. It could probably be dragged out for about four years more, but I assume that both sides will drop it when there is nothing tang-ible to fight for. A conservative esti-mate of the cost of this affair would be \$200,000 for court costs and counsel fees for McClellan, and a similar amount for state will pay if Hearst loses, and which McClellan will be taxed with if Hearst is

"The \$400,000 first mentioned will not greatly worry the two candidates. Mc-Ciellan has arranged it so that the city will pay his bill, while Attorney-General Clellan has arranged it so that the city will pay his bill, while Attorney-General Jackson has fixed it so that the state will settle the bulk of the other part of the game. As near as I can see, the taxpayers will be out nearly \$400,000, which anybody will admit is quite a tidy sum."

An irreverent Republican sizes up the

situation this way: "If Hearst had that \$400,000 which is to be wasted on high-priced and unneces-sury lawyers, he could give 200 patrices each a job for a year at \$2000 salary; or he could hire 723 brass bands, 29 large these expenses to permit the candidate to stop at each street corner between Bowl-ing Green and Eighty-eighth street and acrubble' sie in small change, except at Bighty-eighth street, where he would only have \$15.20 left.

WATER STILL COMING UP

At Louisville Yesterday It Registered 12 Feet Over Danger Line. Severe Cold Adds to Suffering of Refugees.

SHAWNEETOWN, III., Jan. 21.—A statement of conditions prevailing here was made by Mayor Kratz this morning. He stated that 600 persons have fled from the town. All residents whose homes are still tegable are occupying the upper stories, and business is at a standard!
"At 9 o'clock this morning, the stage of the Ohio River reached 48 feet," said the

Mayor. "I believe the levee which pro-tects the city from the river will hold until the stage reaches 53 feet. If that figure is reached, it is hard to tell what may happen to Shawneetown. It is impossible to say now just when the crisis will be reached. It is also impossible now to make any estimate of the loss."
