EFFORT IS RENEWED

Y. M. C. A. Again Takes Up Movement for New Building.

PLANS ARE MAPPED OUT

Leaders Will Resume the Work of Raising \$350,000 Where It Was Dropped at Close of Last Campaign.

Plans for raising the balance of the \$350,000 necessary for the erection of a building suitable for the joint use of the Y. M. C. A. and the Y. W. C. A. were laid last night at a meeting of the various committees of the two organizations. The new campaign will be started February 8 and will continue for a month. On that date representatives of the associations will make short speeches at the various churches throughout the city, outlining the work and soliciting their cooperation. These short addresses will be made from week to week throughout the campaign.

Miss Constance McCorkle, general secretary of the Y. W. C. A., stated that she had talked with several business men and that they expressed the opinion that this was a bad month in which to start the campaign, as there is now considerable agitation in regard to the car shortage and business men cannot get their goods. It was also pointed out that there is now a campaign for getting money to build an addition to the hospital, and that two additional institutions in the city want \$25,000, the Good Samaritan Hospital and the Homeopathic Hospital.

"I understood that instead of being a whirlwind campaign, this is to be a still hunt proposition," said John F. Carroll of the Telegram. "The car shortage" howl is louder than we think it is," said W. J. Clemens. "The merchants cannot get goods and they cannot deliver them. It is not so much as it looks like a business man when he is sore at the railroad."

"The public will be compelled to go to the newspapers for information about the present campaign, as the committee has decided to discontinue the use of the clock. A thermometer and bulletin board were suggested, but it was decided not to adopt them. It was thought best to instruct the 100 solicitors in the best way of handling the situation and of obtaining funds, and to this end it was suggested that H. W. Stone, W. J. Clemens, Samuel P. Lockwood and Miss Constance McCorkle be appointed to issue instructions to the workers.

It was voted to have the headquarters at the Y. M. C. A. during this campaign. The committee will work under one head during the present effort instead of under four as before. S. G. Reed was appointed chairman and Mrs. A. E. Reedy, vice chairman. Other present were Robert L. Lytle, John F. Carroll, E. R. MacNaughton. The next meeting will be held at the Y. M. C. A., January 30, at 8 P. M.

A DOCTOR'S SLEEP. Found He Had to Leave Off Coffee. Many persons do not realize that a bad stomach will cause insomnia. Coffee drinking, being such an ancient and respectable form of stimulation, few realize that the drug—caffeine—contained in coffee and tea is one of the principal causes of dyspepsia and nervous troubles.

Without their usual portion of coffee or tea, the caffeine tapers are nervous, irritable and fretful. That's the way with a whisky drinker. He has got to have his dram "to settle his nerves" habit. To leave off coffee is an easy matter if you want to try because Postum Food Coffee is well bottled according to directions—gives a gentle but natural support to the nerves and does not contain any drug—nothing but coffee.

Physicians know this to be true, as one from Georgia writes: "I have cured myself of a long-standing case of Nervous Dyspepsia by leaving off coffee and using Postum Food Coffee," says the doctor. "I also enjoy refreshing sleep, to which I've been an utter stranger for 20 years. In treating Dyspepsia in its various types, I find little trouble when I can induce patients to quit coffee and adopt Postum." The doctor is right and there is a reason. Read the little book, "The Road to Wellville," in package.
