SHAW ON NEW CURRENCY

OPPOSED TO HOUSE BILL AND GIVES HIS REASONS.

Would Increase Regular Volume and Allow Extra Issue Heavily Taxed for Emergencies.

NEW YORK, Jan. 31.—Secretary of the Treasury Shaw spoke at the annual banquet of the Missouri Society at the Waldorf-Astoria tonight. Mr. Shaw said in part: "There was recently reported from the committee on banking and currency a bill authorizing a maximum issue of a fraction over \$200,000,000. Every National bank in the United States should avail itself of this new privilege and if the authorized issue should prove relatively as responsive to the changing needs of business as does the present currency of Canada, there would be an additional contraction of about \$50,000,000 in bank note currency between the issue in the fall and the minimum issue of midsummer, and a corresponding \$50,000,000 increase in bank note circulation when the stop-moving period arrives. I believe the proposed measure wholly inadequate. The bill provides that there shall be kept against this new issue the same reserve as against deposits, I believe a much smaller reserve than is required against deposits would be sufficient. Mr. Shaw pointed out that the proposed bill would not have added the New York banks when they were below their required reserve last December, because in order to issue currency they must increase the cash reserve, whereas if the banks were obtainable the currency would be issued. He continued: "The issue of a new currency in favor of the issuance of a volume of bank note circulation in excess of the par value of the bonds deposited, I am not, however, in favor of a separate and distinct kind of currency. In my judgment, this additional circulation should be guaranteed by the Government and the fact recorded on the present bank note to the effect that the same is secured by a deposit of Government bonds should be eliminated and in lieu thereof the note should contain the following: "This note is guaranteed by the United States." In addition there should be authorized an issue equally large, taxed at not less than 3 per cent, with no requirement as to reserve. It is idle to require a reserve against emergency currency, for the exhaustion of reserve is what makes the emergency. I doubt not the proposed legislation would prove profitable to National banks, especially those in reserve and central reserve cities, but I do not believe it would result in any perceptible elasticity. Concerning the recent stringency in the money market Mr. Shaw said: "I realized the imminence of a panic and I was asked to deposit \$30,000,000 in the United States banks, but I thought that the money which was with the Government would assure a feeling of security." Silverworkers on Strike. NEW YORK, Jan. 31.—The Brotherhood of Silverworkers, which has made a general demand all over the country for a nine-hour working day at ten hours' pay, has decided to enforce this in the vicinity of New York, about 1100 men are out. Earth Shakes in Illinois. ST. LOUIS, Jan. 31.—A special report from Highland and Greenville, Ill., report severe earthquake shocks at 11:30 o'clock last night. The vibrations seemed to be from east and west, and continued about five seconds. In many houses dishes were shaken from shelves.

BODIES STREW THE MINE

STUART SHAFT PROVES VERITABLE CHARNEL-HOUSE.

Bodies So Thick Rescuers Cannot Help Stepping on Them—No Hope Any Escaped Alive.

CHARLESTON, W. Va., Jan. 31.—The bodies of nine of the victims of Tuesday's explosion were brought to the surface today. The bodies were brought up by Edward Pickney, inspector of the mine, and Kolm Absalom, district mine inspector, who were the first to go down. Their search was one of great peril. The men remained in the shaft for three hours, and found it a veritable charnel-house. Mutilated bodies covered the bottom of the shaft so thickly that the two rescuers found it impossible to move about without stepping on them. They counted 26 bodies, but after sending up nine were so exhausted that the others were allowed to remain until the cage is put in working order. Sixteen more bodies were recovered late tonight. The entries will be penetrated tomorrow in an effort to recover all the remaining bodies. It is now regarded as certain no one in the mine at the time of the explosion escaped. The body of John Quisek was taken from the shaft in the bucket and the Coroner's inquest will probably be on his remains. In addition to the investigation by the Coroner's inquest, Chief Mine Inspector Paul and Deputy Henry

RIGHTS OF MEN IN UNIFORM

Roosevelt May Recommend Law Protecting From Discrimination.

WASHINGTON, Jan. 31.—If President Roosevelt can bring such a thing about, Congress will pass a law which will prevent discrimination against the uniform of the Army or the Navy. Several cases involving this question are pending in state courts, but the more recent case of the refusal of a skating rink proprietor at Plattsburg, N. Y., to admit two soldiers in uniform, which was sustained by Judge Everest, of the City Court, has given an impetus to the movement to get on foot by the President some time ago to insist that the uniform shall be recognized in all public places. An interesting phase of the Plattsburg case developed today when it became known that Judge Everest recently wrote the President, stating the grounds on which he based his decision, maintaining that the case was not one within the meaning of the bill of rights, affecting the question of race, creed or color. He frankly expressed the opinion, however, that the matter should be taken up by Congress and a bill passed making it an offense to discriminate against the uniform of the Army or Navy. This letter was referred by the President to Chairman Jenkins, of the House Judiciary committee, who took a rather conservative view as to the right of Congress to deal with the question, but suggested that the opinion of the Judge Advocate-General and the Attorney-General might be sought in reference thereto, which was done. Mr. Jenkins at the same time related two instances which had come under his personal observation where

proprietors of public cafes had gone to guests and notified them to wear their coats or else leave the premises. This was not discrimination against the guests in question, but was an objection to their mode of dress, a position in which he thinks the proprietors were justified. However, acting on Mr. Jenkins' suggestion, the whole subject has been referred to the Attorney-General for his action. In his indorsement Judge Advocate-General Davis says: "Respectfully returns to the military. Section 22 of the bill of rights of the State of New York contains the requirement: "If a person who owns, occupies, manages or controls a building, park, amusement or other place, opens the same to the public generally at stated periods or otherwise, he shall not discriminate against any person or class of persons in the price charged for admission thereto. A person violating the provisions of this section is guilty of a misdemeanor." Section 22 provides that "all persons within the jurisdiction of this state shall be entitled to the full and equal accommodations, advantages, facilities and privileges of inns, restaurants, hotels, eating houses, bathhouses, barber shops, theaters, music-halls, public conveyances on land and water and all other places of public accommodation or amusement, subject only to the conditions and limitations established by law and applicable alike to all citizens." The foregoing regulations are more comprehensive in their terms than is section 22, in which exclusion on the ground of race, color or previous condition of servitude is expressly prohibited. In view of the very general character of the language used in the sections above cited, it is recommended that the papers in this case be referred to the Department of Justice, with the request that it be examined with a view to determine the propriety of obtaining a review of the decision rendered by the court of original jurisdiction.

the City Bank & Trust Company is made by the president of that institution. The bank will be open continuously from 10 A. M. until midnight.

H. LIEBES & CO. Corner of 135 FIFTH J.P. Plagemann Alder St. Manager
