Government's Suggestions.

OLYMPIA, Wash., Feb. 6.-(Special.)-Congressman Wesley L. Jones has writ-en Governor Mead advising the state to ontribute a certain sum to be used in onnection with the Government appro-riation for the improvement of the Co-imbia River above Celilo. Jones thinks the measures already proposed entail too much unnecessary expense. He says the \$120,000 the Government has set aside will prepare, equip and maintain the plant for a year, and if the state would place at the disposal of the War Department a certain amount of money to be used in line with the surveys and recommenda-tions already made by the department, every dollar could be spent in actual improvements.
