fields on its way to New York City and

Troy for Collar Factories.

the details of the manufactures of this

country, but there are some instances

in which particular cities excel. Troy,

New York, manufactures nearly 90 per

cent of the collars and cuffs made in

the United States. There are 17,000

wagecarners in that city who make

their living by manufacturing our col-

lars for us. Troy owns the collar busi-

ness by the divine right of discovery.

In 1829 Ebenezer Brown started there

the first collar factory on earth. The

early patterns were tied about the neck

with a string. Six years later laun-

dering was begun in connection

with the business, and the stiff

collar and "biled" shirt were born into

the world of commerce. However, we

Americans still use millions of shirts

of the "hickory" variety, which are forever innocont of a laundered collar.

Grand Rapids, Mich., is famed for

to the full extent of the revelations she not there, however. The day began with says she made to her husband. There were repetitions, too, at the suggestion ters from Harry Thaw to Mr. Longfelof counsel, and incidents which had not been gone over in the first years of Mrs. Thaw's acquaintance with Stanford White others, too, which Thaw had sent the were brought out in completion of the life story.

Jerome Flares Up in Anger.

District Attorney Jerome, who had throughout sliently listened to the young wife's statements, sent a thrill of excitement through the courtroom late in the the alieged affidavit which she made, day by vigorously protesting against charging Harry Thaw with having taken "this defamation of the dead."

the aspersions that are to be cast upon she had been induced to answer some this man? Your honor well knows I cannot, under the law, controvert any statement this witness might make against the memory of Stanford White." In the White had told her, she declared, that it most bitterly sarcastic vein, Mr. Jerome spoke of "this battle of the tenderloin" to protect her from such a person and right to limit such testimony "until com- New York. She denied ever signing any petent evidence has been adduced here to show that this man is, or was, of unsound mind. We don't know whether this defendant ever was insane," he concluded.

The question which called out the vehement protest from the District Attorney was addressed to Mrs. Thaw by Mr. Delmas and its purport was whether or not Harry Thaw had at any time told her about "other girls who had met a fate similar to yours at the hands of this man."

"What man ?" snapped Mr. Jerome "Stanford White," replied Mr. Delmas with the coolness of voice and manner characteristic of him, and then he added still in the same low tone, "Who else?" Justice Fitzgerald held that the District Attorney's suggestion was a good one and he thought the defense should lay : broader foundation to show insanity be fore proceeding along the lines suggested by Mr. Delmas' question.

'We will proceed to do this as soon as possible," announced Mr. Delmas,

White Repeatedly Sought Her.

Mrs. Thaw declared today that Stanford White, during the year which followed, her experience in the room of the mirrored walls, repeatedly sought to have her visit him alone.

"I told Harry," she said, "that Mr. White had begged me, had pleaded and cried and scolded and done everything he could to make me come to see him alone. I refused and he told me I was cruel and that I was cold as a fish and not a human being. I told Mr. White I did not care to trust him."

After the return from Europe and dur ing the months she would not see Harry "because of the dreadful things Thaw, Mr. White and his friends told me about him," she declared Thaw accused her of improper relations with the architect.

"I told him it was a lie, and I had not." she testified with an emphatic snow of feeling. The defense had Mrs. Thaw tell of her

acquaintance with Jack Barrymore, the

nplete details as dramatic thrills of the day before were last fiscal year. a continuance of the reading of the letlow, written after Evelyn Nesbit's revela

tions to her suitor in Paris. There were attorney to deliver to Miss Nesbit, who at that time would not see him Cooked Up Charge Against Thaw.

Mrs. Thaw followed these with a reve

lation of her experience with Stanford White and Abraham Hummel concerning her from her mother against her will and "Is there no limit?" he exclaimed," to with gross cruelty. Mrs. Thaw told how questions about herself and Mr. Thaw at the time and had been told the stories about his "crueitles to girls," Stanford was necessary to take drastic measures declared the court had the that Harry Thaw must be kept out of papers in Hummel's office, but said she nembered having signed some papers for Mr. White in his office, the contents of which she did not know. When she got frightened about the papers and demanded to see them, she said Mr. White took her to Hummel's office and there they burned a paper which had her name at the bottom of it. She was not allowed to see what the paper contained before it was destroyed.

Blackmail Paid by White.

Mrs. Thaw's testimony was made unusing at times by her Interjections of the names which Harry Thaw had applied to the lawyers and Mr. White's agitated questioning as to what she had told Hummel about him. She declared she had told the lawyer nothing. ' 'Well,' said Mr. White to me, There is something wrong somewhere. He has just squeezed a thousand dollars out of me and the Lord only knows how soon he will squeeze another.' I then remembered having told Mr. Hummel, when he threatened things about Mr. Thaw, that he had better be careful, for Mr. Thaw knew a lot of terribie things about Stanford White."

The defense endeavored to get into evidence the wills of Harry Thaw and Evelyn Nesbit Thaw, executed the night of their wedding in Pittsburg. There were so many interlineations, additions and erasures that Justice Fitzgerald held the documents were inadmissible until they were proved. Mr Delmas said he would later endeavor to do this, as the wills and the interlineations and a codicil by Harry Thaw had to do with the proof tending to show the insanity of the defendant. It came out in the discussion of the wills that the name of Stanford White occurred in Thaw's testament.

Mrs. Thaw will go on her direct examination Monday morning. Just what will be the nature of Mr. Jerome's (Concluded on Page 4)

country has learned to say "Grand Rapids" as if it were a sacred word of magic, like the "open sesame" of All Baba. A unique feature of furniture-making and selling in the Michigan city is the semi-annual fair which is held there each January and July. It lasts an entire month and is attended by not only thousands of buyers from the different states in the Union. but from foreign countries as well. Grand Rapids owes its supremacy in this line to its proximity to the finest hardwood forests on the continent and to the fact that it "got there first." It has forty-three large factories, which give employment to 15,000 skilled workmen. Another peculiarity

of the Grand Rapids industry is that most of the workmen are a second generation of skilled Dutch artisans who are so regular and orderly in their habits and ways of thinking that they cannot be induced to participate in
