DOUBTS MOTIVE OF ROCKEFELLER

Johnson Interprets Gift as Bid for Perpetuation of Privilege.

PROBABLY RAILROAD STOCK

Mayor of Cleveland Predicts When People Want to Squeeze Out Water, Cry of Robbing Colleges Will Arise.

CLEVELAND, Ohio, Feb. 8 .- (Special.) hn D. Rockefeller's motive in preing to the General Education Board \$32. 000,000 is regarded as of a sordid nature by Mayor Tom L. Johnson. In an inter-view today the Mayor said that the gift was made merely as a bid for the perpet-uation of the special privileges which the oil king enjoys in his various interests. The Mayor also regards it as certain that no educational institution which pays any particular attention to the teaching of political economy will receive a part in the benefits of the gift. Nearly all the other gifts Rockefeller has made to schools and colleges are regarded in the same light by Mr. Johnson.

"What sort of a gift was it, anyway?" the Mayor asked. "It was not cash, as I understand it. What was it, then? Le us suppose the case. Was it Standard Oil stocks? Hardly. Was it the bonds of cities, states or perhaps railways? Most likely it was railway securities Every one of these is a mortgage on the future. Some day it will develop per haps that the special privileges which these railroads enjoy, and which the people are becoming educated more and more every year to curtail and withdraw, will be threatened. It will result in a sudden squeezing out of the water in those

great educational interests are dependen pon the returns when the sources are bring threatened. There will be talk also t the widows and orphans are in of losing. A condition will be pre-that may have protective effect for the corporations involved."

GENERAL PARADES HAS LAND-ED AT PEDERNALES.

Revolutionary Agent in New York Receives News by Cable From Port of Spain, Trinidad.

NEW YORK, Feb. 8.-The Tribune to norrow will say:

morrow will say:

The long planned insurrection of General Antonio Parades against President Castro of Venezuela has begun. Nicaoar Bolet, the local representative of General Parades, received a cable dispatch yes erday from the revolutionary agent at Fort of Spain, Trinidad, which contained this one word: "Asigne," which in the cipher code arranged between the two points means, "Antonio has landed at

The landing was effected probably on

MONUMENTS AT PORT ARTHUR

Japanese to Perpetuate Memories of Heroes of the Recent War.

ST. PETERSBURG, Feb. 8.—A dispatch om Harbin, Manchuria, says that the Japanese are erecting two monuments on Peropelocheny Hill, Port Arthur, to the memory of the Russian and Japanese soldiers who fell in that siege. In prox-Russian chapel will be built, bearing the following inscription of the heroes who me

their death in defense of Port Arthur."

COUNT BONI WILL APPEAL

Will Ask Higher Court to Review Wife's Decree of Divorce.

PARIS, Feb. 8.—It is reported that the Count Bonl de Castellane, from whom his wife, who was Miss Anna Gould of New York, secured a divorce in the French courts last November, is about to appeal to a higher court.

IN DEFERENCE TO UNCLE SAM

Brazilian Government Will Cull Ne-

groes From Visiting Squadron. RIO DE JANEIRO, Feb. 8 .- The Brazillan government has decided to avoid possible disagreeable incidents by excluding negro soldiers from the Bra-zilian squadron which will visit the United States. The opposition news-papers attack the government for this.

TERRORIST KILLS AND DIES.

Shoots Governor of Penza and Two Others, Then Himself.

PENZA, Russia, Feb. 8.-S. A. Alexager of the theater. Before the Ter-rorist could be captured he shot himself, and during the night died in a hospital without being identified. The bullets which he used in his revolver were dis-

covered to be poisoned.

M. Alexandrovsky, who was well known as Chief Commissioner of the Red Cross in the field during the war between Russia and Japan, had just stepped out of the door of the theater when a youth pushed his way through the crowd and that him in the nack. He fell deed on the control of the door of the theater when a youth pushed his way through the crowd and that him in the nack. He fell deed on shot him in the neck. He fell dead on the spot. The Assistant Chief of Police, who was standing near the entrance, tried to draw his revolver, but was shot dead by the Terrorist. Seeing it was impossible to get through the crowds outside the building, the murderer dashed into the theater, firing wildly. The manager attempted to grapple with him, and the murderer fired at him, but the shot missed the manager and killed a police-In a second attempt to capture the the manager was severely

The Terrorist fied through what he believed to be one of the exits, but found himself in the ladles' cloakroom. An attendant, realizing the situation, pointed to some stairs as a means of egress, and as soon as the assassin disappeared the attendant locked the door behind him.

WASHINGTON, Feb 8.—A. R. Spofford, chief assistant librarian of Congress, was stricken with paralysis to-day. The attack is not serious.

murderer subsequently was found uncon-scious from a bullet wound, from which he died in the hospital

WRAPPED IN SHEETS OF GOLD

Splendld Tomb of Mummy of Great

Egyptian Queen. LONDON, Feb. 8.—The Times, in its ar-icle telling of the discovery of Theodore Davis at Thebes, Egypt, of the tomb and mummy of the famous Egyptian Queen, Tele, says the tomb is a plain square sepulchre, cut out of rock. It is approached by a descent of steps and adjoins the tomb of Rameses IX.

The tomb bears witness to the blind tages of the victorious priesthead of

rage of the victorious priesthood of Thebes and the intensity of their hatred toward the hereite King, whose mother and inspirer was Tele. The Queen's jewelry and trinkets of solid gold with which the sepulchre was filled, were left untoward.

The coffin is a superb example of the jewelry work. The wood part of it is entirely covered with a frame of gold, in-laid with lapis lazull, cornelian and green glass. The mummy itself was wrapped from head to foot in sheets of gold. Theodore M. Davis, who made this sens-ational discovery, is an American. He makes his home in New York and New-

Victory of Argentine Rebels.

NEW YORK, Feb. 8 .- A Buenos Ayres dispatch, published here today, reports that a revolutionary outbreak occurred in San Juan, Argentine Republic, yesterday, in which the revolutionists were victorious after five hours' fighting. Twenty men are reported killed and many wound-ed, while numerous houses were burned and others sacked. The Governor and other officers are said to be prisoners. Colonel Sorzento was in command of the rebels, who, it is stated, propose to march on Mendoza. Federal troops will dispatched to quell the outbreak, which is ascribed to local causes.

Kaiser to Make Trip to Spain. BERLIN, Feb. 8,-Kalser Wilhelm, It is

stated, is planning a visit to King Alfonso of Spain to return the recent visit to Germany of the Spanish King. The Kalser will go about the end of March Fatal Explosion on Torpedo-Boat.

LORENTE, France, Feb. 8 .- As a re-

sult of an explosion on board torpedo-boat No. 339, of the French navy today, nine men are dead and two are injured.

TRUST STEALS EVIDENCE

New York Ice Combine's Desperate Step to Avoid Conviction.

ALBANY, N. Y., Feb. 8 -All the evidence on which was based the complaint of Atiorney General Mayer against the American Ice Company for dissolution of an alleged monopoly of the Ice business, served on December 20, has disappeared rom the Attorney General's office and

Steel Trust Buys Coal Mines.

BUTLER, Pa., Feb. &-The coal mines of the Great Lakes Coal Company at Caylo, the most important in this sec-States Steel Corporation, according to the information given out today. The Western Allegheny Railroad Company, now controlled by the steel corporation, operated in connection with the Bessemer & Lake Erie Railway, is included in the deal, which involves nearly \$1,500,000.

WASHINGTON, Feb. & Senator Clark of Wyoming today introduced a bill pre-viding for appeals from United States Circuit and District Courts to the Supreme Court of the United States in District Courts cases arising under the anti-trust and the appeal is to the Circuit Court of Ap-

Investigates Seating Trust.

San Francisco Delegation in Conciliatory Mood.

STANDS FOR EXCLUSION

Will Insist on Understanding With Japan About Coolie Labor Before Abolishing Oriental Schools. Have Conference Today,

WASHINGTON, Feb. 8.-Mayor Schmitz and the School Board of San Francisco arrived in Washington at 5:35 this afternoon. Their train was 24 hours late. The delegation will be received by the Presi-dent tomorrow morning. Mr. Schmitz

"We have come to Washington with a free mind to discuss the school question with the President. The mere fact that we have responded to the President's in-vitation is sufficient evidence that we stand ready to make concessions, if we are convinced that in so doing the entire country will profit by our action. No Californian is willing to stand on any technicality that will work to the detri-

"free mind" and willing to make conces-sions, it can be stated on the highest authority that the delegation's purpose is to Insist that the President must have a di-rect understanding with the Tokio Gov-ernment for the exclusion of Japanese coolies before they will agree to abolish the Oriental schools of San Francisco and admit Japanese children to the white

SCHMITZ TALKS ON SCHOOLS

Would Yield Rather Than Do Injury to Nation.

CHICAGO, Feb. 8.—"Not that I love 'Frisco, but my country more. I was born in San Francisco, and am for her first, last and always, but still above all I am an American. I would concede my position rather than see it become injurious to the country."

These words, uttered by Mayor Eugene E. Schmitz of San Francisco in Chiese westerday explain the rost-

Chicago yesterday, explain the post-tion he now holds on the Japanese segregation question that has involved the National Government and the peo-ple of San Francisco in the present ontroversy.

Mayor Schmitz, four members of the

Board of Education of San Francisco and the Superintendent of San Franschools spent three hours in Chicago yesterday, en route to Washing-ton, D. C., in response to an invitation from President Roosevelt.

"I cannot say that the matter will reach an entirely satisfactory settlement during our visit, but we hope it will. The law as a matter of fact, is nothing new, but the enforcement of it seems to have created an agitation. The law to segregate the Mongolians in the schools was made to 1881 but in the schools was made in 1881, but the Japanese claim they are not Mon-golians. The Chinese always have been golians. The Chinese always have segregated in the public schools. Japanese think they are better than the Chinese. I don't care to criticise President Roosevelt. It is simply a question of National treaty rights and state rights."

OPPOSES SEPARATE SCHOOLS

Canneries Company and chairman of the executive committee of the Commercial Manufacturers' Association of San Franisco, was in Chicago today on his way o Washington. There he will oppose layor Eugene Schmitz and the Board of Education of San Francisco in their efforts to have the Japanese segregated from American school children of that

Mr. Jacobs said he represented the manufacturing and commercial interests of San Francisco and that all the commercial organizations are united in op-posing the stand taken by the Board of Education in the matter of the Japanese. Mr. Jacobs is a cousin of Oscar S. Straus. Secretary of Commerce and Labor, and says he will do all he can to preserve friendly relations between the United States and Japan.

GREATEST TRADE FIELD

(Continued From First Page.) quires 5,000,000 acres of land to grow enough wheat to keep the mills of Minneapolis running for a year.

Peoris, III., makes more spirits and pays more internal revenue tax to Uncle Sam than any other city, great or small, in the Union. Last year Peoria in work at this point. paid \$33,000,000 in internal revenue tax, nearly all of which was on high wines or alcohol. This was more than twice as much tax as was paid by any other in the country.

Louisville distils more whisky than y other city, but its solid mile wholesale whisky houses is partly devoted to blending Kentucky whisky with Peorla high wines and Cincinnati neutral spirits. Although the Kentucky metropolis has a mile of street devoted to whisky, it drops into smaller dis-sipation and devotes nearly as much space to a tobacco market, which is the largest in existence.

Wheels and Agricultural Machines

Toledo's iron wheels are turning all over the world. The manufacturers of the Ohio city never overlook any kind of an order, from the biggest iron structures to delicate cut glass bowls for the tables of the well-to-do class who buy such things. Toledo profits from the fact that cut glass, a most expensive product, has a more able distribution in the United States than in any other country. The manufacture of agricultura! Im

plements is the life of such prosperous cities as South Bend, Ind., Akron, Ohlo, and Moline, Ill. Thousands of our plows are now being used to rip open the virgin sod of the Argentine pampas and the South African veldt. Kansas City and Dallas have long battled for the supremacy as distributors of farm machinery, and of late years the Texas city has made remarkable strides to d victory in the contest . Sever of every ten omnibuses in the United States are made in Quincy, III

The products of the paper mills of the country, mostly in New England and the orth central states, have increased eighteen-fold since 1850. Over 3,500,000 cords of wood are being used every year in making pulp in our paper mills. Trees are being turned into newspapers at a rate which is causing much alarm to those scientists interested in preserving the forests. Leading publishers have the forests. Leading publishers have taken time by the forelock and purchased thousands of square miles of virgin forest in Newfoundland. Detroit claims the lead of the world in

the manufacture of automobiles and computing machines—two great industries which have grown up inside of five years. This city possesses 20 automobile-making sstablishments, which turn out annuall product worth \$12,000,000. It is also th largest producer of pharmaceutical prep-

Uncle Sam is a great shoe-maker. He not only supplies his own wants, but furnishes foreigners with a large amount of their footwear. The European salesman displays the shoe marked "made in America" as proudly as the carpet man exhibits his rugs from Turkey. The value of the annual product. of the annual product of our shoe fac-tories is \$350,000,000-almost enough to build two Panama canals. Boston and St. Louis are the great shoe centers. St. Louis distributes more shoes through its jobbing houses than any other American ity, and 60 per cent of the quantity it distributes is made in its own factories.

The cottonseed oil industry is scattered all over the South, but its general center is Memphis. For a century after cotbecame the king of textile staples, the cottonseed was despised as a worth less vexation. Then its utilization was begun. In 1890 nearly \$4,000,000 worth of cottonseed oil and by products was produced. Last year the best estimates placed the amount at \$80,000,000, or 20 times more than the product of 1880.

Pittsburg makes enough steel rails each day to build over 11 miles of railroad track. One of the unique features of the smoky city is its wonderful marine commerce. It is at the head of naviga-tion on the Ohio River and ships 10,000,-000 tons of freight by water each year, although boats can only be handled during the high water stage. If it had a 9-foot stage all the year round, there is no telling to what dimensions its marine commerce would reach.

Cities which send the products of the United States to foreign lands must needs gather them from within. New York ships more wheat and receives more ment of the Nation."

Secretaries Root, Taft and Metcalf will participate in the conference. While the Californians profess that they are of a to New York, Portland, Or., at the other end of the American empire, ships more wheat than any other city abroad. Portland leads all the world in the shipment of lumber, and on ac-count of being situated near the great uncut forests, it will probably lead in lumber production for many years to

DENOUNCE AMERICAN CREASE OF RURAL GUARD.

Action Postponed Because of Agita tion-Resistance to American Rule Advocated.

HAVANA, Feb. &-Governor Magoon received a cablegram from Secretary Taft today directing the postponement of the decree providing for increase from 6000 to 12,000 men of the Cuban Rural Guard, ending settlement of the protests by the

Objections to the plan of increase wer voiced at a meeting attended by a num-ber of army officers. General Loyaz del Castillo bitterly denounced the United States and predicted that the Cubans eventually would be compelled to resist American domination, when the speaker hoped, he would have the honor of lead-ing the patriotic army.

NORTH YAKIMA OBJECTS

People Want Privilege of Electing School Directors.
