

# Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: **First**—The indisputable evidence that it is harmless; **Second**—That it not only allays stomach pains and quiets the nerves, but assimilates the food; **Third**—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not

stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Seely, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. J. McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

## PHASES OF INDUSTRIAL GROWTH IN THE STATE OF OREGON

### LOG DRIVES ARE THING OF PAST

Railroads Now Haul Timber Formerly Floated Down the River.

### STREAMS TOO UNCERTAIN

Old-Time Loggers Had to Wait on Seasons, While Modern Timbering Can Be Carried on at Any Time.

### LA GRANDE, Or., Feb. 10.—(Special.)

For the first time since the big sawmill was established at Perry, there will be no attempt this Spring to make a log drive down the river. As far as the Grande-Ronde Lumber Company is concerned this is an off year for the "River boy."

The winter has been an uneventful one at up-river sections for the reason that there have been no logging camps at work; no interest as to whether the weather would be good for skidding or as to the prospects for an early drive. The Perry Mills will be supplied principally by the logging road which goes up Rock Creek. The logging train is busy and makes daily trips and the logs are not even dumped into the river at Hilliard, but are brought on down and unloaded on the ice above the Perry dam.

Mr. Reilly says a man is foolish to talk logging contracts unless he can stand an occasional loss of season's work. In the average the business will pay, but he must expect a set-back about one year out of every three. Modern ideas will not tolerate so large a percentage of fruitless energy and that is why the logging road is looked upon as a permanent and indispensable factor in the lumber mill business.

### CHEHALIS CREAMERY SOLD

Nelson & Justesen Dispose of Plant to Newcomer.

CHEHALIS, Wash., Feb. 10.—(Special.)—Nelson & Justesen have sold the Chehalis creamery to O. Brewer, who recently came here from the northern part of the state. The creamery here has been a success ever since it was started, the business having grown with the development of dairying in the Chehalis and Newaukum valleys. During 1906 over 25,000 pounds more butter was made here than during the previous year. Nelson & Justesen will engage in business in Portland.

### Superintendent Saves Fish.

NORTH BEND, Or., Feb. 10.—(Special.)—Eight million fish are being saved by the Government because of the patriotism of Superintendent of Fish Hatcheries Smith, of Coos County. Last week the Government appropriation applying to the Coos and Coquille River hatcheries ran out and all of the men employed, except the superintendent, quit. There are 4,000,000 fish fry in each hatchery, of the chinook variety. The fish are too young to be turned out of the hatcheries now. In eight weeks' time they will be old enough and the superintendent will stay and mature them until that period. He does not expect any sort of recompense for the eight weeks other than a clear conscience.

### Supervisors Discuss Roads.

ALBANY, Or., Feb. 10.—(Special.)—Linn County Road Supervisors held their annual convention in Albany yesterday and discussed the best methods of road building. All phases of road work were considered at the meeting, and discussed, tending to the adoption of more systematic methods of work. The most important action of the convention was the adoption of a resolution calling upon the Legislature to pass a law permitting any road district to levy a special tax for road purposes under the same methods of procedure which special school district taxes are now levied and collected.

### Show Interest in Roads.

CHEHALIS, Wash., Feb. 10.—(Special.)—Chehalis is the center of the good-roads movement in Southwestern Washington. Accordingly, last night E. C. Lancaster, of the office of public roads, United States Department of Agriculture, was given a good audience, although but very short notice was given of his coming. Mr. Lancaster delivered an address at the Grand Opera-House, illustrating it with many interesting views. In the afternoon Mr. Lancaster appeared before the Lewis County Commissioners and took

up with them the matter of building a sample mile of road near this city. The arrangement has practically been closed for this to be done this coming Spring.

### Lumber Company to Enlarge.

WALLOWA, Or., Feb. 10.—(Special.)—The regular monthly meeting of the directors of the Wallowa Lumber & Manufacturing Company was held in the secretary's office Saturday. The company voted to place orders for the necessary building and fixtures to operate the plant as soon as Spring opens. The company has bought equipment for a Morton dry kiln, and a building will be erected.

### Buys Site for Bank.

FOREST GROVE, Or., Feb. 10.—(Special.)—The First National Bank has closed a deal with C. F. Miller for the lot at the corner of Main street and First avenue North, on which a new bank building will be erected this Summer. This is one of the best business locations in the city.

### Wallowa News Will Move.

WALLOWA, Or., Feb. 10.—(Special.)—The Wallowa News, edited at this place by Fred G. Conley, has announced its intention to move to Enterprise some time this month. Mr. Conley has many friends in Enterprise who have often requested him to come to that city.

### BEEF COWS DRIVEN OUT

### DAIRY INDUSTRY SUPPLANTS CATTLE-RAISING.

Ranges Overstocked and Ranchers Turn Attention to Supplying Creameries with Milk.

### PRAIRIE CITY, Or., Feb. 10.—(Special.)

A creamery for Prairie City is now assured, as grading for the building has been commenced. E. D. Severance, representing the Rock Creek Creamery Company, has been here lately to make arrangements for the erection of a building to be used for a cream station, and will, as soon as completed, install the necessary machinery for separating and pasteurizing the cream. The company will buy all the cream it can obtain, pasteurize it, and ship it to Baker City. But, this is only the beginning.

Owing to present conditions here, the company did not know how large a plant this section of the country could support and it will therefore start the enterprise on a small scale and increase it in proportion to the support the stockmen give it.

### DAIRYMEN HAVE PROFITABLE YEAR

Report of Tillamook Cheese Factories Shows an Increased Output.

### STATISTICS TELL STORY

Rich Coast Region Adds Largely to Dairy Wealth During 1906.

### One Cow Nets Her Owner \$74.

TILLAMOOK, Or., Feb. 10.—(Special.)—Carl Haberlach, who is the secretary for a number of the largest cheese factories in Tillamook County, is preparing his reports, which show another profitable year for the dairymen in this county.

Amount of butter fat in milk, 148,833.22 pounds. The average test for the season was .0872 per cent. The amount of cheese manufactured and sold was 357,180 pounds. The average price for cheese, 13.75 cents per pound. Amount received for cheese, \$4,908.20. Average price received, 13.75 cents per pound for cheese; number of cows kept, 681; average per cow, \$6.78; average amount of cheese per pound butter fat, 2.90 pounds; average amount of milk required for pound of cheese, 9.28 pounds. Patrons were paid for butter fat as follows: January, 29 1-3 cents; February, 31.8 cents; March, 33.1 cents; April, 25.5 cents; May, 22 cents; June, 15 1-3 cents; July, 26.6 cents; August, 28.7 cents; September, 27.5 cents; October, 29.5 cents; November, 29 cents; December, 29 cents.

July, 26.3 cents; August, 26.5 cents; September, 27.6 cents; October, 30 cents; November, 29.5 cents; December, 30 cents. This makes the average price received for butter fat 26.57 cents.

The following are four individual cases where the dairymen grow all their own feed and do all their own work.

Name	Butter fat	Proceeds	Per cow
W. B. Alderman	128,925	\$225	\$1.74
Nels Hanson	127,327	\$494	3.87
Geo. Wicklund	172,940	\$661	3.82
D. Fitzpatrick	122,165	\$630	5.16

### Northern Pacific Paying Taxes.

CHEHALIS, Wash., Feb. 10.—(Special.)—Jay Sedgwick, tax agent of the Northern Pacific, was in Chehalis yesterday and paid the company's taxes for 1906, a total of \$2,200.85. This payment included these items: Main line right of way, \$15,882.53; personal, \$380.26; South Bend right of way, \$725.00; personal, \$1,592.34; Olympia branch right of way, \$1,522.78; personal, \$17,129.85; realty, \$12.96. Later the company will pay on its land holdings in the county.

### Logging Camps Suspend.

LA GRANDE, Or., Feb. 10.—(Special.)—Work in the Palmer Lumber Company's camps in the Looking Glass country has been suspended for the present, on account of the slow progress of the O. R. & N. track extension. The lumber company has 5,000,000 feet of timber cut, which will be available as soon as the big mill is ready to run. Work on the track extension below Elgin has been practically at a standstill for several weeks, principally on account of the weather conditions.

### Little Damage to Grain.

FOREST GROVE, Or., Feb. 10.—(Special.)—An investigation of the winter grain fields in this vicinity during the last day or two shows that very little damage resulted from the recent cold weather. Some of the blades of the growing grain have yellowed from the effects of the freeze, but the plants themselves are all right and a few days of warm weather will make them as green as ever.

### Perry Mills Start Early.

LA GRANDE, Or., Feb. 10.—(Special.)—It is the intention to start the mills at Perry by the middle of this month, or as soon thereafter as possible. This is much earlier than usual, but the demands are pressing, and it is not the intention to lose any time. At present the annual work of overhauling and repairing the mill is in progress. Some important changes are being made, with an expenditure of about \$300.

### Astoria Reorganizes Work.

ASTORIA, Or., Feb. 10.—(Special.)—A mass meeting of citizens for the purpose of reorganizing the Chamber of Commerce and merging the other local commercial organizations with it has been called for Thursday evening, February 14. Invitations to address the meeting have been accepted by Tom Richardson, Walter C. Smith and Charles B. Merrick of Portland.

### Will Dig Deep Channel.

NORTH BEND, Or., Feb. 10.—(Special.)—L. J. Simpson, Mayor of North Bend, will spend \$10,000 in constructing a deep-

water channel in Pony Inlet, an arm of Coos Bay. The inlet now has but a depth of seven feet at high tide. The channel will be 50 feet wide and will have a depth of 20 feet at low tide.

The channel will enable sea-going vessels to handle the output of a \$25,000 sawmill which is being erected at Swing

Point on the inlet. The channel from the sawmill to the main channel in Coos Bay will be one mile long.

### Grant's Pass Bank Enlarges.

GRANT'S PASS, Or., Feb. 8.—Josephine County is evidently prosperous. The Grant's Pass Banking & Trust Company, of this city, has added \$50,000 to its capital stock, put in a savings department and enlarged its offices by the addition

### Commencement at Monmouth.

MONMOUTH, Or., Feb. 10.—(Special.)—The baccalaureate exercises of the February class of the Oregon State Normal School occurred in the Normal assembly hall this morning. The school chorus sang "Mozart's 'Gloria'" from the Twelfth Mass, and Mr. Daughy sang Shelley's "Resurrection." The sermon was delivered by Rev. E. W. Mowbray, of Portland, and was a strong appeal for a clean, upright standard of intellectual Christianity. The graduating class numbers 14 members of whom five have completed the advanced course.

### On Monday evening occurs the commencement exercises at which Dr. Schafer of the State University is to deliver the address to the class. Monday morning the closing chapel exercises are held and in the afternoon of the same day occurs the class-day programme.

## A CURE Is What You Want

Others May Treat but We Cure

Our Fee \$10

In Any Uncomplicated Case.

Established 25 Years in Portland

NO PAY UNLESS CURED

Our cure is a thorough and scientific course of treatment, which acts at once upon the nerve force, stopping the drain and replacing the worn-out and run-down tissues. It increases the weight in sound, healthy flesh and muscles that give strength and fills the brain and nerves with fresh vitality, building up the entire system and transforming the sufferer into a type of perfect manhood.

CONSULTATION FREE AND INVITED. Write, if you cannot call. All correspondence strictly confidential, and all replies sent in plain envelope. Office Hours—8 A. M. to 8:30 P. M. Sundays, 9 to 12 M.
