

RED REVOLUTION SHOWS ITS HEAD

Great Demonstration Marks Opening of the Second Russian Douma.

WHIPS DISPERSE CROWDS

Forty Thousand People March Through St. Petersburg, Singing and Waving Red Banners—Opposition Controls Douma.

ST. PETERSBURG, March 5.—The opening day of the Douma or lower house of the Russian Parliament, although in itself devoid of incident, was made the occasion of a great revolutionary demonstration by the St. Petersburg proletariat and students, which resulted in several encounters between the police and the populace and more or less serious injury to a number of the latter.

It is observed that many notable men are refusing to take part in the government work on the ground that no arrangement official is safe in Russia today.

after full consideration it was announced by Professor Mikoff that no arrangement could be made so long as M. Stolypin remained at the head of the cabinet. The leaders of the opposition, who believe that what they call "the sacred anger of the people" will be aroused by the dissolution of the second Parliament, claim to have assurances that no further loan can be negotiated abroad without the consent of the Douma.

Count Witte is very pessimistic and fears the worst is yet to come. He thinks the masses have shifted considerably to the opposition during the last year, but doubts whether this will be permanent. His view is that they have learned a great deal in practical politics, and that anything like the universal strike of October, 1905, is now impossible.

The voting for a President of the lower house showed that the strength of the Conservative contingent has been somewhat overestimated. The monarchists and Octoberists being able to muster on a joint ballot only 102 out of the 126 votes with which the head of the Douma.

RAILWAY IN HARNEY

Surveying Crews Are Busy in Southeastern Oregon.

SHORT LINE MEN IN FIELD

Harriman Interests Seeking Entrance to Rich, but Undeveloped Section of the State—Five Crews Running Lines.

BURNS, Or., March 5.—(Special.)—The Oregon Short Line Railroad has five surveying crews in the field in this county locating the route for the Oregon Eastern. A line has been located from the Creek Gap to a point near the western boundary of Harney County. One crew is looking for a route through the Malheur Pass, going south of Malheur Lake, then across the narrow channel of the lake near the town of Narrows, and making a junction with the located line near Harney Lake. If the road is built where it is now being located it will miss this city about 30 miles and make the leading town of the county near the Narrows, which is well located to control the trade of a large farming and stock-raising district.

There are prospects of the railroad being completed to this valley within the next year, under the railroad company is only surveying the line to keep other railroads from invading the territory.

This is the largest district in Oregon without a railroad. A developed farming land than any other county in the United States. The vacant land is mostly owned by the Government and is waiting to be put up under homestead laws. There are several large valleys in the southern part of the county which are unknown to the people of the State and only a few stockmen are located there who own the land.

The farm land is vacant. There is no place in Oregon that affords better opportunities to the homesteader than Harney County, and with the prospect of an early construction of the railroad, Harney County will take its place among the most prosperous sections of Oregon.

QUITS PRISON A RICH MAN

Embezzler Adams Will Leave McNeill's Island Worth \$200,000.

Seattle, Wash., March 5.—(Special.)—When George Edward Adams, self-confessed embezzler from the United States Assay Office, gets out of the penitentiary at McNeill's Island, six years hence, he will be a wealthy man, having saved for himself about \$200,000 out of his peculation of gold dust from the pockets of the Alaskan miners, along with his investments.

The Government is in a peculiar position regarding Adams' case. Prosecution was brought against Adams and the Government has since been acting as a collector for the miners who were defrauded. With practically all claims filed, only \$42,200 has been claimed, and the remainder the Government cannot possibly hold, although evidence is conclusive that upwards of \$250,000 in gold dust was stolen by Adams.

Adams was working on a \$3000-a-year salary. At his rate of living when arrested, he would not have saved a cent in six years, but the Government will be obliged to turn upwards of \$200,000 over to him when he is liberated.

AUTO FUNERAL AT SEATTLE

Nervous Chauffeur Lets His Machine Crash Into the Hearse.

Seattle, Wash., March 5.—(Special.)—In accordance with Eastern custom, the funeral of Mrs. Haynie was held yesterday, not a cab being in the line. The move is not going to be popular, however, if the chauffeurs are to be believed, for they were all so nervous that it was impossible to keep in line, and the climax of the affair was reached when the driver of the palbearers' machine, in his anxiety to follow the pace of the hearse and to set a pace for the other fellows, crashed into the rear of the funeral car, smashing the glass in the doors and badly frightening the palbearers.

Kennedy Succeeds Slade.

ST PAUL, March 5.—H. A. Kennedy of Spokane has been appointed general superintendent of the Great Northern Railway to succeed George T. Slade, resigned. Mr. Kennedy will be succeeded by assistant superintendent R. W. Bryan, now master of transportation.

RUSSIA IS HIS SUBJECT

Dr. Moessohn Discusses Aspects of Situation.

At the Fourth Presbyterian Church in South Portland last night, Dr. Moessohn delivered the tenth of a series of lectures under the auspices of the South Portland Library Association. He chose for his subject "The Present Situation in Russia." Dr. Moessohn declared that the newspapers of America do not adequately describe the true condition of affairs in Russia. In order to comprehend the conditions there it is necessary to know the people by actual contact as he had done, he said.
