## . MOHAIR COMING IN

Several Thousand Pounds Reach Local Market.

PRICE OPENS AT 28 CENTS

Quality Is Fully Up to the Standard. Shearing Will Be General as

Soon as the Showers

Cease.

The Oregon mohair market for the 1997 ecosen has opened at 28 cents. Several thousand pounds have been received by Thro. Bernheim and the quality has been ound to be first-class, fully up to last car's grade. Shearing was well under way before yesterday's showers checked the work, but operations will be general as soon as the weather clears. A number of pools are being formed at Dallas, McMinnville. verton, Scio, Lebanon and other places in goat-raising sections where the hair will be offered in bulk as soon as a sufficient

on othered in only as an authent quantity is collected.

The Eastern mohair market is quiet. The Boston Commercial Bulletin of March Boston Commercial Bulletin Co quantity is collected.

The Eastern mohair market is quiet. The Boston Commercial Bulletin of March 9

is being done in the Yakima country.

Charles H. Green, of Boston, the representative of Koshland & Co., who last year bought the bulk of the Oregon wool clip, arrived in Portland yesterday. Mr. Green is of the opinion that prices in Oregon will open lower than last year.

wool now held there is comparatively small. The bulk of the Valley wools were sold some months ago. The late heavy transactions were in Eastern stuple and were at prices

iled. Some of the small grocers find it im-essible to buy butter here at any price. possible to buy butter here at any price. There is also a strong shipping demand from the North, but little progress can be made toward filling the orders. No butter can be safely brought in from the East, owing to the slow transportation, and the California market, while declining, has not reached the point yet where the Portland trade can buy there. The only thing that can be done is to spread the butter thin and make the heat of circumstances until the supply increases.

The cold nights of late have not been favorable for a larger yield of milk, but the time is about at hand where the conditions will be good for a larger production. It is not certain that the coming increases in the make will mean lower prices, for a LARD—Kettle rendered: Terces, 15c; tubs,

good outside inquiry can be expected for appet to have a less strenuous time of it before long and are therefore holding prices steady at 35 cents. Up on the Sound, where they are also having a butter ramine, the

12-cent orders for 1907.

Bananas and Oranges Arrive.

Four cars of bananas in satisfactory condition and one car of oranges were unloaded yesterday. The latter went but a small way toward supplying the strong demand. A car of celery is due today and tonight's steamer will leave a good assortment of California vegetables. Cabbage is in light supply, as good stock is hard to get. Shipments from Los Angeles are slow.

Metal Markets.

NEW YORK, March 13.—London tin market was fitted to the higher, with spot quoted at 1192 5s, and futures at 1190 15s. Locally the market was firm, with apply as good stock is hard to get. Shipments from Los Angeles are slow.

entative of Koshland & Co., who last year sought the bulk of the Oregon wool cilip trived in Portland yesterday. Mr. Green a of the opinion that prices in Oregon will pen lower than last year.

There have been some heavy transactions in Oregon wools in the Boston market of ate and it is believed the stock of Oregon cool now held there is comparatively smail.

The built of the Valley wools were sold some months ago. The late heavy transactions were in Eastern stuple and were at prices in the range of 22½ 625½ cents. About 2.500,000 pounds were incinded and the deats were closed by several firms. Buyers included large New England consumers and Philadelphia and other mills. Most of the sales were at 22½ to 22 cents, though 25½ cents was paid in some cases. Thus 300 bules sold by one concern is reported in the range of 21½ cents. About 72 cents is the indicated ecoured cost.

BUTTER PAMINE IN PORTLAND.

Creameries and Jobbers Can Fill Only a Part of Their Orders.

The butter question is becoming a serious one in the local trade. The supply of fresh creamery, while fairly large, as compared with previous years, is entirely inadequate as there is no storage stock. Gairy butter or California or Eastern product available. All classes of buyers are forced to buy either local or state brands of fresh creamery butter or go without The make of the city and nearby creameries is not surficient to supply the hig demand and many orders go unfilled. Some of the small grocers find it impossible to buy butter here at any price.

Brook in the value of the small grocers find it impossible to buy butter here at any price.

before long and are therefore holding prices steady at 35 cents. Up on the Sound, where they are also having a butter familie, the market has gone to 38 cents.

FGG MARKET IN GOOD SHAPE.

Shipping Demand Holds Up and Storage Operations Have Begun.

Between lighter receipts, a good shipping demand and some storage operations, the rag market is in botter shape with a firmer since. While only a few hundred cases have been put away, as far, the cooler business is likely to play an important part in the market from now on. Many egg bandlers believe the market will not decline further, but they do not look for anything but a temporary Easter advance now, for higher prices would check storing.

The poultry market was active with live chickens selling at top prices and the supply entirely insufficient. A little business was done in ducks, but there was no demand at all for goese or turkeys. Dressed shickens were also slow.

Less Activity in Hops, Operations in the hop trade have been on a smaller scale it the past two days, but the feeling in the country is very firm. Some recent busings has been done by Joe Harris and Julius Wolf, and it is reported that Shucking also made some purchases. A good many dealers have orders for 10-cent contracts, which they cannot fill since Lushmund & Fincus went latto the country with 12-cent orders for 1907.

Bannuas and Organe Assistant Show York, March 12 London tin market 12-cent orders for 1907.

in light supply, as good stock is hard to get. Shipments from Les Angeles are slow, owing to the Scarcity there, and not much of the San Francisco cabbage that is coming along is first-class.

Wheat Market Firmer.

The wheat market is very firm locally and dealers are pasting higher prices, as there is a strong shipping and milling demand, and the supply coming in from the country is entirely too small. dry Southern, \$25@26.

London Wool Sales.

LONDON, March 13.-A good amounting to 14,162 bales was offered at the wool auction seles today. Competition was opirited throughout. Scoureds and firm me-inos were in active demand for the continent and course cross-breds were taken freely by home buyers. Americans bought Fall lines of good greasy combines at full rates. The with-drawals were light.

Wool at St. Louis,

## **BAD DAY FOR STOCKS**

Market Breaks Violently Under **Enormous Selling.** 

MAY NOT BE AT BOTTOM

Crash Is Precipitated by Pressure on Money Market-Hill and Harriman Shares Are Very Heavy Sufferers.

NEW YORK, March 13.—The stock market was shaken into demoralization today by a course of liquidation which for violence and precipitation has not been equalled in New York for several years. The overwhelming outpouring of mecks came as a general surprise, as extensive progress was supposed to have been aiready effected in the necessary liquidation to meet the present situation. This supposition had been fostered by the action of the market for several days past, but apparently the exigencies of the money situation had been greatly unferestimated. Alarm for the adequacy of available supplies to meet in-mediate or early requirements was acute today, not only in New York, but in Lendon and Berlin. The contraction of oredits fell upon an unsuspected extension of speculative accounts, and they were indiscriminately forced to eale, apparently at any sacrifice. Banking credits were practically withdrawn from the stock market and borrowers were called upon to pay their obligations. At the same time bids in the market for stocks market in the forces were to be pay their obligations. At the same the ids in the market for stocks seemed to be withdrawn and prices were offered down points at a time beyond the absorptive demand. The immediate pressure on the money mar-ket, which precipitated this series of events. The immediate pressure on the money market, which precipitated this series of events, was attributed to the large demands converging upon the 15th of the present month. These include subscriptions to the new Chicago & Northwestern stock, to a Pennsylvania not issue and several large dividends, including the Standard Oil. Preparations for these payments were in force today and involved a higher money rate from the outset. The banking position was weak at the close of last week and the Sub-Treasury has taken from the banks since that time upward of \$4,000,000. The customs collections of the Government are running on a very large scale, but the banks are taking advantage of the new limit of \$8,000,000 to retire the full allowance, and deposits of money at the Sub-Treasury for that purpose are increasing largely the withdrawale from the banks. Meantime, the Treasury Department of circumstants. the banks. Meantime, the Treasury Depart-ment has given no intimation of an intention to use the new discretionary power of the Sec-retary to deposit customs receipts with the

rary to deposit customs receipts with the attornal banks.

London already was upset by the money tuation before the market operations began ore and as soon as the New York market bened, foreigners began to unload holdings are in a way that started prices sharply downere in a way that started prices sharply down-vards. The liquidation steadily gained in force through the accumulation of influences which follow insvitably from a violent decline in prices and the market became quite demor-tilized. Sesmingly the absolute necessity for further drustic liquidation became recognized. A feeling of hopelessness over any early mar-tet to insure the success of this operation prompted the spasmodic method pursued. The acute weakness of the Hill and Hairi-man stocks indicated that the semi-panic con-lition today was the aftergrowth of the in-

on today was the aftergrowth of the u died speculation in those stocks entered on last Fall and which has never been satupon last Fall and which has never been sat-isfactorily cleared up in the market since. Such a day as today must necessarily have ac-complished much towards the purpose. The violent rally in the latter part of the day in-dicated the cessation of the pressure, but the closing tone was exceedingly nervous and with some stocks at the lowest and others fast fall-ing back to their previous low levels. Union Pacific especially broke violently at the last, an extreme 11% below yesterday's

the last, an extreme 11% below yesterday's flual price. The fall in the Hill stocks was almost as violent, and in Residing reached over 12. St. Paul, Chicago & Northwestern, Camadian Pacific, Amalgamated Copper and Coldian Pacific, Amalgamated Copper and Col-orado Fuel fell upwards of seven points. The range of losses for practically all the active stocks ran from four to over stx points. The extent of the shock of such an enormous shrinkage of values is not to be estimated im-mediately. Even after the fall in prices is checked, important after effects of wide ex-tent are to be looked for. The nervous action of the market at the last left opinion entirely at sea as to whether the worst had been seen there or not.

there or not.

Kansas Crop Still Unharmed by Green Bug.

NEW YORK, March 18.—Closing quota- GIVES WHEAT MARKET TURN

Selling Becomes Free in the Chicago Pit and Prices Decline Sharply From Tuesday's Unusually High Level.

CHICAGO, March 13 -- While nume reports were received today of the ravreports were received today of the ravages committed by the "green bug," it was declared positively that the Kansas crop is still unharmed. Pit traders here placed more credence in the latter advice, and sold freely sli day. Local and outside longs also sold extensively, Rain was reported to be general throughout Kansas, and, as wet weather is said to be fatal to the "green bug," there was considerable selling on that account. The fallure of the Liverpool market to respond in any marked degree to yesterday's charp advance here was an additional bearish influence. The market closed weak, with prices close to the lowest point. May wheat opened unchanged to it lower at 78 is \$185c. sold off

the lowest point. May wheat opened un-changed to be lower at 78 by 78 bc, sold off to 77 by 77 bc and closed at 77 bc. Extreme duliness prevailed in the corn pit, and the market was weak in sympathy with wheat and oats. Leading commission houses were the principal sellers, and shorts were the leading buyers. The market closed weak. May corn opened unchanged closed weak. May corn opened unchanged to his lower at 47@ 47%c, sold off to 46%c Branch, 622 Montgomery St.

and closed at 46% \$40%c.
Onto were again sold heavily, and prices declined sharply. May outs opened unchanged to to lower at 41% \$41%c, declined to 40% \$40%c and closed at 40%c.
Provisions were weak on general selling. At the close May pork was off foc. Lard and ribs were down foc.
Leading futures ranged as follows:

London Financial Markets, London Financial Markets,

LONDON, March 12.—Consols today
touched low water mark, \$4%, being a
quarter of a point lower than was reached
in 190. Other gilt-edged securities were
depressed in sympathy, Operators attributed the decline to the scarcity and dearness of money and to the number of new
issues which are more attractive because of
the higher rate of interest.

Expectation that the United States will
shortly be in a position to take sold from shortly be in a position to take gold from this market led also to the fear of another advance in the Bank of England's rate of its count.

There was a relapse in Americans befo the close, and the market finished weak, Dried Fruit at New York.

NEW YORK, March 13.—Evaporated apples barely steady; fancy, 8% 69c; choice, 8685;c; prime, 7c. Prunes-California, 3 to 13c; Oregon, 5% to Apricota—Firm; choice, 18c; extra choice, 184618c; fancy, 196728c.
Peaches—Dull; choice, 11612c; extra choice, 124,613c; fancy, 125,613c; extra fancy, 125,613c; extra fancy,

Dairy Produce in the East. CHICAGO, March 13—On the Froduce Ex-change today the butter market was weak; creameries, 20020c; dairies, 20027c. Bggs-Steady at mark; cases included, 15½c; firsts, 16c; prime firsts, 16½c. Cheese—Steady, 14½-916½c.

NEW YORK, March 13.—Butter, ed un Bags Basy; Western firsts, 1716217%c.

New York Cotton Market, NEW YORK, March 13.—Cotton future closed steady; March, 9.49c, April, 9.32c May, 9.32c; June, 9.65c; July, 9.70c; Au-gust, 0.73c; September, 0.77c; October, 9.97c December, 10.06c; January, 10.24c.
