Higher Prices on Chinook Salmon Are Predicted.

## VIEWS OF LARGE HANDLER

Demand for Columbia River Fish During Past Four Years Has Exceeded the Supply-Conditions in Hop Trade.

A sharp decline in the opening prices of Columbia River canned salmon is predicted by M. W. Houck, a large New York handler of Const products, who recently paid a visit to this section of the country where he made a careful study of the situation and investigated the prospects of the coming pack. In an interview, Mr. Houck said of the general salmon situation: "I would not be surprised if red Alaska

salmon of 1907 packing should open at \$1.10 f. o. b. There is no stock to speak of ou he Coast, the entire holdings there pos footing up 150,000 cases. The cost of ing Alaska salmon this year will be ily increased by the advance in all sacking material and the higher wages for

the opening price on the coming pack will certainly be 3c to 10c higher on half-pounds, and at least 15c to 200 higher on one-pound talls and fists. One important reason for this will be found in the greater cost of ran fish. Heretofore the cold-storage peoave made 25 pounds the minimum weigh fish in making their purchases of raw stock, but this season, in order to get searer to meeting the demands made upon them by the growing consumption, they have reduced the minimum weight per fish to 20 pounds, and the resulting competi-tion between them and the packers means

The demand for Columbia River salmo during the past four years has exceeded the supply, and there is no probability that the balance will be restored this year."

### STEADY DEMAND IN HOP MARKET. P. R. G. Horst Rendy Buyer of Oregons a New York.

A fair amount of general inquiry is re-ported in the hop market and a number of deals were under way yesterday, but no large sales were reported

Mail advices from New York City said that spot Oregon hope were closely cleaned up with as high as 14c paid. P. B. G. Horst was the buyer and was bidding for further

scribed in the latest weekly circular of W. H. & H. Le May: "A few brewers, tempted by the low prices English hops are w offering at, have covered their require ments for a time, and never before have they been able to buy at prices now cur-rent after so small a crop as was picked ist season. Growers are most disheartened to the prospect and have little courage left

yesterday were A. J. Luce, of Onelda, N. Y., and Simon Uhimann, of New York City. Mr. Luce is a veteran hopman, who for years operated in Oregon bops, but has now re-dired from business. He is here on a pleasre trip. Mr. Unimann is a member firm of S. & F. Uhlmann and is making his annual tour of the country.

Other Markets Invade Producing Sections and Supply Falls Off.

Very few eggs were received on Front street yesterday, and as the demand was good, prices were again advanced. Extensive buying in the country by northern houses is held responsible for the light arrivals here. The butter situation is causing much anxiety on the part of the retail trade. at the creamertee nor on Front street can their wants be fully supplied and makers think the supply will soon be increased and for that reason have made no change in prices.

## Bananas Not in Best Condition,

Four cars of bananas arrived yesterday is only fair condition and one chilled car that was relected by the Tacoma consignee was cars of oranges arrived and another is due. today. Choice oranges are selling readily at

Cabbage was scarce on the street, but two cars are on the way and should arrive any time. Other truck was in but limited sup-ply and the demand was very strong.

## Potato Market Looking Better.

Pairly satisfactory conditions are again prevailing in the potato market. The San Francisco situation has improved and fancy stock, which is in light supply, is firmer there. Choice potatoes hold their own, owing to less pressure from the East. Dealers not look for any marked advance, as much higher prices would only bring more Eastern offerings. A few cars of Eastern Washington potatoes have been bought by a local abtomer for California account.

### EXPORTS OF AMERICAN HOPS. Paul Horst's Holdings Still Largely in This Country.

BOSTON, March 12, 1907 .- (To the Edi tor.)—Referring to your issue of 28th uit. In which you reprint issue of New York Commercial Bulletin of Feb. 23, referring to exports of Paul R. G. Horst's hops from to exports of Paul R. G. Horst's hops from Baltimore and Galveston, I herewith inclose the Deputy Collector's report of hops shipped from port of Baltimore from September 1, 1906, to March 1, 1907, which may refute same. Exports from Baltimore from September 1, 1806, to March 1, 1907, 770,237 pounds, which, reduced to bales of 190 pounds, equals 4200 bales, making a mere hagatelle of what hops the Horst interests have purchased.

Exports from Boston from September 1, 1906, are 310,041 pounds, equal to 1831 bales.

Exports from Hoston from September 1, 1906, are 310,041 pounds, equal to 1631 bales.

Exports from New York to March 1 are 54,000 bales, which goes to show that the Horst holdings must be very large Yours truly, Mr. Roberts incloses the following letters: Port of Baltimore, Md. NEW YORK. March 18. There was a parked abatement of excitement in the deal marked abatement of excitement in the deal-ings in tock today from the enormous trans-actions and wild prices of last week. The drop in the opening dealings here was wider than anticipated and had the effect of re-viving some of the excitement which pre-valled hat week. But it appeared that the wilder fluctuations were largely due to the exchanging of operations of a professional clement which had become habituated to free setten by last week's experience. ## PLANS PERMANENT FAIR

Scheme to Exhibit States' Resource in New York City.

NEW YORK, March 18.-A permanent National Fair to contain exhibits from every state in the union and to be housed in a \$14,000,000 building in this city, is being planned by some of the state societies having headquarters here. The pain in-cludes a continuous exposition comprising the best features of world's fairs of the past and also luxurious clubrooms for the state societies. Congress at the next ses-sion will be asked to appropriate \$5,000,000 toward this enterprise and each of the state legislatures will be asked for \$200,-000. The leaders in the movement, which began in the Michigan society, say they have already been assured by many members of Congress and by several state Legislatures of support of their plan and they believe they can carry it through. Robert C. Auld, a member of the Mich-igan Society, is one of the advocates of

igan Society, is one of the autocates of the plan. He said yesterday:
"The building will not only serve the practical business interests of the states, but it will at the same time be an endur-ing monument to the idea of statehood as conceived by the framers of the Constitu-tion. Once it is completed, no American citizen will die content without seeing it. tion. Once it is completed, no American citizen will die content without seeing it. It will advertise the existence of our ill advertise the existence of our monwealth too often forgotten, beyond the metropolitan limit."
William J. Worden, of Michigan, is

father of the project.

It was discussed briefly at a recent dinner of the Michigan Society at the Hotel Astor.

## Countess to Marry Gypsy.

VIENNA, March 18.—A sensational betrothal has caused a stir among the aristocracy here and at Budapast. It is that of Countess Ilma, daughter of Count Paul Festeties, to Rudi Nayari, first violinist of the Oldenburg Tsigane Band. The Countess is 24 years of age. She first saw Nayari at a band concert. She was then engaged to Count Siegmund Sprezzi, but she fell in love at first sight with the young yiolinist, who reciprocated her affection. When she returned to her mother, who was living in Oldenburg, she broke off her engagement with Count Speczi and was betrothed to Nayari at his own house. All the Gypsies in Olden-

WEAK SPOTS IN GOLDFIELD CALL.

Jumbo Extension, Blue Bull and St. Ives

Are Carried Down.

SAN FRANCISCO, March 18.—(Special.)—

Montana was a weak feature of the Tonopah, call, but Midway was stronger, with spirited bidding. Jim Butler sold down from 97c to 85c, closing at 98c hid.

Goldfields had some holding ground, but the weak spots were sufficiently large to make the market look bad to a majority of the traders. Jumbo Extension started at \$1.50, but was easily pounded down to \$1.40.

Blue Bull followed with a derline over the first price of SSc to a weak closing of 38c.

Silver Pick held a little stronger at Saturday's price and Columbia sold up a few points, but the bears centered an attack on St. Ives that carried its price down 14 points.

Atlanta held up well under an energetic effort to break the price and the usual amount of energy was used upon the Red Top Extension call, Daisy was weaker with small orders filled and Combination Frac-
