DEALS ARE PROFESSIONAL

Apprehension of Special Develop ments Overhanging the Market. Money Continues to Work Easier-Exchange Declines.

NEW YORK, March 20.—The action of the stock market today was accepted as a demonstration of the profound distrust of values which has resulted in the smash in values which has resulted in the amash in the securities market. There was a violent raily at the outset from the depression of yesterday and the fears which were so gen-cial yesterday that some important feature was imminent as a consequence of the stock market slump had subsided to a large ex-tent. Little was heard of yesterday's ru-mors, in fact. market slump had subsided to a large extent. Little was heard of resterday's rumors, in fact.

It became quickly obvious that the demand which put up prises was of a strictly professional character and that the highest prices were taken advantage of for the free marketing of stocks. In a few stocks this selling had the appearance of forced liquidation and it was taken for granted that further closing out of crippled accounts was in progress, it was not this, however, which had the most discouraging effect on speculative sentiment, Rather it was the prostration of the demand at any level of prices thus far touched. The supposition was induced that buying at the first declines, which were attributed to so-called bargain-hunters and which would be presumably taken out of the market, was in fast designed simply for a more profitable turn in the market on its first rebound from the violent declines. A deliberately downward movement seems to be feared more than the panic break for the greater lack of resiliency which it may show. The mysteries of the sources of enormous sales and the corresponding losses are not yet cleared up.

In today's market there was some fear that special developments overhang the market, with which it would still have to contend in effecting any recovery. Stocks which have lain dormant through all the disorder of the panic period, but which are nevertheless subject to altered conditions of value and credits, were under observation during the day. Explosive possibilities were suspected in at least one prominent stock.

explanation of this statement will say that I have been the busiest specialist upon this Coast, curing several cases to other physicians one. I began my practice with accurate knowledge concerning men's diseases, and my patients have received theroughly scientific treatment. I have not only treated them rightly, thus acquiring an abundance of the very best kind of experience—experience of positive value to those I treat and experience that enables me to offer cures with certainty of effecting them.

I Also Cure Promptly and Permanently

Varicocele, Hydrocele, Losses, Stricture, Contracted Disorders, Specific Blood Poison and all Reflex ailments.

You never find absurd or misleading statements in my announcements. I state nothing but the SQUARE, HONEST TRUTH.

My ability to cure those derangements commonly termed "weakness" has done more to extend my reputation as a specialist in men's diseases than any other thing. I was the first to discover that "weakness" is merely a symptom resulting from a chronically inflamed prostate gland, and that to remove this inflammation is the only method of permanently restoring lost vigor. To this day my system of local treatment is the only scientific one in use. In years I have not falled to effect a complete cure. There are two reasons for this: First, the unequaled effectiveness of my method; second, because I attempt to cure no incurable cases. My long experience enables me to recognize those that have passed into an incurable stage, and I treat only such as I know I can cure, Advice and Consultation Free
