Short Supplies Cause Some Creameries to Put Up Price.

RISE IS ONLY TEMPORARY

Egg Market Also Has an Upward Tendency, as Receipts Are

Light-Storage Deal on in the East.

sreameries that its top grade of butter will on advanced today to 37 he a pound. One of the uptown creameries advanced to this figure several days ago, but the other local creamerymen may they will continue quoting at the old price. Sic. On Front street this figure will remain the top of the market. The supply of butter in this city is very

short and those quoting the higher prices may they are justified in their move, while the others hold that the intenses of the season does not make it advisable to elevate prices now. There is no doubt that the supply will soon be increased, and the 37%c quotation may not hold for more than a week or two. It may be the means of bring-ing in a quantity of California butter which will be welcomed by some of the small traders who are now forced to do without

The erg market also has an upward ten dency in view of the lightness of supplies and the better demand, both locally and on cutside account. Some storage operations are under way on a small scale and it is probable that more eggs would be put away f they were avaliable.

The storage deal is making some headway in the East, where the opening occurred at 17c. On the subject the latest issue of the

ITC. On the subject the latest issue of the Chicago Packer ears:

Trading in eggs opened this week with heavy receipts and practically no change in prices compared with last week. If anything, there has been a reaction in sentiment so far as further declines in the market are concerned. The prevailing opinion appears to be that any further drop in prices will be unlikely, at least before Baster.

The egg-storing period for this season may be said to have begun this week, for stocks have been going into the coolers right along the past few days. Not much is being said about storing eggs and different firms are moving quietly and appear to be operating as they see all, regardiese of what others may do. Some sales are reported around ITc and over for storage packed what others may do. Some sales are reported around 17c and over for storage packed steck, while a good many other eggs have been put away at a little less cost for use in supplying the Easter trade. The general impression is that eggs costing from \$4.50 to \$5. per case, if of good quality, will show a fair profit in less than 40 days. But others that the view of the enormous production of eggs lower prices will develop shortly.

### GRADING OF THE MOHAIR CLIP. Not Compulsory on the Part of Members

of the Association. Regarding the grading of mohair, Secretary H. L. Fenton informs the growers through the Dallas Observer that the grading of their mohair for the 1907 pool is not compulsory. The hair will be sold in one pool as usual. The only object in asking the growers to grade their product, he says, is to raise the standard of the hair and thus obtain the best possible

The Corvalits Times says of mohair: Mohair is 28 cents in the local market and small quantities of it are already moving at that figure. Perhaps a cool 2000 pounds has been delivered to local buyers. On account of the cold rains, only a few small books have been sheared. The fatalities that securred from too carly shearing a year ago have caused growers to be more cautious on the point of an early clip.

## Effect of Washouts on Produce Trade

Yesterday's arrivals in the produce line arrive today. This supply of fruit and vegefrom the South by rail for several days to come. Some of the jobbers have been notified that they need not look for the resumption of rall shipments juside of 10 days, because washouts. Enough produce will be brought up by steamer to prevent a famine n any line, but stiffer prices are likely to prevall all through.

### Light Trading in Hops. Hop trading was on a limited scale yesterday, H. L. Hart bought a carload of Ya-

kimas at 10u and a 32-bals lot from A. P. Nolasa, of Newberg, at 7c, Cattin & Linn secured the Evans lot of 65 bales at Silverton at 0%c. ## DAMAGE BY GREEN

SHARP ADVANCE IN MAY WHEAT AT CHICAGO.

After Touching New Low-Record Mark at Opening, Prices Show Decided Strength.

CHICAGO, March 21.—The advance in wheat came after the May option had es-tablished a new low-record mark for the season by selling at 74%c. The low mark was reached within a few minutes after the opening on selling based upon extremely bearish reports. A moderate decline at Liverpool sided the opening decline. A sharp advance in corn and oats, however, soon was a more active demand for wheat and advance in corn and oats, however, soon caused a more active demand for wheat and resulted in a fair raily. The feeling developed into decided strength late in the day because of numerous advices from the Southwest telling of damage by the "green bug" and unseasonable hot weather. Shorts were the principal buyers during the last hour. The market closed strong, May wheat opened 14 % to 5 % \$\frac{1}{2}\$ % to 175% c. and then advanced to 175% c. Final quotations were \$\frac{1}{2}\$ % c up at 75% c.

Corn closed strong. Oats were firm all day on buying by cash houses. Provisions were weak. Leading futures ranged as follows:

## Matter of 25 Cents Starts Suit.

OREGON CITY, Or., March 21.—(Special)—Dispute over 15 cents has caused the Justice Court at Molalla to be the scene of a suit, where Charles Hall has commenced an action against Ralph Holman, who purchased three sacks of pota-toes from Hall at an agreed price of il-per sack. When Holman went after tife potatoes Hall informed him that the market price had advanced 25 cents per sack, and as Holman refused to pay, he brought

No Pay Unless Cured

OUR FEE \$10 in Any Uncomplicated Case

We do not treat all diseases. We treat men only, and cure them to stay cured. We challenge the world for a case of BLOOD POISON, NERVO-VITAL DEBILITY or ALLIED TROUBLES that will not readily yield to our treatment. To these maladies alone we have earnestly devoted our energies and claim advantages over other physicians in their treatment. If you have treated elsewhere without success you are especially invited to come and see us. We will do by you as we would want you to do by us if our cases were reversed. Our counsel will cost you nothing, and our cures are reasonable and within your reach. Physicians having stabbora cases to treat are cordially invited to consult us. Hundreds right here in Portland have recently been made well and happy by us, and chearfully commend our cures to their affilicted fellow-men, What we have done for them we can do for you. Every man needing medical attention should carefully read our specialties,

This Is a Message to Men

It is to men who want to feel like men, to look like men and act like men. This is to men who lack courage, whose nerves are shaky, whose eves have lost the sparkle, whose brains are muddled, ideas confused, sleep restless, confidence gone, spirits low and easily depressed, who are backward, hesitating, unable to venture because they are afraid of failure, who want somebody to decide for taem, who are weak, run down and restless. It is to men who have part or all of these symptoms and want new life, new force, new vigor—we offer to you a complete and LASTING restoration to perfect health and manhood. And the best part of it is that you run no risk in placing yourself under our professional care, for you can arrange to pay our fee after you are satisfied that you are permanently cured. If we did not have every confidence in our ability to cure, do you suppose that we could afford to make you the above offer? No honest man is too poor to take our treatment and be restored to perfect health, strength and manhood.

WE CURE SAFELY AND THOROUGHLY NERVOUS DEBILITY, BLOOD POISON, SKIN DISEASES, KIDNEY and BLADDER DISEASES and other SPECIAL DISEASES and their complications.

IF YOU CANNOT CALL, WRITE FOR SYMPTOM BLANKS. HOURS-8 to 5, 7 to 8:30, dally: Sundays, 9 to 12. Consultation free.
