STRONG WITNESS AGAINST HERMANN

Puter Shows Commissioner's Close Intimacy With Landgrabbers' Ring.

FRANK ABOUT HIS CRIMES

Admits Attempt to Bribe Grand Jury Through Brownell-How He and Hermann Cooked Up the

Latter's Evidence.

OREGONIAN NEWS BUREAU, Wash-OREGONIAN NEWS BUREAU, Washington, D. C., March 21.—8. A. D. Puter has fulfilled all expectations of those who brought him to Washington to testify against Binger Hermann. While not able to give any positive information as to the character of letters copied in Hermann's private letterbooks, he was both while and willing to give testimony which man's private letterbooks, he was both able and willing to give testimony which was of great value to the prosecution in its effort to show Hermann's motive for destruction of the books, and also testified as to the official character of letters which he received from Hermann, letters that correspond in every particular with the type of some letters admitted to have been copied in these private books.

Intimacy With Land Thieves.

Puter's testimony was chieffy valuable in showing the close relations that existed between Senator Mitchell, Commissioner Hermann and himself in transactions in the "seven-eleven" frauds, and he testified quite as damagingly in regard to Hermann's relations with Mitchell and Mays in the Blue Mountain case, Puter's statements on the stand this afternoon left a decided impression that Hermann' when Commissioner, was ready and willing to do the bidding of Mitchell and, on the other hand, was quite susceptible to other hand, was quite susceptible to influence of Forest Superintendent msby, an admitted accomplice of the

Weave Web Around Hermann.

By establishing Hermann's friendly re-lations with Mitchell, Mays, Puter and Ormsby and by showing that Hermann had considerable correspondence with these men that cannot be found in the official letter-books of the Land Office, the Government is wearing a tight web around Hermann and daily drawing it closer. The evident intention of the properties is to show by presenting as to closer. The evident intention of the prosecution is to show by preponderance of testimony of the adjudged land thieves that Hermann, if not a tool, was at least a dupe of the men behind Oregon's gi-gantic land frauds and then circumstanfially to prove that his private letter-books must have contained important correspondence with these men on mat-ters relating to their land transactions, orrespondence which is admittedly of of-ial character.

Puter today displayed the utmost frank-

ness, holding nothing in reserve and only once, when testifying as to the receipt of \$1000 bills from President Chaffee, of the First National Bank of Milwaukee, did he contradict himself. His memory as to the number of bills he received from Chaffee was fault and haffee was faulty and at various times

three to nine.

The point in his testimeny favorable to Hormano was brought out on cross-examination by Mr. Worthington, who secured admissions from the witness that all statements made in affidivits, proofs, ste., in connection with the seven" cases were false, but that nothing regarding the fraudulent nature of the transactions was stated by him to either Mitchell or Hermann.

PUTER MAKES CLEAN BREAST

Admits Attempt at Bribery and Fixing Hermann's Evidence.

WASHINGTON, March 21.—Again S. A. D. Puter testified for the Government in the Hermann trial regarding fraud and bribery in many land deals. Just as his 88-examination was closing Worthington for the defense asked:
"Were you ever promised immunity by
any representatives of the Government
for your testimony?"

To a certain extent I have been " was

Puter explained that after he had been convicted in the case in which he is now serving a two years' sentence in Oregon he had gone at once to United States Attorney Heney and offered to tell him all he knew about the land frauds. He had many conference with the land frauds. had many conferences with Mr. He as a result of which, the witness testi-

"Heney told me that, if I became a witness for the Government, he would not press these other indictments against me, but would have them dismissed when

the time came."

Puter said he received no special favors in Jall, but was locked in a cell as any other prisoner. He was a witness for the Government in land fraud cases in Oregon last September, and Mr. Worthington read from his testimony at that time a statement that he regretted he did not know more to tell about the Blue Mountain Forest Reserve deal. He said that Mays had not let him in on that deal, as he had been promised.

Tried to Bribe Grand Jury.

"Were you engaged in criminal opera-tions after your conviction and prior to your souteneer" was the next question of the cross-examiner. "Yes, to a certain extent, That is

was dealing in a great deal of state land with allexed fraudulent title." Questions by Mr. Worthington devel-oped that Pitter had not been asked about the correspondence he had with Hermann by United States attorneys until last January, although the witness said he must have told Mr. Hency about the letters or the Government attorneys would not have followed the matter up by com-

Can't Find Letters to Hermann.

United States Attorney Baker said a s point that a search was being made the letters written to Hermann by ter which had been referred to. Mr. Baker produced one letter writen by Puter to Hermann, taken from the files of the office, but which related to two timber claims. This was put in evidence by Mr. Worthington, who, after reading it, turned to the witness and asked:

"Was that deal crooked, too?"
The witness assented with a nod of his ead, but explained that it was of a different character than the other matters.

It was a timber claim, Mr. Worthington dweit some time on the statement of Puter that he had, while in Washington in 1902 regarding the March 12, included in land classed land and withdrawn from entry,

Commissioner Richards. To the direct question whether Hermann had not told the witness that the matter had been turned over to Richards and that he uld attend to the matter, the witnesswered in the negative.

Where He Got That \$2000.

Regarding the two \$1000 bills which the Regarding the two \$1000 bills which the witness said yearterday he gave the late Senator Mitchell to fix things regarding these claims, Mr. Worthington brought out the statement that the witness got them from Charles (haffee, president of the Wisconsin National Bank, of Milwaukee. The witness also said he had registered at various hotels in Washington under assumed names.

Fixed Hermann's Evidence.

Continuing his testimony in chief the morning. Puter said the land he obtained homestead patents to in the Cascade For-ext Reserve is all absolutely worthless, being 1500 feet up in the Cascade Moun-tains. He could get lieu land scrip from the Government for the land after patent.

After obtaining his patent to the "eleven After obtaining his patent to the eleven-seven" claim in 1992, 'Puter said he next saw Hermann in Oregon at the time the witness was being tried for land frauds two years later. He visited Hermann be-fore the latter testified in the case. He said they decided what would probably be asked of Hermann and the conclusion was reached that he would likely be

was reached that he would likely be asked to identify Mrs. Watson, who was in Washington with Puter when Puter met Hermann and made affidavits in the "eleven-seven" awards.

Puter said he suggested to Hermann that it was a long time since Hermann had seen Mrs. Watson and likely he could not identify her. At the trial, he said, Hermann was unable to identify Mrs.

Money He Paid Loomis.

Money He Paid Loomis.

The witness was then asked regarding the two payments of 800 he had made to Special Agent Loomis and regarding the representations he had made to Loomis about immunity. The payments were made by draft indorsed to Mrs. Loomis. Puter said he had talked many times to Loomis, advising him to tell all he knew. He told Loomis that as a special agent he had long been connected with the Land Office and knew things and, if he would tell the Government attorneys all he knew, he was sure they would he lenient with him.

The witness said he had no authority from the Government's attorneys to make

The witness said he had no authority from the Government's attorneys to make any promises to Loomis, but said the latter was an old man and he hated to see him convicted. Loomis, he said, was constantly referring to the two payments made to him by Puter and was very anx lons to know whether the Government attorneys knew of them.

His Letters From Hermaun.

Correspondence the witness has had with Hermann was the next topic of inquiry of Puter. He had written Hermann several times, he said, and received two several times, he said, and received two letters in reply regarding a township included in the Cascade Forest Reserve. The two letters from Hermann he had either left in his desk in the Berkeley, Cal., home, or packed in boxes and placed in his attic. He was allowed to say that the letters from Hermann told him to the letters from Hermann told him to get petitions signed and to see Forester Ormsby about the matter in question. Lawrence Puter, the brother of the wit-ness, had testified that he had made a search for these letters and could not find them and Mrs. Puter is now on the way-here to testify, according to United States Attorney Baker, that the letters cannot be found in the attic.

Puter dropped the proposition to get the lownship included because he could not buy the land he wanted in it from the Union Pacific Railroad.

Was in Blue Mountain Plot.

The witness was next allowed to iden the witness was next anowed to identify himself as one of the conspirators in the Blue Mountain Forest Reserve project, which be said was engineered through by F. Mays added, according to Futer, that "Mitchell will help me out and you know how Mr. Hermann stands in." Mays gave witness his telegraphic ad-dress as "Washington, care of Hermann." The trial was adjourned to Monday.

PROBES INTO TELEPHONE DEAL

Grand Jury Finds Stenographer Most Obstinate Witness.

SAN ERANCISCO, March 21 .- The grand ury today resumed its work of investigation of the alleged wholesale graft and corruption in the municipal affairs of this city and, after an all-day session with a brief recess at noon, adjourned tonight until II o'clock Saturday morning. No indictments were returned today. The entire day was taken up in probing fur-

ther into the alleged bribing of the Supervisors by the telephone companies, on which 27 indictments have already been based. The grand jury made a determined of

fort to trace the \$50,000 alleged to have been paid by T. V. Halsey, representing the Pacific States Telephone & Telegraph lompany to 10 of the Supervisors to arevent the granting of a franchise to the Home Telephone Company. For this purnose almost all of the officials and books of the Pacific States Company were taken before the grand jury by Secret Service Agent Burns,

Among the officials examined were Henry T. Scott, president; E. J. Zimmer formerly auditor, but now vice-president B. C. Carroll, general agent: John S. Curcompany. The last-named emerged from the grand jury room somewhat nervou and excited and assaulted a newspan photographer who attempted to take his picture. Mr. Scott was in the jury room but a few minutes and upon coming out declined to discuss the to limony given, beyond that he had "answered all ques-

tions put to him." Mr. Sherwin said he was requested to explain the bookkeeping methods of the copany; was asked about the various amounts on the books which were paid to Halsey, but declared that the accounts showed no such sum as \$50,000 or any considerable part as having been used or paid to the former general a Heney, explained his duties as secretary to Halsey, which consisted, he said, in
