

END OF WAR IN SIGHT

Hondurian Forces Whipped and President in Flight.

FALL OF CAPITAL EXPECTED

Nicaraguan Minister Reports His Countrymen Masters of Situation in Central America—May Recruit Fresh Forces.

MANAGUA, Nicaragua, March 24.—Sanctorum, Director General of the Telegraphs and Telephones, today made the following statement to the Associated Press:

"The Nicaraguan forces have captured Choluteca, Honduras, which was held by the Honduran and Salvadorian troops, and President Bonilla has fled by boat. Steamers will pursue the fugitive president. I believe the war is ended. The Government is without further advice concerning the capture of Choluteca, but details are expected shortly. It was here, some years ago, by ex-President Vasquez was defeated by allied revolutionists and Nicaraguans.

END OF WAR IS PREDICTED

Capture Hondurian Capital is Expected to Take Place Today.

WASHINGTON, March 24.—President Bonilla has fled from the battlefield and the Central American war has practically ended, according to cable dispatches received here today by the Nicaraguan Minister. The fall of the Hondurian capital, Tegucigalpa, tomorrow, is predicted by the Nicaraguan Secretary of Foreign Affairs Mr. Gomez. The cablegram from the Secretary of Foreign Affairs follows: Choluteca, taken, Salvadorian and Hondurian combined armies defeated. President Bonilla hidden in San Lorenzo with 200 men. Sent steamer to Tegucigalpa. Tegucigalpa will be taken tomorrow. General Bonilla, director general of telegraphs and telephones sent this message:

"It is my opinion that the war is terminated. Bonilla has fled from Choluteca to sail."

When shown the Associated Press dispatch tonight announcing that President Bonilla had fled from Honduras, Minister Gomez said he believed the fugitive president would go to Salvador and again recruit his army for a second invasion of Nicaragua, unless the United States and Mexico exercise their good offices to the extent of insisting that Salvador and Guatemala maintain neutrality. "If this is done Mr. Bonilla says the war is ended, otherwise he is firmly convinced that it will only be a question of a short time until hostilities are resumed," he said. The Nicaraguan Minister tomorrow will ask Secretary Root and the Mexican Ambassador Mr. Cretel to take some steps to force Salvador and Guatemala to keep their neutrality pledge.

LARGE AREA UNDER WATER

REPORTS AT SACRAMENTO FAR FROM ENCOURAGING.

Levees Crumble Away and Falling Barometer Gives Indication of Continued Rains in Valley.

SACRAMENTO, Cal., March 24.—The news from down-river points received by the Union today were far from encouraging. Saturday night levees crumbled and islands containing thousands of acres were inundated, while the people were yet battling to save them.

The situation today is pronounced as most desperate. Two feet of water was flowing through the streets of Ileson, and Courtland represented that it was feared the Person district would be gone before morning. Communication was cut off with Freport and Walnut Grove and it is thought there is a change for the worse all the way from Freport to Sherman Island. Everywhere the farmers are fighting against the highest water ever known and the prospect is for the complete inundation of the valley. Conditions on the Southern Pacific lines are much improved today and although much inconvenience and delay was occasioned a line was opened all the way from San Francisco to Ogden. It will be many days before traffic to Portland can be resumed, as there is a bridge out above Redding and several washouts.

AGENT TO HIRE FARM HANDS

Walla Walla Wheatgrowers Form an Organization.

WALLA WALLA, Wash., March 24.—(Special.)—An enthusiastic meeting of the farmers of the valley yesterday a farmers' labor agency was established and it was decided to pay the agent \$100 a month. This money is to be raised by contributions from the farmers themselves, those present contributing \$5 each on the spot for the support of the enterprise.

As the season gets older, the labor conditions are becoming more acute and the farmers are at their wits end for men to plant their crops, but it is thought that the means now adopted will be successful in bringing men from other points. It is the intention of the farmers to proceed energetically to work and advertise the needs in various centers of population.

ROUGH VOYAGE IN LAUNCH

Party of Drummers Have Narrow Escape From Newport Waves.

NEWPORT, Or., March 24.—(Special.)—The afternoon a party of traveling salesmen, while enroute from Toledo down to this city in a small launch, underwent a thrilling and dangerous experience which they will carry uppermost in their minds for a long time, and from which they were exceedingly fortunate to escape with their lives.

The party left Toledo about 10 o'clock A. M. The weather was wet and slightly breezy, making the trip down the Bay very disagreeable, but all went well, however, until a short distance above Newport, when a terrific southwest squall suddenly swept in from the ocean and within a few short minutes the hitherto comparatively calm water of the bay was whipped into a scene of wild confusion and the air laden with sheets of water that stung the face like a whiplash.

The frail little launch pitched wildly

about in the huge waves until it shipped enough water to put the gasoline engine out of commission and in this helpless condition was buffeted by the wind and waves, narrowly escaping capsizing repeatedly, until she was blown ashore on the beach in front of the residence of J. A. Olsson, where the badly scared drummers were successful in reaching terra firma, thankful that they were still alive.

It was largely due to the cool-headedness of Superintendent Lindton, the owner of the launch, that the little craft ever reached the shore.

The names of the party were D. Webster, Alf. R. Kelley, J. P. Burns, C. B. Prewitt, G. A. Cable, J. K. Pratt, C. G. Rawlings.

OTHER VESSELS REPORT GALE

Coquille River is the Only Craft Damaged.

ASTORIA, March 24.—(Special.)—All the steamers arriving today report encountering a terrific gale while coming up the coast, but aside from the steam schooner Coquille River, none of them suffered any material injury. The Steamer Rover which arrived today with the bark Rufus E. Wood in tow, has been off the mouth of the river since Friday morning awaiting an opportunity to cross.

The steamer Santa Ana reports sighting a square-rigger well off shore last evening. The vessel is supposed to be a loaded French bark.

RIVER HIGHWAY FOR LOGS

MAY OPERATE SPLASH DAMS IN NORTH YAMHILL.

Injunction Asked for by Trullinger Against Howe is Denied by Judge Galloway at McMinnville.

McMINNVILLE, Or., March 24.—(Special.)—Judge Galloway, of Department No. 2, of the Circuit Court, made an important ruling yesterday in the Trullinger vs. Howe case. The case is of special interest to the lumber interests of the state and to the northern part of Yamhill County.

The failure of all the aims to which he had concentrated his life permits the country to judge him without rancor. His death is accepted as the boundary between the sombre epoch when its guidance was supreme and the new era of liberty against which he fought inexorably, the sign of a complete triumph.

Trullinger, who runs and operates a flour mill about four miles from Carlton, sought an injunction against W. A. Howe, alleging that the dam, which Howe had filled up his millrace and the logs had broken down his dam.

The case involved the questions whether Trullinger would have a right to maintain a dam to divert water for power purposes; whether he could acquire a right by prescription to maintain a dam across the stream; whether Howe could use splash dams in the mountainous region for the purpose of assisting in driving logs upon the stream.

In deciding the case the court held that the North Fork of the Yamhill River is a navigable stream for the purpose of carrying logs to market and finds that since 1854 the stream has been used for the purpose of carrying timber and other merchant stuff to the Willamette and open markets.

The court further found that Trullinger cannot acquire any right by prescription or lapse of time for obstructing the stream and can only maintain such a dam as will permit the free use of such stream as a public highway.

The decision of this case is most important. It means that the lumber which could be brought out of the mountains by this means only, 9000 acres of this timber is owned by Howe, which he desired to bring to his sawmill at Carlton.

HOSE FAIR A BIG SUCCESS

Fine Stock Exhibited—Prizes Awarded—Address by Fulton.

WOODBURN, Or., March 24.—Notwithstanding the inclemency of the weather there was a large attendance at the horse fair in this city. Much interest was manifested in the different classes on exhibition today. The prizes were presented when all the studs were congregated. The committee in charge of the successful fair were:

President, James H. Broadhead; Secretary and Treasurer, Gregory Relling; Grand Marshal, R. M. Hickox; Judges, Alex. Lafolette, J. Wheatland, Charles Clancy of Seattle and B. G. Boedigher of Salem. S. A. Miller's 2-year-old black percheron Veronah, Aurora, was the best in the class. Black percheron class prizes were awarded as follows: Piston, Ziegler and Brown, Gervais, 1st; Haladour, S. A. Miller, Aurora, 2d; Castel, G. W. Speight, 3d; Shire and Clyde class: Black Shire, Roosevelt, P. L. Kenady, Woodburn, 1st; Clyde, Dupont, D. M. Dryden, Woodburn, 2d; Standard trotter: Broadhead, A. Frate, Vinmont, G. C. Pendleton, 3d.

The afternoon's programme consisted of a parade of all stock and speaking in the afternoon. The speaker was Senator Charles W. Fulton.

CITY OF COLFAX FLOODED

Jam of Logs Causes Dike to Break and Water to Enter Streets.

COLFAX, Wash., March 24.—(Special.)—High water and a log jam in the Palouse River in North Colfax today caused the dike above the dam to break and property in North Colfax was flooded. Several houses had a foot of water in them. The Potlatch Lumber Company float logs to their Colfax mill down the Palouse River from Idaho. The late rains and the log jam caused trouble. At a late hour the river is lowering.

Owls Will Make List 23.

HOOD RIVER, Or., March 24.—(Special.)—Official Organizer George Maran is here endeavoring to form a lodge of the Brotherhood of Owls. He says that he recently formed a strong lodge at The Dalles, and thinks he will meet with success at Hood River. Should the lodge be organized, there will then be 23 organizations of a beneficiary or fraternal nature in this city.

Astoria Will Debate Eugene.

ASTORIA, Or., March 24.—(Special.)—Team Guillaume and Misses Jennie Jeffers and Dixie W. today selected in Astoria the Astoria High School at a debating contest with the Eugene High School to be held at Eugene on April 10. The question is, "Resolved, 'That the United States should no longer maintain the principles of the Monroe Doctrine.'"

Judge Harris Will Preside.

McMINNVILLE, Or., March 24.—(Special.)—Judge Galloway, of the Second Judicial District, because of the necessity of his presence in Tillamook, will not hold court in Albany, and Judge Harris, of the Third District, will preside in his stead.

Cathartic or purgative pills do more harm than good. Carter's Little Liver Pills do a good deal of good. A large amount of that. Only one pill a dose.

TRIBUTE TO TYRANT

Russian Press Pays Respects to M. Pobedonosteff.

HE FAILED, HENCE PRAISE

Spoken of as Man of Irreproachable Personality, Devoid of Selfish Motives—Most Dangerous Enemy to Liberty.

ST. PETERSBURG, March 24.—The newspapers today call attention to the death of M. Pobedonosteff, ex-Procurator-General of the Holy Synod, and unite in appreciation of his commanding personal qualities, irreproachable character, indefatigable energy, deep erudition and great power of mind and will, by reason of which he was a dangerous enemy to Russian liberty.

The failure of all the aims to which he had concentrated his life permits the country to judge him without rancor. His death is accepted as the boundary between the sombre epoch when its guidance was supreme and the new era of liberty against which he fought inexorably, the sign of a complete triumph.

PAST SUPREME REGENT OF ROYAL ARCANUM ARRIVES TODAY.

Judge S. M. Lindsley, of Utica, N. Y., Past Supreme Regent of the Royal Arcanum, arrived in Portland yesterday. A reception will be tendered him by the members of the Multnomah, Oregon and Willamette Councils in the K. P. Hall, Eleventh and Alder, this evening. Willamette Council will initiate a class of candidates on that evening. Judge Lindsley will deliver an address, as will also local members of the order. Judge Lindsley is making a tour of the Pacific Coast in the interests of the Royal Arcanum. Last Friday he installed the Grand Council of Washington, and Tuesday, April 2, he will officiate at the same ceremony in San Francisco.

TWO KILLED BY DYNAMITE

Workmen Lose Lives in Explosion at Huntington.

HUNTINGTON, Or., March 24.—B. Almon and A. Garra lost their lives last night by the explosion of 200 pounds of dynamite at Goulsmith & McDonald camp.

GILLETT REFUSES TO SIGN

Governor Objects to Bill for Standard Insurance Policy.

SAN FRANCISCO, March 24.—Governor Gillett has refused to sign a bill passed by the Legislature providing for standard form of insurance policy.

HEARD IN THE ROTUNDAS

Judge S. M. Lindsley, of Utica, N. Y., Past Supreme Regent of the Royal Arcanum, arrived in Portland yesterday. A reception will be tendered him by the members of the Multnomah, Oregon and Willamette Councils in the K. P. Hall, Eleventh and Alder, this evening. Willamette Council will initiate a class of candidates on that evening. Judge Lindsley will deliver an address, as will also local members of the order. Last Friday he installed the Grand Council of Washington, and Tuesday, April 2, he will officiate at the same ceremony in San Francisco.

INCOLN STEFFENS, of the American Magazine staff, who is now a guest at the Hotel Portland, drifted into the newspaper business, from whence he graduated into the magazine through the channel of a young man, he was made to hustle for himself and to gain a livelihood he took to the newspaper business, which was his stepping-stone to success.

Mr. Steffens comes of splendid parentage and his family has always been well-to-do. He graduated from the University of California in 1888 and then went to Europe, where he completed his education in various universities.

When he had come to the conclusion that he had had enough of Europe, he returned to the United States, intending to visit his father, who was in New York a check was awaiting him and also a note from his father, saying that from then on he would have to take care of himself.

The father recited in the letter that he had given the young man every advantage and every opportunity to equip himself with the world's knowledge and that his idea was to send him to the University of California in 1888 and then to Europe, where he completed his education in various universities.

INCREASED MEAT EXPORTS

Total Value of Products Sent Out Last Year \$250,000,000.

WASHINGTON, March 24.—The total exports of meat, dairy products and food animals from the United States last year aggregated over \$250,000,000 in value, according to a statement issued today by the Bureau of Statistics of the Department of Commerce and Labor.

This represents an increase of \$7,000,000, or 2.8 per cent, during the decade from 1886 to 1906. More than 60 per cent of last year's exports went to the United Kingdom. Of the \$250,000,000 worth of meat, dairy products and food animals, \$18,000,000 was in live animals, \$38,000,000 worth in lard, \$38,000,000 in bacon, \$28,000,000 in fresh beef, \$21,000,000 in hams, \$18,000,000 in oleomargarine, \$14,000,000 in pork other than bacon and hams, \$4,500,000 in butter and \$2,500,000 in cheese.

TO INCREASE DIRECT TAX

Minister of Finance Defines French Government's Policy.

LYONS, March 24.—Minister of Finance Callieux made a great speech here today defining the government's economic policy as directed toward the gradual diminution of indirect taxation and the substitution of a direct tax proportionate to the means of the taxpayer. The income tax, he said, was the first great step in this direction. He was willing to modify the measure, he declared, if it did not pretend it could not be improved, but he insisted that the principle remain intact.
