Board Forbids Gambling at CITY MAY BUILD FUEL YARD State Fair.

RACING BETS MUST CEASE

Superintendents of Various Departments Are Named, and Work on Buildings and Grounds Will Commence in Near Future.

SALEM. Or. March 27.—(Special.)— There will be no poolselling or gambling of any description allowed at the State Fair this year. This was the decree of the State Agriculture Board at the meeting today. The members have arrived at this decision after a lengthy discussion, and base their arguments against it on the fact that Illinois, Iowa and Minnesota eliminated gambling from their

state fairs and they have proven best as general financial successes.

All of the superintendents of the different departments of the fair were appointed at this afternoon's meeting, as follows: Pavilion, W. H. Savage, of Corvalifs; ladles' waiting-room, Mrs. E. A. Holton, of Salem: poultry department, S. C. Shelhous, of Portland, ex-secretary of the State Poultry Association: ticket department, Frank Lee, of Portland; forage, T. Beckwith, of Jefferson; camp-mds, Albert Tozier.

The American Shorthorn Breeders' As-The American Shorthorn Breeders As-sociation of Chicago, has offered 3309 in cash prizes, and the Angora Goat Associ-ation of Kansas City, besides the cup entered, has posted 350 in cash prizes, The bar privileges have been awarded W. Ayres, of Portland, at \$200 per day, The work on the buildings and grounds will begin as soon as the organization is completed.

Tangle in Building Affairs of Idaho College.

MOSCOW, Idaho, March 27.—(Special.)—The Board of Regents of the University of Idaho are in session here and are endeavoring to unravel the tangle in the affaire of the new Agricultural College building. The contract for the completion of this structure was let to Colson & Son, of Spokane. The building is not quite completed, and there remains due the contractors upon its completion 28337.

Against this amount there are claims for labor and material amount-ing to \$14,000, or enough to pay 42 cents on the dollar. The board pro-poses to pay the labor claims in full and 42 per cent of the claims for ma-

and 42 per cent of the claims for material. The holders of these claims talk of throwing the contracting firm into bankruptcy.

One of the developments of the meeting is the fact that Colson & Son, who were also awarded the contract for the foundation of the new administration building at a cost of about \$25,000, have given no bond, although about one-third of the work is done. NOT MUCH ILLEGAL FISHING

Rumors Disproved by Oregon Fish and Game Association,

In regard to the constant rumors that have been affoat to the effect that mountain trout were being caught out of sea-son, Secretary Albert E. Gebhardt, of the Oregon Fish and Game Association, said: "Constant rumors have reached me con-cerning the catching of trout out of season, but every rumor which has been followed up has been found to be without foundations. It is almost impossible to catch trout at this season of the year at any rate, and I do not believe the law is being violated to any great extent.
Deputy game and fish wardens are patroling the streams but have been unable to
discover any violation of the fish law.
The law permits the catching of salmon trout the year round within tide-water limits and this is probably the cause of false reports being circulated." A move has been started by local mem-bers of the Fish and Game Association

to secure the consent of the Park Board to establish a small mountain trout hatch! ery in the Forestry building at the Lewis and Clark Fair Grounds. Secretary Geb-hardt has volunteered to get the eggs if the use of the building can be secured.
