DOCTORS EXPECT HARVEST

BAD SEASON FOR CATARRH THIS SPRING. Some Timely Advice on How to Prevent Falling Victim to This Disease Given by an Expert.

Unless all signs fail, this will prove a hard season for those who are subject to catarrh of the bladder.

The coming months will be a harvest for the doctors and patent medicine manufacturers, unless great care is taken to dress warm and keep the feet dry.

This is the advice of a well-known authority and should be heeded by all who are subject to rheumatism, kidney and bladder troubles, and especially those who are afflicted with catarrh of the bladder.

These are mostly vegetable ingredients and can be obtained from any good prescription pharmacy at small cost.

The Compound Kargon in this preparation acts directly upon the eliminative function of the kidneys to make them filter and strain from the blood the poisons which produce all forms of catarrhal affections.

This prescription makes a splendid remedy for all forms of blood disorders and such symptoms as lame back, bladder weakness, and rheumatism pain are entirely dispelled.

It is seldom that the sufferer experiences a return attack within the year.

It is a thoroughly reliable source, and should be heeded by every afflicted sufferer.

Judge My Ability By My Success

I do not wish people to judge my work merely upon what I say about it. I want them to note the evidences to prove my statements correct. The proof of a physician's ability is to be found in the results he obtains, and though I am not at liberty to supply individual names of patients as references, the marks of superior skill and service are so prominent and conspicuous as to render my doing so unnecessary.

Sixteen years of success and constant growth of practice is certainly a practical demonstration that argues the merit of my work. Estimate for yourself my volume of practice as compared with the practice of other Western specialists. Is there the slightest probability that if unable to back up all my claims, I would have won and retained the foremost place among physicians treating men? Could I fail to cure and yet succeed as I have? Have you ever heard of promise of mine remaining unfulfilled, or of one of my patients being dissatisfied with the treatment received? Consider these things and then come and talk with me in regard
