COOS BAY GROWING FAST

Judge Schlbrede Says Coal Region Is Filling With Newcomers.

Judge C. A. Schlbrede, of Marshfield,

is at the Perkins. Asked about matters in the Coos Bay country, he said: "The whole Bay country is improving. The great difficulty at this time is to get houses built fast enough to accom-modate the people who are settling in the Bay towns. Newcomers are agriving on every boat, from all parts of the country. Montana, Idaho and Oklahoma are especially well represented by recent arrivals. Many of these people have means, and are investing in town property, while others are buying farms, improved and unimproved. Real estate is moving at a good rate, and many transactions are taking place. Values are increasing all over the country." every boat, from all parts of the country

Judge Schibrode said that since the trouble experienced by C. E. Loss, the contractor, who was building the South-

ern Pacific Company's branch line from Drain to Coos Bay, that not much is known about the road work. "It is reported," he said, "that there is a force of men engaged in tunneling through a mountain below Elkton, by which a considerable distance will be

saved on the route." C. A. Smith, a Minneapells millionaire, has bought the Doune Lumber Company's mill at Bay City, and will remove the machinery to Marshfield, where a mill to cost \$25,000 will be built and equipped to handle the lumber business of that sec-tion. WORK FOR NEW COUNCIL

Much work is in store for the new Council for St. Johns, and the prin-cipal business will be to get the City Hall finished. Mayor-elect Couch said he would look into that subject at once and start the machinery in mo-tion for completion of the building. According to Engineer C. L. Goodrich, the city is not in any danger of sus-taining loss on account of the failure of contractors Youngferdorf & Son, but it is understood that there are a good many unsettled bills for material that somebody will have to pay. The city has pald out on the building \$2000 and the contract for Youngferdorf & Son was nearly \$8000, so that the city has \$5000 with which to settle accounts with. But the people have become tired of the delay in the erecbecome tired of the delay in the erection of this building, and expect the new administration to complete it at once. Mayor Couch is a business man and the people elected him because it was considered that he would look after affairs of the city very much as

he does his own.

Much censure was piled on the present city government for the reason no clear financial reports were ever made showing receipts from all sources and disbursements, together with the bal-ances in all the funds. The charter is very clear on this subject. Several reports were made, but none was conclusive, for the reason there was no co-operation between the departments of the city government. The City Treasurer, who is the custodian of all funds, is being urged to make a report showing receipts, disbursements and cash on hand in all the funds. He was re-elected for the new term.

The Council will have few new men. B. T. Leggett, W. H. King, W. W. Raser and S. L. Dobie have been mem-bers before. Mr. Leggett served as Councilman during the time W. H.

Southern Pacific Said to Refuse to Promote Members.

S. Palmer general superintendent demands made by the telegraph operators, by W. S. Palmer, general superintendent of the company. Palmer, in response to a question by Stanley Moore, spoke for two hours and ten minutes. He said: "The policy of the Southern Pacific can be expressed by the instructions which were given by our present general manager over a year ago to the end that no dispatcher or employe of any description could expect promotion to an official position as long as he retained his connection with a labor organization, and that so far as that is concerned, the man would not be allowed to resign in order to get that promotion at that time; that he must show his willingness to take the side of the company as against an organization, or to be absolutely independent. It is not taking sides so much as it is the independence of the man."
