MAKES ROBBER RUN

Mrs. Sherlock Meets Armed Intruder on Stairs.

WOMAN ALONE IN HOUSE

She Screams and Burgler Escapes Through Side Window-Neighbors and Police Come Too Late to Be of Aid.

Mrs. William Sperlock encountered masked and armed burgiar at the top of the stairs on the second floor of her home. Twenty-first and Washington streets, at 16 o'clock last night. She screamed, frightening the intruder, who turned and fied, making his escape. She was alone

in the house.

Neighbors heard Mrs. Sherlock's cries
for help and rushed in. The police were
notified and Sergeant Cole dispatched Pothemen Endicott, Graves and Fitzsim-mons. When they arrived at the scene quiet reigned, the burglar having van-tehed in the darkness fully 10 minutes be-

They took no part in the search for the burglar. Mrs. Sherlock had been visiting at the esidence of William Otto Breyman, adresidence of William Otto Breyman, adjoining her home. Upon her return to her house she went upstairs to her bedroom. Soon she heard a noise, as though some, one was walking softly upstairs. She went out to investigate and met the burglar face to face. Her piercing scream unnerved him, and without uttering a

unnerved him, and without uttering a word he turned. Leaping down the stairs several steps at a jump, he dashed out a window at the north side of the house and was gone before a telephone message was sent to the police.

The éntire neighborhood was aroused, and the Sherlock home was soon filled with friends, anxious to assist in a capture and to calm Mrs. Sherlock's fears. Among those who reached the house on short notice were Oskar E. Huber and William Otto Breyman. When they rang the bell at the front door, Mrs. Sherlock discovered for the first time that the burgiar, after entering, had taken the precaution to boil the door. Mrs. Shorlock was able to give the po-

lice only a meager description of the bur-glar. She said he were a white mask and carried a revolver and the police beto rob P. C. Patterson in his house at 71 Everett street Tuesday night, when E. C. Giltner, his brother-in-law, fired several shots at them. No valuables were

missed last night.

Owing to the frequency of burglaries and hold-ups in the Nob Hill district recently, the residents are terror-stricken. Women and children are especially nervous, and the matter has become so sharming that a special officer has been engaged to be on guard.

ANNUAL MEETING IS HELD Women's Missionary Society of Portland Presbytery Elects Officers.

The annual meeting of the Women's Missionary Society of the Portland Pres-bytery was held yesterday at the Mar-shall-street Presbyterian Church. The session lasted all day. The meeting was one which showed cause for congratula-tion to the workers, who have accom-plished much during the past year. Full reports of the work were received and much enthusiasm was manifested by the bers. There was a large attendance. Reports of the treasurer show that \$6625.83 was raised during the year for missions. Efforts will be concentrated during the coming year by the society on aiding the 120 boys and girls of the Sitka Training School. Clothing and money has been sent to these pupils dur-

Finding that the Council would not assist, it was decided to obplace the petition on solid ground again. A meeting of the Municipal League was held last night at which a plan of action for today was mapped out.

Francis L McKenna, father of the ordinance, Samuel Connell, A. S. The petitions are public records and anyone can obtain permission to examine them by calling at the City Auditor's office. They believe that some person reporting the liquor interests stole the signatures while pretending to examine

The first Mr. Devlin heard of the charge ade against his office was last night. He had heard Councilman Wills talking about the "steal" in the Council, but thought that the petition had been interfered with before it reached his own hands. Mr. Rader had not said anything to Mr. Davlin about the missing signatures.

Mr. Rader told the members of the Municipal League last night at the special meeting that the petitions were taken to the office about a month ago in two bundles. Later he said eight or nine sup. plementary petitions containing about 100 names each were sent to the office. Mr. Rader said that when he made the count resterday afternoon there were in the & Power Company, who was president vault but the two bundles originally filed and two or three of the supplementary at the mortuary chapel in Oakwood cem-

Devlin Aids in Search.

Mr. Devlin was called up by telephone and consented to make a search for the missing signatures. With Mr. Rader, Mr. Pattulo and several others, he searched the vaults. Besides the two bundles of petitions, 16 supplementary petitions were located and about 1830 names at the mortuary chapel in Oakwood cemetery. Mr. Goode died Easter Sunday at Atlantic City, 'N. J., and his body was immediately forwarded to Chicago, arriving last night, being taken at once from the train to the cemetery waiting vaults. Mr. Goode had many relatives and friends in Chicago, and the funeral services were attended by quite a large number, relatives and friends gathering at the Vendome Hotel in Woodlawn and taking carriages thence to the cemetery chapel. LOCAL OFFICIALS AT SEA

Receive No Information From East ern Headquarters of Portland Railway, Light & Power Co.-Fuller or Reed?

Who is to be H. W. Goode's successor as president of the Portland Railway, Light & Power Company? is a topic of speculation just now. The position is an important one, not only for the company, but also for the public, since the company is the biggest public-franchise corporation in the city. In some quarters it is believed that F. I. Fuller, vice-president of the company and manager of the of the company and manager of the street railway division, will succeed to Goode's place, and in others that S. G. Reed, treasurer of the company, is the likely appointee.

Local officials say they have no knowledge as to who will be placed a local threasurer.

Local officials say they have no knowledge as to who will be chosen, since the selection will be made by the chief owners, E. W. Clark & Co., of Philadelphia, and J. & W. Seligman & Co., of New York, who consolidated last year the Portland Rallway Company, the Oregon Water Power & Rallway Company and the Portland General Efectric Company into the company of which Mr. Goode was president. The consolidation has been practically accomplished for some time, and the constituent companies will be disand the constituent companies will be dis-solved completely within the next 60 days. Said a man prominently connected with the consolidated company vestorday:

"The head authorities of the company, in New York and Philadelphia, may be considering the selections of a new york."

In New York and Philadelphia, may be considering the selection of a new president; quite probably they are. But I think I am right in saying that no word of their decision, if they have made any, has come to Portland, nor any word of what they have in mind. It may be that they will pick out a Portland man. But that is not at all certain, as I view the matter. They have filled other positions in the company with outside men, and might do the same as to the presidency. Nor do I think any local official would feel piqued by not being promoted to that feel plqued by not being promoted to that

place.
"In justice to Mr. Fuller and Mr. Reed, it should not appear that either of them expects to be advanced to Mr. Goode's place. Doubtless either would like to be advanced, but they are doing nothing to

"A new president may be chosen soor or the selection may be deferred a con-siderable length of time. It is not absolutely necessary that a president be ap-pointed at once. DEMONSTRATIONS BY COOPER IN ST. LOUIS REMARKABLE.

Young Man Gives Sample of the Work Which Aroused Eastern Cities.

ST. LOUIS, April 3.—On Wednesday afternoon some remarkable demonstrations were given in public by T. L. Cooper, or the "Great Ceoper," as he is called, who is introducing for the first time in St. Louis the preparations which created a sensation in Eastern cities.

Gooper, or the "Great Ceoper," as he is called, who is intreducing for the first time in St. Louis the preparations which created a sensation in Eastern cities.

The demonstrations took place at Mr. Cooper's headquarters and were witnessed by several bundred people. As nearly as could be learned the facts were these:

At 3 o'clock in the afterneon the young man agreed to show what one of his remedica would do for deafness, and agreed to make any one present who was afflicted with deafness hear again in less than three minutes.

There were many deaf people present and about a dozen of these were given the demonstration, consisting of a single application of one of the Cooper preparations.

The hearing of these people was then tested after an interval of between two and three minutes. The test consisted of questions put to them in an ordinary conversational tone at distances varying from five to 30 feet. The results were remarkable in the extreme. Some of these people who were treated had been deaf for a number of years. When the first question was asked a look of annazement would spread over their faces and they would forget to answer the question. As the questions were repeated the surprised look would give way to one of delignt. Many were so affected that they burst into tears and were scarcely able to answer the question.

In no single instance, so far as could be learned, would an individual fall to hear. Many were able to hear a finger snap at a distance of 30 feet. At the request of Mr. Cooper questions were put to them by their friends or by various spectators in an ordinary tone of voice and the questions were really answered.

Work of Rescue. NEW YORK, April 2 .- Fire caused by a spark from one of the boiler-rooms in the excavation for the McAdoo Tunnel terminal at Dey, Fulton and terminal at Dey, Fulton and Church streets, early this morning, did damage estimated at \$50,000 and a delay of 30 days in the completion of the work of the huge terminal buildings will result. Five men were injured during the progress of the fire by being caught in one of the deep caissons, two of them so seriously that it was necessary to take them to a hospital. Those severely injured are: John O'Hara and Edward Murphy, tun-Church Hara and Edward Murphy, tun

There were many thrilling rescues and several instances of personal bravery during the progress of the fire.
