High Prices Ruling in the Cereal Markets.

ANOTHER WHEAT ADVANCE

Oats and Barley in Firm Position and Supplies May Be Exhausted Before New Crop Comes On.

the Northwest are going to see very firm prices in all lines, except wheat, a general unexpected developments should occur. Farmers' reserves of wheat would also be materially reduced if the railroads would ealy do their share. There is an abnormal demand in the cereal trade and nothing to prevent the greatest prosperity to growers

in the movement of wheat from the interior the quantity coming in does not keep pace with requirements and there is prac-tically no spot wheat available. Orders are coming in from the Orient for both wheat flour and the competition by miller and exporters to secure supplies has lifted hides, 14. There is also a strong demand from Callfornia for wheat, but owing to the freight engestion on the steamers, this inquiry can only be partially taken advantage of.

Supplies of both oats and barier are greatly diminished, and it looks as if the can who is carrying stock at the end of the season will find it a profitable load. There is a good demand in the country, particularly in the Palouse section and around Walla Walla, for feed and prices above the Portland basis are being of there. Instances are numerous where farmers have gone into the market and paid several dollars a ton more for and paid several dollars a ton more for grain than they sold the same produce for the first state of the same produce for the same produce for the same produce for the same months age. Rolled barley is in particular demand and large quantities are being shipped to Valley points. While still fairly pleutiful here, barley supplies are the same produced by the same p fairly plentiful here, barley supplies are entirely exhausted in some of the consuming districts. Offerings of oats from up river points have fallen off since the railroad was reopened and direct shipments to

Poultry in Strong Demand.

A strong demand for chickens was the feature of the country produce market yesjerday. Not half enough came in to fill local and shipping orders.

Receipts of eggs were light and buying

was small, the surplus going into storage.

There was no change in the butter market beyond a further weakness on Front street, where some brands were quoted at

San Francisco Potato Market Weak. Yesterday's wires from San Francisco, while quoting no changes in prices of pota-toes, offered no encouragement to speculabris. The Roanoke's cargo was discharged and 13 cars also arrived there by rail. The supplies proved difficult to move and the tone of the market was easy. Onlone were very firm at San Francisco, selling at 3c a pound.

THREE DEAD IN COAL MINE

Men Suffocated by Fire Damp Which Follows Explosion.

VICTORIA, B. C., April 4.—A special from Frank, Alberta, says:

An explosion of gas occurred in No. 4 colliery of the International Coal & Coke Company at Coleman yesterday morning, causing the death of three men. Eight other miners were taken out unconscious, but all recovered and will survive.

The dead:
CHARLES HUTTON, fireman.
HENRY GREWCUTT.

HENRY GREWCUTT. JR.
The men were not killed by the explosion, but succumbed to the after-damp. Hutton was not in the mine at the time of the explosion, but rushed to when he heard of it, and was overcome. Greweutt, Sr., escaped, but went back for his son and was suffocated. Grewcutt, Jr., was tound in a chute, where he had crawled while trying to escape. Of the eight others affected, only two were burned by gas, the remainder being overcome by after-damps while escaping or assisting in the work of rescue. ing in the work of rescue.

It is impossible yet to ascertain the cause of the explosion, but it is determined that the mine is not damaged to any great extent.

WARRANTS FOR TRAINMEN

Manslaughter Charges Against Those Who Caused Colton Wreck.

COLTON, Cal., April 4—Coronor Van Wie today swore out warrants for the arrost of the employes of the Southern Pacific who were held responsible for the wreck on March 28, in which 25 people were killed and 75 injured. The charge is manshaughter without malice. The following are the names of the men against whom warrants were issued: I. R. Aivord, foreman of the switching crew; J. G. Crusemeyer, switchman, Clarence Warmington, engineer. The complaints charge them with causing the death of H. F. Walthers, of Sacramento, who was among the killed.

Market Responds to Improved Money Prospect.

CHANGE IS A SUDDEN ONE

Southern Pacific and Union Pacific Are Helped by Strong Showing of Net Earnings for February.

NEW YORK, April 4.—There was a material expansion of the volume of transactions in today's rising stock market over the halting and hesitating market of yesterday. The market still preserved its professional appearance, however, and the movement was regarded rather as a readjustment of the price level to the changed conditions in the money market than as a response to any actual large absorption of securities. The readjustment in values was quite radical and sudden, Other factors were given a nominal influence in the day's movement, but there can be no doubt that the changed face of the money prospect lay at the root of the more chearful sentiment expressed by the rise in prices. Yesterday's quotations of 1 per cent for call loans was given sentimental importance, which perhaps was exaggerated considering the small amount of funds placed at that figure and the belated period of the day at which the quotations were made. Today, however, the call loan rate did not rise above 2½ percent compared with a maximum rate of 3½ percent compared with a maximum rate of 3½ percent open to the conditions. Now with the quarterly settlements conclude and the expected refaxation in foreign money markets, New York is without urgent necessity to draw on Europe-London has removed the obstacles to an outge of gold, the price of the metal declining in that market and a sharp fall in the open discount rate opening the way for New York to secure gold it it is dealered. The rapid fall in our own money rates meanwhile has run up the sterling exchanges and the darkest clouds on the financial horizon and is of vasa tentimental influence in disposing of the depression recently hanging over the securities market.

Large imporvement to the reports from Chicago that a settlement was inminent of the NEW YORK, April 4.—There was a material expansion of the volume of transac

ing of the depression recently hanging over the securities market.

Large importance was attached in the day's improvement to the reports from Chicago that a settlement was imminent of the wage dispute on Western roads. Southern Pacific's very strong showing of net earnings for February helped that stock and Union Pacific as well and this had a sympathetic effect on the whole market. A rebound in the London copper market was a favoring incident of the day. The late market showed the usual effect of profit taking on se considerable a day's rise, but gains were quite well maintained.

The bond market was active and very strong in response to the decline in money rates. Total sales, par value, \$3.355,000. United States bonds were unchanged on call. CLOSING STOCK QUOTATIONS.

Lid Is On, But Lottery Still Flourishes

Third-street Man Wins \$40 on and Customers Are Cautious.

A LTHOUGH the lid is tightly screwed on in Portland, there are still opportunities for the sportively inclined to take a chance. One of the methods still open to the initiated is the old-time lottery. Tickets are still hawked about the streets, but only those known to be safe customers, or one vouched for by a man known to the vendor are able to purchase the stamped bits of paper that may bring one a fortune in return for the nominal investment of 50 cents or \$1.

A man on Third street won \$40 yester day from an investment of 50 cents in a lottery ticket. He was paid his winning by a Portland man who acts as agent for the lottery. The company operates from San Francisco. The drawings are held once each month and the winning num-

paper.
It is said the Portland agent has a large number of regular patrons who invest a part of their earnings each month in tickets. Those who buy the tickets are cautious in the extreme in keeping the habit a secret and the agent for the lottery is extremely careful to keep un-der cover, owing to the strict laws against the operation of a lottery. So well are the movements of the agent hidden that the city authorities do not know of the existence of the system in the heart of the city.

Weather Is Favorable in the Wheat Belt.

CHICAGO MARKET IS WEAK

May Option Closes With the Loss of a Cent_Green-Bug Reports Ignored-Corn Steady and Oats Decline.

CHICAGO. April 4.—Cool. showery weather in the southwest caused weakness today in wheat. The report of the Weather Bureau that light rains had fallen last night throughout Missouri, Nebraska, Iowa and Illinois with prediction that additional rains will fall tonight, wiped out the fear of damage to the crop. The report of a Cincinnati crop journal that the crop as a whole is progressing favorably also weakened the market. Weak cables and liberal receipts in the Southwest alded in the depression. Although numerous green-bug reports were received, sentiment through the entire session today was beartsh and the market closed weak, with prices almost at the lowest of the day. May wheat opened in the 10 west of the day. May wheat opened if \$\psi\$ is to \$\frac{16}{2}\$ % leaver at \$76\%c, sold off to \$75\%c, \$\psi\$ of and closed at a net loss of \$\frac{1}{2}\$ for a \$\psi\$ is the general recessions early in the day. The general

recessions early in the day. The general expectation of heavy deliveries on next month's contracts caused renewed figuidation in May outs. Provisions were weak.

Couch, of St. Johns, favors the paving of streets, and is op-posed to the old method of merely gravel-ing them. St. Johns has only one street graveled, that being Jersey street. The others are dirt roadways. Mayor Couch 1,580 advocates the use of gravel or crushed rock. The completion of the new St. Johns ferry will enable St. Johns to get cheap paving material.
