## BREAKS HIS PAROLE

E. B. Jaynes Accused of Passing Worthless Check.

MAY GO TO PENITENTIARY

Prisoner Declares He Has Deposit in Bank, Check Is Drawn, and if It Proves Good Will Escape the Punishment.

Forgetting to live an honest life as he was enjoined to do for the sake of his wife and three little children, E. B. Jaynes has violated his parole, and is again face to face with the penitentlary. Saturday he drew a check on the Commonwealth Trust Company for \$20 in favor of a shoedcaler, paid out of it \$2.00 for a pair of shoes, and drew the balance in eash. When the check reached the bank, there was no money to meet the payment of same, and it was promptly returned to the shoe company protested. They in turn noti-fied the Sheriff, and Jaynes was picked up on his way home to dinner yester-

day noon from his work.

It was immediately discovered that
Jaynes was conviced of forgery last October, and was sentenced to the State prison. The case was tried be-State prison. The case was truth fore Judge Sears, who upon the appeal made on behalf of the man's family. obtained the prisoner's parole, with the understanding that Jaynes would honest life, and take proper

care of his family.

Jaynes is a roofer and tinner by trade, and acording to his wife's statement, has had steady work ever since his release from custody. About a week ago he was locked up in the City Jail with badly bruised head, on a charge of drunkenness. He was released next morning with a severe reprimand.

Yesterday Jaynes exhibited at the last night and locked him up in the County Prison.

Wagner states that Francoli apparently has many friends, and also the symbol of the county Prison.

Yesterday Jaynes exhibited at the jail a bank book showing that he had been depositing money at the Common-wealth Bank, but if he did make a de-posit, his check reached the bank shead of it, and was thrown out. He declares that he put in \$30 Saturday, and supposed he had enough to cover the check drawn. When asked what he did with the change he received at the shoe store, he confessed he did not give it to his wife, who is destitute. after Jaynes was brought in his wife called at the Sheriff's office and asked to be permitted to see he husband. When she was taken to his cell, instead of unbraiding her sprouse, she wept, and asked Jaynes why he was so careless. She told the officers she knew her husband was honest and did not mean to do wrong, but had been carcless in overdrawing his ac-count at the bank. She sent for lawyer O. B. Young, who arrived soc after her appearance, and she turne her busbands bank book over to him Upon finding that Jaynes had deposited

Jaynes may not have to go the penitentiary

Mrs. Jaynes with her three little ones are living at 245 1-2 Front street. She says she is a distant relative of President obsevelt. She says she will do any kir of work to keep two of the children, who are nino and eleven years old respectively, in school. The little girl is three years of age. Her case has been referred to Judge Frazer and Probation Officer Johnson, and a means of livelihood will be furnished her in case she is separated from her husband.

Seven Companies and Seven Individuals Are Defendants.

There were two answers filed yesterday to the complaint of Holz and Krause filed March 28, wherein it is contended that seven corporations and seven persons jointly owe them \$129.50 for material and labor furnished in the construction of a two-story dwelling owned by Mrs. S. B. Linthicum in Couch's Addition. E. Wagner, one of the defendants, declares he owes Holz and Krause nothing, and C. C. Cline of seven persons jointly owe them \$129.50

MUST RETURN TO PACE COURT

Detectives Capture Theodore Mc-Cabe, Wanted at Castle Rock.

Theodore McCabe, accused of a stat-utory offense against Ada Fletcher, 19 years old, was apprehended yesterday by Deputy Sheriffs Leonard and Vaughn on the west end of the Madison-street bridge and placed under arrest. He is wanted at Castle Rock, and the of-ficers at that place have been watching for him since the crime was committed six weeks ago.

Marshai Huntington located McCabe

Upon finding that Jaynes had deposited money in the bank, the lawyer obtained a stay of committeent from Judge Sears, pending investigation. Mr. Young says if it is true there is enough money to square the matter, relating to located McCabe in a saloon soon after the assault, but the mun managed to escape through a back door. He claims to be a South Portland resident. Miss Fletcher is one of the daughters of Mrs. John Seliwood or Oregon City car, starting from First and Alder streets.

Swede Comes Back to Office Obediently

Reads on Corner of Envelope to "Return in Five Days," and Acts Just as Directed.

HRIST NELSON had troubles of his own yesterday. Having been in this country only a few weeks, he was slow in learning American customs, and especially the inscriptions on envelopes. One of his first acts after landing in Oregon was to take out naturalization papers. On the corner of the envelope, in which were contained the documents that make him an American citizen were the words: "Return in Five Days."
"Wal, I be har," he said yesterday, as he shuffled up to the counter in the County Clerk's office, and spoke to Deputy Prasp.
"What do you want?" saled that do

Deputy Prasp.
"What do you want?" asked that of-"What do you want? assed that of-ficial, carefully noting the embarrassed flush on the Swede's face. "Wal, it say on this har envelope 're-turn in five days,' and time be up today,

so I ban come round."

When assured that nobody wanted him, he turned with surprise and waiked sadly away, not certain whether he was naturalized or not.

#### ORDINANCE BECOMES LAW

LANE LETS SHEPHERD BUILD-ING MEASURE STAND.

Contends That It Will Lead to a Re vision of All City Building ing Regulations.

Believing that he can force the Council to amend the present building ordinances, which are admittedly weak and bad in many respects, Mayor Lane yesterday an-nounced that he will allow the Shepherd building ordinance to become a law with-out his signature. Next Wednesday he will submit a letter to the Council asking that a special committee be appointed t draw up a new general building law which would repeal the present building

ordinances.
"Let the hair of the dog cure the bite," laughed Mayor Lane yesterday afternoon.
"The Shepherd ordinance is so bad that I believe the Council will draft a new building law. The public will become aroused and I am of the opinion that the Council will be forced to remedy the present defects, which are many.

'I do not favor the Shepherd law, but had I vetoed it the building ordinances would remain the same as they are now and there would be no incentive to make the Councilmen change them."

The Shepherd ordinance slipped through the Council at the last meeting. Not half of the Councilmen knew what they were voting at the time. When it was pubvoting at the time. When it was published in the newspapers that the ordinance had passed the architects and builders of the city were fighting mad and during the last few days have formed one long procession to the City Hall, where they pleaded with the Mayor to yet oit. Certain Councilmen also asked Mayor Lane to veto the ordinance.

The measure limits all buildings other than of reinforced or concrete construction to four stories in height, and rein-

forced concrete buildings to 102 feet, or not more than 12 stories. Architects say that if this ordinance is enforced it will paralyze building operations in Portland. Building Inspector Spencer has ex-pressed a willingness to draw up a new general building ordinance and to submit it to the proposed special committee of Councilmen and a committee of architects. This will be done if the Council adopts the views of Mayor Lane.

FOR NAVIGATION IN THE AIR

Mr. Borg Favors Vessel Shaped for Atmospheric Pressure.

FORTLAND, April 15—(To the Editor.)

Navigating the air is a problem that will be solved when we have learned to foat in the air, and not until then.

Scientilis and balloonists apeak, write and work as if they were really in earnest to imitate the bird. But from the standpoint of a novice in the matter, I fear they are at sea without rudder or compass. For, if they thought first of floating in a ship before applying power, they would have studied bird anatomy from seemingly a new side.

fore applying power, they would have studied bird anatomy from seemingly a new side.

Why is a bird covered with what we call reathers and not hair? I will answer by saying: Feathers were adopted by the creator because they would enable the bird to float, and the creator turned the foreign into using. These wings are used to propel the bird. How does the feathery covering of the bird enable it is float? The gull of every feather is a vacuum. This vacuum was created by the natural growth and development of the bird. A sac will be noticed inside each guil. This sac contains a fluid, and this fluid is, in the growth of the bird, absorbed by its hody, which leaves the sac empty and a vacuum in the guill. To navigate the air, we need a mechani-

postal for de-

VERY serious \$ickness has a small beginning. And, in nine cases out of ten, 4 that beginning is made in the Bowels.

Constination is the beginning of most diseases. It paves the way for all others. Lack of exercise, hasty eating, improper food, are its first causes.

Laziness, and postponement, permit it to grow into Chronic Constipation, which means life-long Discomfort.

It isn't necessary to be sick-a-bed, you know, in order to be mighty uncomfortable. Even a slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life.

\* \* \* The time to adjust the Bowels is the very minute you suspect they need adjustment. -If your tongue is slightly coated,

-If your breath is under suspicion, -If your head feels a trifle heavy or dull,

-If digestion seems even a little slow. -If Heartburn, Belching, Colic or Restlessness begin to show themselves,

-That's the time to eat a Cascaret.

It acts as pleasantly as it tastes. It is an congenial to your Bowels as it is to your Palate. It stimulates the muscular lining of the

Bowels and Intentines, so that they mechanically extract nourishment from the food and drive out the waste. . . .

The only way to have Cascarets ready to use precisely when you need them is to carry them constantly in your pocket, as you do a Watch or a Lead pencil.

The ten cent box of Cascarets is made thin, flat, round-edged, and small, for this

precise purpose. Be very careful to get the genuine, made
