Local Board Will, HELP.—Believing that as much could not be accomplished with the same amount of money expended in any other publicity enterprise, the Board of Trude has informed the Astoria Chamber of Commerce of its co-operation in creating the office of State Geologist and establishing a Department of Mines and Mining. The local organization has undertaken for some time to have such a department maintained by the state, but has been defeated, principally because of the fact that the plan carried with it necessarily a small apcarried with it necessarily a small ap-propriation. The regular meeting of the executive committee of the Board of Trade will be held at 4 o'clock this afterread will be held at 4 o clock this arter-noon. April 23, 1967—D. Chambers, Portland,
Or.—Dear Sir: Fourteen months ago I
purchased of you a pair of glasses. For
five years I had been a constant sufferer
from headache. I tried different remedies
for my stomach, thinking there was the
cause, took enough blood-thinning teas
to float a battleship, being told my blood
was too thick. At last a friend told me
to consult an optician. I did so, had my
eyes tested, then fitted and have been
free from headache since. At your parlors I received courteous treatment, and
you told me the fruth about my eyes, as fors I received courteous treatment, and you told me the truth about my eyes, as time has shown me. Four other people whom I have sent to you have received the same treatment. Thanking you for your kindness, yours truly. Mrs. W. A. Hodges. Above testimontal came unso-licited.

Fine Excursion Phonised.—Those who join the Portland business men's excursion to Boise have in store one of the most delightful week's trips that has over been planned from this city. Eastern Oregon towns, where the excursion is scheduled to stop, are making elaborate arrangements for the entertainment of the excursionists as they pass through. General Passenger Agent McMurray, of the Harriman lines, and Superintendent Prior, of the dining-car service, are mak-ing every possible arrangement for the omfort and convenience of the travelers, who will travel in a special train. An especially interesting feature of the excursion will be the trip of Sumpter merchants to Baker City, where they will join the merchants from the Rose City. Final reservations for the party, which will number 75 persons, will be made at a meeting Friday morning.

APPROVE STREET AMENDMENT,-The pro-Affrove Street Amendment.—The proposed amendment to the city charter providing for district street improvements
has been examined by the officers of the

of paying their assessment of the cost
of the improvement under the Bancroft

VISITORS LAKE PORTLAND .- "Portland building more rapidly than any other city in the north border of states and throughout the entire Northwest," commented two wealthy Eastern men, who spent yesterday in this city. During the after-noon they were excerted through the business and residence districts by Tom husiness and residence districts by Tom-Richardson, manager of the Portland Commercial Club. One of the visitors was a mutti-millionaire, but for business reasons neither of the gentlemen would be quoted. They only recently disposed of large interests in the East and are in search of another location where they will make some large investments. "Our trip to the Pacific Coast has included an inspection of Denver, Salt Lake, Spokane, Seattle and Tacoma. Not only is Portinspection of Denver, Saft Lake, Spokane,

NEW HAIRCUT RATE.—The boss barbers of Portland held a meeting last night at the shop of F. T. Rogers, Third and Alder streets, at which the principal business of the evening was the discussion of the 35-cent bair-cutting rate. This rate will go into effect May 15. It is the opinion of the employing barbers that this rate should have been charged before this, but those who started the movement resulting in the present raise in price were not confident formerly that there was sentiment enough back of the higher price to warrant an effort to get all barbers of Portland to raise the price. It is noticeable that since the first rumor of a raise in price many men are taking advantage of the present raises

meeting of the Union Labor party last night plans for doing effective work in the municipal primary nominating elec-tion were discussed. Instead of holding a mass meeting, which was first pro-

will be expected to attend these meetings when working committees will be appoint-

SPRINKLING TRAMS SCARCE.-Sprinkling

Sprinkling Trams Scarce.—Sprinkling in Portland may be seriously interfered with this Summer owing to a scarcity of teams. Superintendent Donaldson, of the Street Cleaning Department, could use 15 teams if he could obtain them. Street sprinkling has begun, but about half of the wagons cannot be utilized because of the shortage of teams and drivers. As there is a growing demand for teams the condition may prove serious.

The above offer is not so startling as some of the sensational baits thrown out by "fire sale." "bankrupt sale" and other sorts of mercantile degeneracy promoters, but 'ils more believable. No man will question its thorough dependability when he knows it comes from the well known and reliable clothiers—the Brownsville Woolen Mill Store, at the corner of Third and Stark streets. This popular clothing house opens today their annual "trade-building sale," an event that hundreds of Oregon's best-groomed men wait for each Spring.
