BAKER HAS SCHEME

Playground for Children Is Favored by Councilman.

WOULD USE A PARK BLOCK

Thinks Fine Romping Place for Little Boys and Girls Could Be Provided at a Cost of But a Few Hundred Dollars.

Conneilman George L. Baker will exert his influence with the Council and the Executive Board to have the blook bounded by Park and West Park streets and Salmon and Main streets converted into a children's playground. Already he has

purpose it is believed the money will be readily forthcoming. Mayor Lane and members of the Executive Board have gone on record as ardent advocates for playgrounds for children and there is every reason to think the hourd will co-operate with the Council. The first step that Councilman Baker

took to effect this end was to obtain from City Atterney McNary an opinion as to whether the city has the right to convert one or more of the Park blocks into playgrounds. Mr. McNary says that the Council cannot set apart one of the blocks by enclosing it with a fence, but selleves that swings and other paraphernalia with which children enjoy outdoor cruise could be set up on any of the ocks without any legal complications

In a letter to Mr. Baker City Attorney McNary says: "I have to advise you that the blocks referred to as the Park blocks were by the acts of Stephen Coffin ,as construed by the Supreme Court, dedicated to the public as parks. In my opinof such blocks for a particular use, such

as a public playground.

Mr. Haker originally planned to have the playgrounds enclosed, but he says that this is not necessary. He believes, and his opinion is shared by many others, that if any one of the blocks is fitted up as a playground, the boys and girls will not be subjected to the intrusion of older. not be subjected to the intrusion of older

Park streets and Salmon and Main streets is regarded as an ideal location for a playground. There are but very few vacant lots in that neighborhood where children can romp about and the density of population in that part of the city is rapidly increasing. By the expen-diture of \$200 or \$300 excellent playgrounds would be available to the children.

t is only a question of time until we have to establish numerous play-inds about the city, and the sooner we begin, the better for the growing gen-eration." declared Mr. Baker yesterday siternoon. "Every child should have an apportunity to play about in the open air and what the boys need is plenty of vigorous outdoor exercise. There are thousands of children in Portland who are deprived of this opportunity. If

a fence no one would dare to molest the children and they would be perfectly safe."

THINKS DEBS IS ALL RIGHT His Great Purpose Is to Benefit Fellow-Man, Says Mr. Harris.

PORTLAND, April 25 -- (To the Edifor.)-Concrete statements can almost always be misconstrued and mistaken unless one is misconstrued and mistaken unless one is familiar with the subject and circum-stances. Very faw men, great or small, have not, under arress, said more or less un-warrantable things. If language was ade-quate to express every shade of thought,

utterances by their motives, education and

environment.

There are few better-informed men along lines that today demand the mest serious and careful consideration of the world than Eugene V. Debs, and Mr. Roosevelt. a children's playground. Already he has succeeded in arousing the enthusiasm of some of the city officials over the idea and many prominent citizens who heave learned of the movement are lending him their moral support.

The sentiment in favor of the establishment of a playground for children promises to reach such proportions that when Mr. Baker asks the Council to appropriate several hundred dollars for that purpose it is believed the money will be same.

same
He resigned a lucrative editorial position to devote his life to perfecting a grand federation of railway labor and the results federation of railway labor and the results of his efforts were of immeasurable value. He believed he saw a limit to his work in that direction and then turned his attention to what he conceives to be a more necessary task. He was arrested and imprisoned while defending his fellows in trouble. He may have done some unwarrantable things to bring this about, but millions of men to longer hold this arrives him because

mon spirit among Americans I believe this one unguarded letter will do more to ac-centuate the class distinction between labor and capital than any one or a dozan acts of his to prevent such distinction. I think this because his great following will quickly acquience in his judgment and the thought-ful labor following will as quickly take issue. R. A. HARRIS.

thousands of children in Portland who are deprived of this opportunity. If there were enough playgrounds there would be fewer boys roaming the streets.

"To fix up one of those Park blocks will cost an insignificant sum compared to the health and happiness it will bring. We could put up swings, teters, turning poles and other equipment that brings enjoyment to young America. We could arrange one or a part of a block for boys and another part for girls. Even without

WORM IS DESTROYING MANY VINES IN COUNTY.

Fruit Inspector Deich Says This Year's Crop Will Be Unusually Short-No Remedy for Evil.

county about Mount Tabor are again confronting the probable destruction of a considerable portion of their vines and considerable citizen.

County about Mount Tabor are again confronting the probable destruction of a considerable portion of their vines and considerable portion of their vines and crops by the reappearance of a small worm that eats away the heart of, the vines, Richard Delch, Fruit Inspector for Multimomah County, has made an inspection of the strawberry tracts at Mount Tabor and Russellville, and says that they are and they are all more or less in the grasp of this pest, with the prospects that the crop will be very short. He is not able to suggest a remedy, and no one else has yet been able to tell how to exterminate the been able to tell how to exterminate the post.

It is not a new pest. It appeared these added a few more to his list but that is all. But that is all got must be judged by what they really are, and their acts and utterances by their motives, education and

It is not a new pest. It appeared three years ago, but not so extensively as now, and it was then predicted that it would sweep away many of the strawberry tracts. Appeal was made to the Oregon agricultural experiment station for some

remedy was found.
Professor A. B. Cordley, in his address before the Evening Star Grange Pair, held in the hall on Section Line road three years ago, was asked for a remedy, but admitted that he could suggest no other way than to pull up the vines in fields affected and burn them, and then reset with new vines. Many of the growers did this, new vines. Many of the growers did this, but, according to inspector Deich, the pest has taken a fresh grip on the vines and is causing greater havor than ever. The worm seems to come from the ground and cats out the crown of the vines, killing

them. It appears that spraying the vines will not rout the pest.

Inspector Deich made examination of destroyed vines and found a small worm, not the ordinary cutworm, but just as deadly in its work. That is why he thinks the strawberry crop around Mount Tabor and elsewhere in the county will be short

may have done some unwarrantable things to bring this about, but millions of men no longer hold this against him because they concede there was provocation and that it was at least in part to blame.

He is an undesirable collisen much as was John Brown. Undesirable to Mr. Roose-voit and many others, possibly, but not to all—oh, no, not by any means, to all.
Labor acts strictly within its place and rights in voicing its fidelity to the cause of Moyer, Haywood and Pettibone may ance more or less foolish are made, to be sure. This is always the case among a low or thinks and the same of the readility in a westy conceivable unfesting and despicable curs if they did not show their fidelity in every conceivable thing can be accomplished for their cause. What would become of the traditions of our own country's history from beginning to end in the light of this last bit of Roose-velt and logic.

Moyer, Haywood and Pettibone may be had men, and if so it is to be hoped their guilt may be established, but it is labors right and duty to work steadfastly in their cause, believing in their innocence until they are found guilty.

The writer has, for a long time, been an if a danirer of Roosevelt, but was very much disappointed to not that in his recent letters and one plit among Americans I believe this one sunguarded letter will do more to account in the class distinction between labor and coupling the contrast side of the every in Colorado.

With all his boasted fidelity to the company of the story in Colorado.

With all his boasted fidelity to the company of the story in Colorado.

With all his boasted fidelity to the company could be able to any and capital than any one or a dozen acts of the contrast side of the every in Colorado.

The mental examination if prospective partitions and capital than any one or a dozen acts of the contrast side of the every in Colorado.

The writer has, for a long time, been an in a labor and capital than any one or a dozen and capital than one or a dozen and capital than any one or a dozen

OREGON DENTSTS TO MEET

State Association Will Hold Annual Convention Next Week.

The Oregon Dental Association will hold its annual meeting and banquet at the headquarters of the Commercial Club, May 2, 2 and 4.

In addition to a number of importhe delition to a number of important business matters which are to
come up at this time, an interesting
programme has been prepared. Every
effort has been used by the committee
on programme to make this session the
largest, as well as the best ever held.

Constipation, which gives rise to many
graver troubles, is cured and prevented
by Carter's Little Liver Pills. Try them
and you will be convinced.

STRAWBERRY PEST OF ADLY The committee is as follows: Dr. J. Keefer, Dr. M. F. Fenton, Dr. F. Sellwood, Dr. Joseph Hickey, Dr. O. Ireland, Dr. C. C. Newcastle and Dr. W. Stryker.

W. Stryker.

Among other problems and demonstrations to be studied at the gathering of the dentists is the hare-lip operation, which will be performed at the Saturday seasion by Dr. I. D. Meyer. Any party knowing of a case of hare-lip which can be secured by the doctors for the demonstration operation is requested to communicate with Dr. Meyer.

The following are the officers of the association: President, George H. Nottage.

sociation: President, George H. Nottage; vice-president, A. P. Watson; secretary and treasurer, Jean Cline.

The Late Lute Roger Thompson.

nomah Cemetery. He was born December 22, 1883. His early life was spent at Portland. He was well known in musical circles here, having a baritone voice of unusual quality. The last two years of his life were spent at the Chicago Conserva-tory of Music, at Chicago, where he made good progress and had fine prospects. Mr. Thompson was a prominent member of the Multnomah Club, where he had many friends. His health began to fail many friends. His health began to fail last July, and in Pebruary he was compelled to come home and undergo an operation from which he did not recover. Mr. Thompson was a brother of Mrs. J. N. Archbold, Mrs. Sue Agnew, Miss Jessie Thompson and H. H. Thompson, all of this city, and of Mrs. J. W. Taylor, of Albany, Or.

Colored Elks Sue for Charter.

FRANKFORT, Ky., April 26.—The colored organization, "Elks of the World," of Louisville, today filed a suit to compel the Secretary of State to sign their charter, which he has heretofore refused to do.

WANTS BIG CELEBRATION

DAN M'ALLEN LOOKING AHEAD TO FOURTH OF JULY.

Favors Observance of Anniversary of Portland's First City Election at Same Time.

Dan McAllen now wants a great and glorious Fourth of July celebration. What is more, he says he is going to have it. and no one disputes his word. Although he has been seriously ill he has taken an early departure from his sick bed and is

early departure from his sick bed and is talking Fourth of July.

He proposes to have the biggest cele-bration in the history of Portland and his enthusiasm has formed the nucleus for a great event. Mr. McAlien plans to make the celebration of noteworthy inter 56th anniversary of the first city election. Tuesday, April 7 of this year was the 56th anniversary of the election and Mr. McAllen thinks that the two days could be fittingly observed and gloriously cele-brated on the same day.

"Now is the time for it; let's all pul together," said Mr. McAllen yesterday,
"The people want it and they shall have
it. Had it not been for the San Francisco fire we would have had a great time last Independence Day, but this year we can give a celebration far grander than the one we had planned for last year. "By all means we should celebrate the 56th anniversary of our first city election simultaneously with our Fourth of July. Why not? Everybody is interested in the approach of election and at this time would enter into the proper spirit for the celebration. Old Fourth of July will get the greatest recention of its big

will get the greatest reception of its his-tory in Portland this year."

Mayor Lane yesterday seemed to be pleased over the prospects of a celebration. He said that if the citizens want committee to make the preliminary ar-

versary of the first city election was suggested last Fall by George H. Flines. Hugh D. O'Bryant was the first Mayor, gested last Fall by George H. Hines. Hugh D. O'Bryant was the first Mayor, and Robert Thompson, Shubrick Norris,

FACTS, NOT FICTION

Experiences of Portland Citizens Are Easily Proven to Be Facts.

The most superficial investigation will prove that the following statement from a resident of Portland is true. Read it and compare evidence from Portland people with testimony of strangers living so far away you cannot investigate the facts of the case. Many more citizens of Portland will indorse our claims.

Mrs. L. C. Heidleback, of 652 East Tenth street, Portland, Or., says: "In my experience Doan's Ointment is the best remedy I ever used for the complaints it is guaranteed to cure. It-brought me almost immediate reliefmore than I ever expected—for I had been annoyed for a year or more with itching hemorrhoids, which, although not serious, were very annoying. heard about Doan's Ointment, and got a box at a drugstore. Its use gave me the highest opinion of such an effective remedy."

KIDNEY AILMENTS ULCERS Free Consultation

In the treatment of certain special diseases there can be no comparison between the ability of the ordinary doctor and the trained scientific specialist. In his fruitless efforts to explore and conquer the whole field of medicine and surgery the average physician so scatters his talents that he becomes thoroughly proficient in no particular branch; possesses no special skill, no expert knowledge on any given subject.

But the true specialist—not the ALLEGED specialist, whose pretended specialty includes every human fill as their amnouncements imply—the genuine expert never attempts more than he can do well. His persistent study, diligent research and scientific investigations are all directed to a

few diseases, a single class of them, on which all of his efforts are concentrated and to which his practice is limited. Hence he beomes easily supreme in his chosen field of work.

en field of work.

If you are, therefore, suffering from any of the diseases, weaknesses, defects or infirmitles peculiar to men, who ought to be able to do you more good—the ordinary doctor, who does the best he can, but honestly makes no claim to special skill; the pretender, who represents himself as a specialist in every aliment of man, woman and child; or the legitimate specialist, who has given the best years of his life to the study and treatment of this one single class of trouble?

KIDNEY AND URINARY DISEASES

Such as enlarged Prostate, Cystitis, or Inflammation of the Bladder, with resultant kidney affections, drains and losses, receive most skilling the superity treatment, and a perpianent cure is guaranteed in every case taken. Our method of treating those complicated allments is painless and without resort to surgery. The affected centers are soon restored to their natural vigor and vitality, and the patient made strong and healthy.

The Scientific Treatment of Weakness

Dozing the system with powerful stimulants and tonics in an effort to restore functional vigor can have but one final result: The condition is rendered worse than before "Weakness" is merely an indication of the profitality of the condition is but aggravated by stimulating remedies that excite temporary activity. We employ the only scientific and fully effective treatment for "weakness," which effects a permanent cure by restoring the prostate gland to a sound and healthy state. We obtain complete results in every case we treat.

we want every man in the country who is afflicted to write us about his allment.
