

ATTACK ON ARMY CAUSES TUMULT

Cabinet Resents Insult by Threatening to Boycott Douma.

OFFENDER IS SUSPENDED

Socialist Deputy Zuraboff Says Army Always Beaten in War—Storm Breaks Loose and Many Duels Are Likely.

ST. PETERSBURG, April 29.—A savage attack was made tonight against the government and the army by the Socialist member, M. Zuraboff, during the first executive session of the lower house of Parliament, caused a rupture between the Ministers and the Douma, which, for a time, threatened to precipitate the dissolution of the house. After M. Zuraboff's harangue, in which he declared that under an autocratic regime the army was worthless except against the people and that it was beaten whenever it engaged in a foreign war, the Ministers withdrew from the house and served an ultimatum upon President Golovin that unless the offensive expressions were retracted by M. Zuraboff and the rule providing for temporary suspension was applied against him they would sever all future relations with the Douma.

Causes Crisis in Cabinet.

M. Golovin was unable to have the demand complied with as the Radicals supported their colleague solidly and the Poles refused to vote. The suspension and formal rebuke of M. Zuraboff was pronounced by the President of the chamber, but this failed to satisfy the ministers, who subsequently ordered the government experts to withdraw from the evening session of the budget session. Immediately after adjournment Premier Stolypin summoned an extraordinary session of the Cabinet, but at midnight Premier Stolypin summoned M. Golovin and informed him that the incident had caused serious friction in the Cabinet. He hoped, however, a way would be found tomorrow to arrange matters without fatal consequences to the Douma.

Zuraboff Raises Storm.

The early discussion of the army bill in the Douma today was stormy, but the culmination came at 6:30 this evening, when M. Zuraboff made his speech. President Golovin, who then restored things to a semblance of order, attempted to explain away M. Zuraboff's words as a criticism of the old army under the old regime, both of which had passed into history. He then suspended the session for ten minutes in order to allow the passions of the members to cool.

The recess was protracted for almost two hours while a series of weighty conferences were being held and reports were telephoned to M. Stolypin and the Emperor. Finally, Lieutenant-General Krutiger, Minister of War, announced the ministerial ultimatum, adding that the Emperor would never stand such insults to his faithful army.

When the House reassembled, M. Golovin announced that, owing to the tumult, he had not clearly understood the purport of M. Zuraboff's speech, and after having listened to the stenographer's report, he found the reflections upon the army unparliamentary and inadmissible in debate. Therefore he deprived M. Zuraboff of the right to the floor.

Tumult Ends in Bolt.

The wild tumult again broke loose and the members of the Right refused to permit M. Tsereteli, who wanted the floor, to speak. Premier Golovin shouted that unless the uproar ceased he would resign, but order was not restored until the Social-Democrats, the Social-Revolutionists and other members of the opposition, with M. Tsereteli at their head, filed out of the hall. M. Golovin requested the House to express approval of his course and this was voted by the minority Democrats remaining. At a conference of the Social-Democrats tonight the advisability of M. Zuraboff's immediately quitting St. Petersburg, owing to the certainty of his being challenged to duels and the danger of his being summarily dealt with in case he declined to fight was considered.

STAY DAY UNDER WATER

Most Thorough Test of Submarines Ever Made.

NEWPORT, R. I., April 29.—Many persons interested in the coming trials of the submarine boats Lake and Octopus arrived here today. The competitive tests are to be the most exhaustive and thorough ever carried out here, and occupy from one to two weeks. The boats will be submerged for 24 hours with the board crew eating and sleeping on the vessels. A number of foreign officers and experts are expected, and it is probable that they will observe the surface movements of the Lake and the Octopus from shore.

WATERWAY BOARD ORGANIZES

Will Inspect Mississippi River and Great Lakes.

WASHINGTON, April 29.—The Inland Waterways Commission, recently appointed by the President to make a general investigation into the question of improvement of rivers, canals, and the utilization of streams for irrigation and the improvement of swamp lands, etc., held its first meeting today. All the members were present, and the organization was completed by the election of Senator Newlands, of Nevada, as vice-chairman and Dr. W. J. McGee, a scientist residing in Washington, as secretary. In addition to Messrs. Barton, Newlands and McGee, the commission is composed of Senator Warner, of Missouri; ex-Senator Bankhead, of Alabama; General McKenzie, of the Army; F. H. Newell, of the Reclamation Service; Clifford Finchel, Chief Forester, and Herbert Smith, Commissioner of Corporations.

The commission immediately began consideration of the important matters before it with a view to laying out a plan for future work. It is expected that the commission will be in session in this city for about a week. The Commission decided to make visits of inspection to the Mississippi

River and the Great Lakes. The discussion showed a tendency on the part of the Commission to consider the subjects involved along the broad lines and in pursuance of this plan there will be a general inquiry into the subject of the improvement of rivers and harbors, the purity of water and all other general subjects connected with the inland water system of the country.

France Wants Reciprocity Treaty.

PARIS, April 29.—Ambassador White has joined Consul-General Mason in recommending that the American Government propose the appointment of a joint tariff commission, similar to the one which has been in session at Berlin, with the hope of reaching a basis for the avoidance of future tariff complications with France. The American Chamber of Commerce of Paris has forwarded similar recommendations to Secretary Root. The Chamber is convinced that unless a reciprocity treaty is negotiated soon the French Government will not be able to resist the demands of the

INAUGURATED GOVERNOR OF PUERTO RICO.

Regis H. Post, who was inaugurated Governor of the island recently to succeed Beckman Winthrop, was formerly Insular Secretary. The inaugural ceremonies were elaborate and were attended by the leading men and women of the island and by Secretary and Mrs. Taft. Post in his address announced that he would not introduce a new policy, but would follow the general lines pursued by his predecessors which had been productive of good results.

DARING THEFT OF AN AUTO

Taken From In Front of the Keith Oyster Parlors.

Three Men Enter Big Machine and Drive Away—No Trace of the Culprits Can Be Found.

Portland police records contain items of nearly every description as having fallen prey to thieves, robbers, burglars and their ilk, but at 12:30 o'clock this morning the first theft of an automobile occurred. Last night "Shorty" Dundee, a chauffeur in the employ of J. B. Kelly, local agent for the White automobiles, suffered the humiliation of having his big touring car stolen from in front of Keith's Oyster House at Sixth and Alder streets. Dundee was in the restaurant with a party he was preparing to take for a spin during the early morning, and on leaving the place to prepare the auto for the trip was started to find the big "speed annihilator" missing. Dismissing his guests, he called at the stand of another employe of the White agency and in the latter's machine the hunt for the missing automobile was commenced. Patrons of a restaurant across the street from Dundee's stand informed the chief that three men had entered the machine and driven off with it, but no attention was paid to the incident. The machine is described as a large double-cylinder White steamer, with city license No. 19, and the number on the lamps was 101, but the cipher has been obliterated by contact with the elements, leaving the number to read 11. The body of the auto is black, and has a brass rail running the entire length of the machine on both sides.

All the taverns and chauffeurs who could be reached by telephone this morning were notified to be on the lookout for the machine, which is known to them, and the driver hopes to hear from some one seeing the machine before many hours.

GUGGENHEIM FOUND OUT

Senator's Brother Co-respondent in Divorce Case.

NEW YORK, April 29.—(Special.)—Upon the strength of a bill of complaint in which Benjamin Guggenheim, brother of United States Senator Simon Guggenheim of Colorado, and a member of the firm of A. Guggenheim & Sons, was named as the co-respondent, Senator A. Taska, the recommendation of Snowden Marshall, of 119 Broadway, the referee, for Taska that last September they broke into Mrs. Taska's apartment and found Guggenheim there.

BOND STEAL WAS \$570,000

Trust Company Loses \$140,000 by Douglas-Dennett Crime.

NEW YORK, April 29.—The total market value of the bonds alleged to have been abstracted from the Trust Company of America by W. O. Douglas, the assistant loan clerk, was \$570,000, according to a formal statement issued by the company's examining committee today. All the securities, with the exception of \$83,000, are said to have been recovered, but the gross loss to the Trust Company was \$140,000, as \$432,000 was paid to various stock exchange brokerage firms which hold the securities as collateral. Douglas' surety bonds, amounting to \$25,000, will be deducted, making the company's net loss \$115,000.

REVOLT BREAKS OUT

Montenegrins Rebel Against Military Rule.

MARCH AGAINST CAPITAL

Government Campaign Against Radicals Causes Rioting and Threat of Premier to Resign—The Militia Is Called Out.

MONTENEGRO.

Montenegro is noted as the sole part of the Balkan peninsula which the Turks never could conquer. It is a nest of mountains bordering on the Adriatic Sea, with an area of about 2800 square miles. The population is about 225,000 of Serb stock with a mixture of Albanians. For five centuries there was almost incessant war with the Turks, but after Montenegro aided Russia in the war of 1878, she was rewarded by European recognition of her independence and a large accession of territory, giving her an outlet to the sea at Antivari. The government, while nominally a limited, is practically an absolute monarchy, the elective council of state having little power.

VIENNA, April 29.—Dispatches received tonight report the outbreak of a revolt and grave political crisis in Montenegro. Military government has been proclaimed, and premier Tomonovich has tendered the resignation of the cabinet, which Prince Nicholas has refused to accept.

Armed bands are reported to be marching on Cetinje. Serious street fights have occurred at Podgorizza, 38 miles north of Scutari, having a population of about 7000. Several persons are reported to have been killed or wounded. The militia has been called out and further conflicts are feared. The trouble in Montenegro has arisen because of the campaign the cabinet has been inaugurating against the Radical party. The government is accused of instigating the destruction of the principal offices of the two Radical papers at Nikosch, which had attacked the government and Prince Nicholas. This action has aroused consternation.

WOUND GOVERNOR AND CHIEF

Montenegrin Revolt Aims at Heads of Local Government.

CETTINJE, April 29.—General Martinovich, Governor of Podgorizza, and Chief of Police Mascewoda were shot today by an ensign and mortally wounded. The assailant was killed.

ON GUARD AGAINST RIOTING

France Expects Trouble Only in the Ports and Revolutionary Hotbeds.

PARIS, April 29.—The fear of extensive troubles in connection with May day labor demonstrations has disappeared, so far as Paris is concerned. The authorities have decided it will not be necessary to bring additional troops here. Last year's disposition of troops and police will be repeated, but no street processions. Several of the more violent Socialist agitators already have been arrested. Dispatches from the provinces indicate that the government's energetic measures to preserve order at all hazards have dampened the ardor of labor organizations, as many of them have abandoned the idea of making demonstrations, believing that they would only lead to conflicts with the police, in which the workmen would be the greatest sufferers.

Trouble is likely, however, in the large seaports—Toulon, Brest, L'Orient and Cherbourg—and in the interior cities of Rouen, Lyons and Angoules, which are revolutionary hotbeds.

QUEEN OF SPAIN STILL WELL

Takes Drives and Visits Churches Without Showing Fatigue.

MADRID, April 29.—The health of Queen Victoria is most satisfactory. She took her usual morning and afternoon drives today, during the latter in which she visited various churches without showing the slightest fatigue.

Buys Siberian Dogs for Wellman.

ST. PETERSBURG, April 29.—Through the agency of the American Consul-General, Mr. Watts, a train of 29 Siberian dogs has been provided for the Wellman-Chicago Record-Herald expedition. They were secured in the remote interior of Russia, and will be shipped via Archangel to Wellman's base in Norway.

AMERICANS TAKE THE LEAD

RECOGNIZED AS FIRST IN THE FRENCH ARTISTS' SALON.

Fallieres Opens Exhibition Pronounced Best in a Dozen Years.

PARIS, April 29.—President Fallieres, accompanied by the representatives of France and foreign nations, including Henry White, the American Ambassador, this afternoon inaugurated the Spring Salon of the Society of French Artists in the Grand Palais. It is the universal verdict of critics that the exhibition of paintings and sculpture surpasses any seen in a dozen years. America for the first time leads all foreign countries, both in the number and in the excellence of works displayed. This is recognized and a prominent place has been accorded to American canvases. England secured second place. The entire exhibition is remarkable for the uniformly high standard of the works. Only 1999 pictures are shown, the jury having ruthlessly rejected those of over 4500 aspirants. All paintings of the decadent or the impressionist schools have been vigorously excluded.

The sensation of the salon is a huge canvas by William Laparra, who won the Prix de Rome last year. The painting originally was entitled "Grandeur Militaire," but this was subsequently changed to "Le Fédéral." Perhaps the most artistic bit of canvas is that of Joseph Bail, which shows two nuns in a convent. The Marquis de Wentworth's portrait
