The believe in the workingman. His inter-eats are mine. I believe with the President, the New York Independent, Colonel Van Cleve of the Manufacturers' Association, W. J. Bryan and The Oregonian, that the re-centition of labor unions will be beneficial to society, but if ever we, as laboringmen, are to command our own self respect and that of the general public, it will be atter we come out from under the influence and control of such men as the editor of the Labor Press.
